The event is supported financially by exhibitors:

- British Medical Association
- Cygnet Health

This event has received financial support through the purchase of exhibition space, with no further input into the arrangements or agenda of the conference.

RCPsych is an inclusive organisation with over 22,000 members who have a diverse range of views, which we look to represent across the programme. To further open dialogue, scientific discovery and enrich learning, we provide our members with the opportunity to hear from a range of professionals. The speakers, panellists and participants views and comments are their own and not the established views of the College.
