Please note this programme is subject to change

RCPsych is an inclusive organisation with over 21,000 members who have a diverse range of views, which we look to represent across the programme. To further open dialogue, scientific discovery and enrich learning, we provide our members with the opportunity to hear from a range of professionals. The speakers, panellists and participants views and comments are their own and not the established views of the College.

Pre-work

Think of a scenario during your training where you have faced a challenge in your day to day work or you had an idea for making a change and be ready to talk about it at the first module. For example, an idea for improving the ward rounds in your post or a challenge affecting the working lives of your peers. This is for a small group exercise where we will practice a method of peer support to explore strategies to develop your ideas. This is not something you will be marked on.
