The RCPsych is an inclusive organisation with over 21,000 members who have a diverse range of views, which we look to represent across our programmes. To further open dialogue, scientific discovery and enrich learning, we provide our members with the opportunity to hear from a range of professionals. The speakers, panellists and participants views and comments are their own and not the established views of the College.

	Professor Alfonso Troisi, University of Rome Tor Vergata
2.20pm	Embodied development: How cooperative care, activity, and social learning shape childhood in a forager context Dr Gül Deniz Salali, University College London
