

Dear Member,

Welcome once again to the newsletter. This issue contains reports of the SIG contribution to the College Annual Meeting. We are also very pleased to enclose the text of a deeply thought-provoking article sent by Professor David Larson in lieu of his planned personal presentation at the Meeting. (A second article, on Research Findings in Spirituality and Mental Health by Professor Larson will be included in the next issue).

Please be sure to note the next one-day programme on November 8th and send your reply slip to Sue Duncan if you are able to join us. Mary Nathan, our guest speaker, has undertaken much needed research into the perception of what is meant by spirituality by patients and nurses and we are delighted that she will be sharing her observations with us.

For your diaries, the date of our first meeting next year will be February 1st.

Warmest good wishes,

Gillian Broster, Daphne Wallace and Andrew Powell (editors)
