

Comments and actions from host and reviewer feedback

- Corner House to have an extended review day to take into account time taken for interpreters (may also need to be considered for Turkey and Norway)
- Standards to be linked to CQC standards (This is due to happen during the standards revision in the summer 2011)
- Timings:
 - Times of the sessions (The team to relook at the format for the peer review visit timetable)
 - Opportunities for open discussion and meet with colleagues (Possibility of adding a comment in the paperwork that if you would like to meet with colleagues at the host unit for additional information sharing that this should be arranged by themselves and added onto the end of the review day)
- How to further engage parents (The team will be looking into this over the summer 2011)
- Additional supports from QNIC such as audits (Possibility of including the environment checklist, policy audit and case note audit used in the accreditation process as part of the peer review visit)
