ABOUT THE ROYAL COLLEGE OF PSYCHIATRISTS 11

A HISTORY OF THE INTERNATIONAL CONGRESS 12

Why exhibit?

The Royal College of Psychiatrists' International Congress is the UK's leading psychiatry conference, bringing together over 2,500 psychiatrists, healthcare professionals, researchers, educators and industry partners from across the world. The Royal College of Psychiatrists celebrated its first International Congress in 2010 with just over 1,300 delegates. Since then, the event has grown steadily to become one of the most prestigious mental health events in the world.

Held at the **Scottish Event Campus (SEC) in Glasgow from 14 to 17 June 2027**, Congress provides a unique platform to showcase products and services, generate new business opportunities and engage directly with key decision-makers across the mental health sector both from the UK and overseas.

Whether your objective is to launch an innovation or new product, strengthen brand awareness, recruit talent or build relationships with existing customers, Congress offers unparalleled access to a highly engaged and influential audience.

Exhibition and sponsorship opportunities are allocated on a first-come, first-served basis. Early booking is recommended to secure the most prominent positions and maximise exposure ahead of Congress 2027.

Congress at a glance

- **2,966** delegates, speakers and exhibitors attended in 2026
- **51** countries represented
- **90%+** attendees rated Congress as good or excellent
- **4 Days** of networking and learning
- **250+** expert speakers
- **2,500+** expected attendees in 2027

RCPsych International Congress 2027 Exhibition

Located at the heart of Congress, the exhibition hall is where delegates come together to network, discover new products and services, and engage with industry partners. Designed to maximise footfall and interaction, it provides exhibitors with unrivalled opportunities to connect with prospective customers, strengthen existing relationships amongst a highly targeted audience.

As an exhibitor you will have unrivalled access to a significant number of international decision makers.

New for 2027!

We are delighted to offer three new marketing opportunities to exhibitors: Sponsored symposia, a tech demo zone offering the chance to show case your products and branded mobile charging tables.

Sponsored Symposia

Position your organisation as a thought leader and engage directly with delegates through a dedicated 30-minute sponsored symposium delivered within the exhibition hall during peak attendance periods.

These dedicated 30-minute sessions within the main exhibition hall offer an unparalleled opportunity to present the latest developments in your field to attendees, including emerging research, key issues, innovative approaches, present new evidence and practical insights and facilitate meaningful discussion around your organisation's work relevant to psychiatric practice. Sponsored symposia provide a valuable platform to engage delegates in meaningful discussion, share diverse perspectives, and contribute to conversations shaping the future of mental healthcare.

A number of symposium slots will be available throughout the Congress break and lunchtimes, allowing you to connect with attendees at key points during the programme.

Tech Demo Zone

Bring your products and solutions to life in our dedicated Tech Demo Zone.

This interactive space provides an exciting opportunity to showcase cutting-edge technology, demonstrate innovations in real time, and engage directly with delegates through hands-on experiences. Exhibitors will have the flexibility to customise their allocated space to create an environment that best reflects your brand and objectives.

Please note that additional staffing may be required to support your Tech Demo Zone presence alongside an exhibition stand. Any associated costs will be discussed as part of the booking process.

Branded Mobile Charging Tables

Extend your visibility by sponsoring one of our mobile charging tables.

Located in the main exhibition hall in areas with high footfall and at key locations throughout the venue, these branded charging stations provide delegates with a valuable service while offering your organisation continuous exposure away from your exhibition stand throughout the event. Charging tables can be customised with your company branding, logo, and messaging, with a range of sizes and styles available.

This is an excellent addition to an exhibition stand package, helping to increase brand recognition and maintain a visible presence throughout Congress.

ABPI regulations

To support our pharmaceutical partners in meeting ABPI requirements and to provide greater assurance around access to promotional exhibition areas, we will be introducing some changes to the exhibition hall layout for 2027.

The RCPsych stand, registration area, e-poster displays and poster presentation stages will be located at the front of the hall. The exhibition area and catering will be separated by walling and accessible only to healthcare professionals (HCPs).

Access to the exhibition area will be controlled via two dedicated entrances. We have also recently implemented a new registration system that enables attendee status to be displayed on badges, allowing for a streamlined and effective access-control process.

Exhibitor Testimonials

2026

"Really well-run conference, engaged audience and lots of footfall."

"The best parts of the Congress exhibition, were the quality of delegates, support (pre-event and onsite) and the location of the event."

2025

“Attending events like this provides invaluable networking opportunities, as well as another platform to promote our brand and Trust.”

“I have been at my organisation for 20+ years and attend many conferences.

This was one of the best organised and run conferences I have ever attended.”

“The organisation was excellent and the attention to detail was great. I loved the fact that exhibitors were not forgotten with the little details.”

2024

“It was very well organised, great location, great atmosphere.”

“Whole thing was excellent, one of the best conferences I have attended.”

“Lots of activity at the booth, interest and engagement from delegates.”

About the Royal College of Psychiatrists

The Royal College of Psychiatrists is the professional medical body responsible for supporting psychiatrists throughout their careers, from training through to retirement, and in setting and raising standards of psychiatry in the United Kingdom.

The College aims to improve the outcomes of people with mental illness, and the mental health of individuals, their families and communities. To achieve this, the College sets standards and promotes excellence in psychiatry; leads, represents and supports psychiatrists; improves the scientific understanding of mental illness; works with and advocates for patients, carers and their organisations. Nationally and internationally, the College has a vital role in representing the expertise of the psychiatric profession to governments and other agencies.

The core purposes of the Royal College of Psychiatrists are to:

- Set standards and promote excellence in psychiatry and mental healthcare
- Lead, represent and support psychiatrists
