

# RCPsych Library Resources

The College Library aims to provide the resources you need to support you in your practice and research. We offer OpenAthens accounts with access to the wide range of resources below, which are accessible online and offsite.

**New! Online Access to the Maudsley Prescribing Guidelines**

We also provide access to the BNF

## Databases

**Medline:** biomedical database with over 26 million records

**PsychINFO:** abstract database with over 4 million records with a focus on mental health

**Embase:** biomedical database of over 36 million records with a focus on pharmacology

There is a onsite library at the College with books available for borrowing. We also send these out for free in the post. Other services include inter-library loans, research help and literature searching. The library is developed based on suggestions from members, so if we are missing anything you would like to access, get in touch.

## Journals

The databases to the left give you access to a huge number of journals, we also subscribe to some specifically requested by members including:

**Lancet Psychiatry**  
**American Journal of Psychiatry**  
**Psychiatry Research**  
**Comprehensive Psychiatry**  
**European Psychiatry**  
**Journal of Anxiety Disorders**  
**General Hospital Psychiatry**
