What questions did we have in mind?

• What happened to peoples’ mental health?
• What was it like to receive mental health services?
• How was it to work in or lead clinical care?
• How do these relate to social the context?
Contents

• Part 1: Institutional and Social Context

• Part 2: Cogwheels of Change

• Part 3: Implications in Practice

• Part 4: Special Issues
Reflections: Nick Bouras

• Why this book is important?

• What is your personal highlight of the book?

• What still needs to change from this 50 year period?

• How can history help a Psychiatrist in 2021?
