Information around extreme events can highlight systematic problem

Black Caribbean disproportionality

- 26% of people in Lambeth identify as Black
- But made up 67% of our residents in secure psychiatric units
- Black Caribbeans were 7% of the population registered with Lambeth GPs and yet accounted for 17% of people with serious mental illnesses

Intersectionality and social determinants

- Black Caribbean people are much more likely to live in poverty
- in poorer housing
- under achieve academically
- be excluded from school
- be a victim/perpetrator of crime
- suffer worse physical ill health
- have lower life expectancy

When people are not valued or empowered they get ill
