

Derbyshire Healthcare NHS Foundation Trust RCPsych Data and Digital Training Programme

Thursday 12 March 2026 | 9.00am – 5.00pm

The Post Mill centre, off Market St, South Normanton, Alfreton, DE55 2EJ

Learning Objectives:

At the end of the training day, delegates will:

- Have a greater understanding (and be able to articulate) the value of data for clinicians.
- Know how to access dataset locally and nationally about their local populations.
- Have learned different approaches to using data in order to improve population health (i.e. QI / whole system approach)
- Understand how outcomes can demonstrate the value of mental health services at population and place level.
- Have a clear understanding of the relationship between high quality data and improved patient outcomes.

This programme is subject to change

The organising committee reserves the right to change the programme without prior notice

The RCPsych is an inclusive organisation with over 21,000 members who have a diverse range of views, which we look to represent across the programme. To further open dialogue, scientific discovery, and enrich learning, we provide our members with the opportunity to hear from a range of professionals. The speakers', panellists', and participants' views and comments are their own and not the established views of the College.
