

Instructions for presenting Case Based Discussion Groups in psychotherapeutic aspects of Psychiatry.

Trainees at ST 1 and/or ST2 years should expect to attend one of these groups on a weekly basis during which they will be expected to discuss psychotherapeutic issues relevant to their routine clinical work load.

Trainees should obtain a record of satisfactory attendance and participation in the form of two case based discussion group assessment forms completed by the group leader after six months and 1 years attendance at the group.

This form should be presented as evidence of satisfactory attainment of competencies at the first or second ARCP.
