

# Practice Development

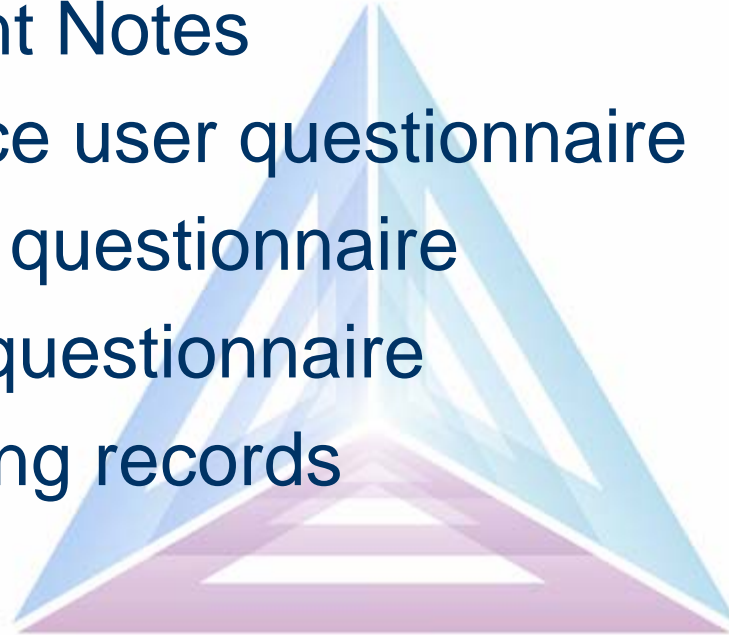

- Do you think that there should be agreed standards of good practice?
- Do you think as a manager your team adhere to all standards of good practice?
- If there was an incident in your service, do you think you would have the confidence to evidence that you were adhering to good practice standards?
- How would you do this?

# Scenario

- *Describe a patient incident.*
- Are there practice standards in place to prevent/minimise the likelihood of this incident occurring.
- How can you demonstrate that they are in place?

# Have you thought about this..

- Patient Notes
- Service user questionnaire
- Carer questionnaire
- Staff questionnaire
- Training records

# What would you do with the findings?

- If they show inconsistencies?
- Non-compliance with the standards?
- If they showed 100% compliance with the standards?
- How do you think the Trust supports you in this process?

# The Clinical Audit Department.....

- How the Clinical Audit Department can advise/assist you!
- Audit Tool Design
- Sample Size Development
- Analysis of Forms
- Writing the Reports
- Advice on disseminating findings
