BAP Workshop for Trainees
Tuesday 28 July 2015
Venue: Lecture Theatre 2, School of Chemistry, University of Bristol
Time: 17:15-18:45
In association with the BAP 2015 Summer Meeting (26-29 July)
www.bap.org.uk/summermeeting2015

This workshop is for trainees to consider how to develop research interests and a career in research. It is particularly suitable for those at an early stage of their career. Topics to be covered are how to combine research with family life, how to develop a career in research and tips from the top. The workshop will comprise a presentation followed by small groups, around which attendees will rotate.

Limited places available for trainees attending the Summer Meeting.

If you would like to attend, please email Susan Chandler, indicating the current stage of your research career.

17.15  Introduction
Dr Oliver Howes, IoPPN & MRC CSC

17.20  The ten secrets for success in science- lessons for trainees
Professor Trevor Robbins, University of Cambridge

17.45  Small group sessions

1. Working in industry: the good, the bad and the ugly
   Professor Hugh Marston, Eli Lilly Ltd

2. How to get on in clinical research
   Dr Oliver Howes, IoPPN & MRC CSC

3. Work-life balance: is it possible?
   Professor Catherine Harmer, University of Oxford
