Masterclass on ASD & ADHD

An opportunity to learn from 3 experts about diagnosis and treatment of ADHD and ASD in adults. This will include state of the art information on how to engage, assess and treat adults with these complex and often overlapping disorders. You will also learn about differential diagnosis (for example from personality disorders and psychosis) and psychopharmacology in these disorders.

Professor Christopher Gillberg, Child and Adolescent Psychiatrist, University of Glasgow/Gothenburg - leading world expert on ASD and ADHD across the lifespan (e.g. INSAR (The International Society for Autism Research) lifetime achievement award 2016). “The Essence of ADHD and ASD: The bigger picture”

Dr Premal Shah, Consultant Adult Psychiatrist and Honorary Senior Lecturer. General Adult Psychiatrist, North-West CMHT, Edinburgh, Lothian Adult ADHD Team, Royal Edinburgh Hospital/University of Edinburgh - Scotland’s leading adult psychiatrist in the fields of ADHD and neurodevelopmental disorders. “ADHD and ASD in Adults- why, when, what, who and how”

Gordon Brown, Mental Health Practitioner/ADHD specialist, Falkirk - first clinician in Scotland and one of the first in the world to develop clinical services for adults with ADHD. “Discovering and Uncovering Female ADHD”

SAVE THE DATE - PROGRAMME TO FOLLOW

DIRECTIONS

The Sir Alwyn Williams Building is the extension at the end of the terrace of buildings on Lilybank Gardens. Lilybank Gardens is directly behind the Hillhead subway station.

By air

Glasgow International Airport

- 7 miles west of the University
- Bus service (77) to the west end of Glasgow which stops minutes from the University
  - First Bus network map
  - First Bus timetables
  - First Bus journey planner
- Taxi fare to West End costs approximately £20
- Direct flight connections to all major European hubs, plus North America and the Middle East

Glasgow Prestwick Airport

- 22 miles south west of the University
- Own rail station
- Bus service to city centre

Edinburgh International Airport

- 42 miles east of the University
- Bus Service (Citylink Air) direct to Buchanan Street Bus Station in Glasgow

By coach - Buchanan Bus Station is the main terminus for long distance coaches. Timetables at www.travelinescotland.com

By train - Intercity links to all major cities. Frequent services to Edinburgh (50 minutes) and London (5 hours). There are two city-centre terminals, Glasgow Queen Street and Glasgow Central (served by Buchanan St and St Enoch subway stations respectively). Timetables at www.travelinescotland.com

Road - Motorway links provide access to major UK cities. Visit Red Planet Travel for maps and directions.

From Carlisle, Newcastle and the south, exit M74 on to the M73, joining the M8 at the Old Monkland junction. M8 exits for the University are J18 if travelling from the south, Edinburgh and the north and J19 if coming from Glasgow Airport and the west. Other main routes serving the University include Great Western Road (A82, north of campus), Clydeside Expressway (A814, south) and Byres Road (B808, west).

Car parking on the University campus and surrounding area is extremely difficult. There are various pay & display parking spaces around the local Byres Road and Kelvin Way areas but spaces are limited. You may want to consider using the city's Subway Park & Ride scheme. This service costs around £5 and Kelvinbridge subway station has parking which is only 5 minutes walk away.

BIographies

Christopher Gillberg is Professor of Child and Adolescent Psychiatry at the University of Gothenburg, Sweden, since the mid-1980s. He heads the Gillberg Neuropsychiatry Centre. He is also a Chief Physician at the Sahlgrenska University Hospital and one of the world’s most experienced, clinically active, child- and adolescent psychiatrists, with over 40 years of extensive clinical work in treatment of patients and families with complex psychiatric/neurodevelopmental problems. In 1993 he was Fulbright Visiting Professor at New York University Medical School. He is also Visiting or Honorary Professor at the Universities of London, University College London (Institute of Child Health), University of Glasgow, University of Edinburgh, the Pasteur Institute, and Kochi University, Japan (where he is involved with the Japan Environment and Children Study/JECS). In the past he has been a Visiting Professor at Odense, Bergen (where he started and was PI on the Bergen Child Study), and San Francisco. Christopher Gillberg has published more than 650 peer-reviewed scientific papers (602 of which are currently on the NIH PubMed website) on autism, Asperger syndrome, ADHD, Tourette syndrome, intellectual disability, epilepsy, behavioural phenotype syndromes, depression, reactive attachment disorder, anorexia nervosa, and other areas relevant for children’s and adolescents’ mental and neurological health. His research ranges from genetics and basic neuroscience through epidemiology and clinical phenomenology to treatments/interventions and outcome. He has written 33 books, which have been published in more than a dozen languages, several of which are standard textbooks in the field of Child and Adolescent Psychiatry and Autism. He is an honorary member of the Swedish National Autism Society and ADHD Society (“Attention”). He is a member of the Norwegian Academy of Sciences. He is the recipient of many national and international awards including the Fernström Prize for young researchers (1991), the Royal Medal of the Seraphim Order from the Swedish King (2009), and the Söderberg Prize in Medicine (2012). He supervises and has supervised more than 45 PhD-students at the GNC and at other universities across the world. Christopher Gillberg is the most productive autism researcher in the world, and is on Thomson Reuter’s 2014 list of the world’s most influential researchers (all fields) and received INSAR Lifetime Achievement Award 2016.

Dr Premal Shah is a Consultant in general adult psychiatry, honorary senior lecturer. Specialist interest in adults with neurodevelopmental disorders, novel treatments for treatment resistant mood disorders and in complex mental health problems. Previously the Sim Research Fellow, MRC Brain Metabolism Unit in Edinburgh investigating mood disorders using structural and functional imaging. Has worked within the NHS for 28 years. For the past 15 years has been Consultant in General Psychiatry at the Royal Edinburgh Hospital, and an Honorary Senior Lecturer at the University of Edinburgh. Started Scotland’s first Adult ADHD clinic in 2007 in Edinburgh, which received over 500 referrals in five years. This has expanded into a specialist ADHD team providing education and training to health professionals, as well as providing advice on the management of those with more complex ADHD. Recent consultant in Lothian’s new adult ASD team, which has a similar role and remit. Was an advisor to Scottish government assisting on achieving commitment 33 of the Scottish Mental Health Strategy. Chair of the Royal College of Psychiatrists in Scotland’s working group on adults with ADHD, and one of the authors of the Scottish college’s good practice guidelines for adults with ADHD.

Gordon Brown has worked in child and adolescent mental health for over 20 years and developed the first nurse led ADHD service in the UK whilst working in NHS Forth Valley. Over the last 10 years he has developed his service – ADHD Direct Ltd, which assesses and treats adults affected by ADHD. Gordon is also the author of Parents INC, the first ADHD specific parent training programme in Scotland, which is soon to be the subject of a randomised control trial. He has a number of publications in the field of ADHD and is an established national and international speaker on the condition.
