

Dear Participants,

We want to give you a very warm welcome and say how delighted we are that you are able to participate in the 2022 series of Perinatal Psychiatry Masterclasses, funded by HEE and hosted by the Royal College of Psychiatrists. Drs Lucinda Green, Roch Cantwell and Liz McDonald have developed this current programme and we will be present each day of the course to facilitate and contribute to the training.

There will be 26 participants from England, one from Scotland, three from Wales, two from Northern Ireland and four from the Republic of Ireland.

You will receive a link to your masterclass programme where you can view the programme and read about the requirements for using ZOOM. Below you will find the full programme and recommended reading lists, as well as biographies of the expert trainers and teachers you will meet during your week.

We would like you to encourage you to get yourself a journal to support your reflections on the course. This will be for your own learning and will not be submitted to the College.

Feedback is extremely important to us:

- to ensure that we provide and maintain a high and consistent standard of training
- to provide feedback to HEE that the funding of this programme has been worthwhile in developing the psychiatric workforce
- to provide a basis for future provision of masterclasses in perinatal psychiatry

We would like you to complete this form after each day. Once your feedback is received you will be issued with a CPD certificate for the day. Each day will contribute to 6 CPD points.

On the first day we would like everyone to introduce themselves to the group saying something about where you work, why you have wanted to join this course, what your future career plans are and what you hope to achieve by attending the course.

There are some rules we would like you to abide by during your participation in the programme:

- we very much hope that you will attend all the sessions
- we will ensure you get handouts if you miss a session but there will not be recordings of the sessions available
- please do not record the sessions
- please do not share the materials
- please attend each day promptly

- please have your name displayed on your ZOOM profile
- please keep your video on
- please keep mute on when not speaking
- please read the papers on the mandatory reading list prior to the session on interpreting the evidence in prescribing
- please maintain confidentiality in relation to case discussion and clinicians' own personal experiences

We look forward to seeing you all in January 2022

Best wishes

Liz, Lucinda and Roch

The aims of this masterclass programme are to:

- enable and support senior trainees develop skills and knowledge in their assessment, understanding and management of the complex clinical work involved in working with women of childbearing potential and in the perinatal period
- encourage participants to integrate current evidence into clinical practice
- develop self-reflection skills
- emphasise the importance of the perspectives of women, infants, partners and families throughout the perinatal pathway
- improve patient safety
- improve the experience of women and families during the perinatal period and within perinatal mental health services.

The following key issues are fundamental aspects of perinatal mental health care and will be discussed and considered throughout the programme:

- safeguarding children and adults
- culture and difference
- collaborative working with women, partners and families
- women's own experience of perinatal mental disorders and care
- legal issues

Themes

Day 1	Introductions Overview of where the UK and Ireland are in relation to service development; assessment and communication; the lived experience of women and their partners
Day 2	Mental disorders in the perinatal period; pre-birth planning
Day 3	Safeguarding; prescribing in the perinatal period
Day 4	Evaluating the infant; substance dependency and misuse; interpreting the evidence in relation to prescribing in pregnancy
Day 5	Personality Disorder in the perinatal period; psychological treatments; risk, leadership

Programme:

The facilitators for the week will be Dr Liz McDonald, Dr Lucinda Green and Dr Roch Cantwell

Each session within the day will have a didactic component and small group work/discussion.

Day 1 Monday 17 th January 2022		
Facilitators: Dr Lucinda Green, Dr Roch Cantwell and Dr Liz McDonald		
09:00-09:15	Registration	
09.15–10.15	Welcome and introductions Participants and facilitators introduce themselves	Drs Lucinda Green, Liz McDonald, Roch Cantwell
10.15 – 10.45	Perinatal Mental Health Services – what’s happening across the nations?	Dr Lucinda Green Dr Roch Cantwell
10.45 – 11.00	BREAK	
11.00 - 12.00	How does the Perinatal Frame of Mind inform our assessments?	Dr Liz McDonald
12.00 – 13.15	Formulating and communicating assessments	Dr Lucinda Green
13.15–13.45	Lunch	
13.45–15.00	What does the literature tell us about women’s experience of care and treatment in the perinatal period?	Dr Clare Dolman
15.00-15.15	BREAK	
15.15–16.00	Partners and Fathers in the perinatal period	Dr Lucinda Green
16.00-16.45	Small group discussions: How do we ensure that the woman and her family have a good experience of care in the perinatal period? What have I learnt today, how will it influence my practice, how will I share what I have learned?	Dr Clare Dolman Dr Lucinda Green Dr Liz McDonald Dr Roch Cantwell
ILOs	<ol style="list-style-type: none"> 1. Understand the different approaches to development and delivery of PMH services within the different nations. 2. Describe the range of factors that can affect a woman’s mental health in the perinatal period and her experience of pregnancy and parenting. 	

	<ol style="list-style-type: none"> 3. Summarise, formulate and communicate assessments to enable women, families and professionals to understand the factors which have contributed to her mental health problems, associated risks and/or her risk of developing a perinatal mental illness. 4. Demonstrate an awareness of the barriers to care for women in the perinatal period 5. Understand the factors influencing women’s decision-making around pregnancy and childbirth 6. Recognise how healthcare professionals can improve the experience of women and families receiving perinatal mental healthcare 7. Recognise the effect of a woman’s perinatal mental illness on her partner.

Day 2 Tuesday 22 nd January 2022		
Facilitators: Drs Lucinda Green, Roch Cantwell and Liz McDonald		
09.15–09.45	OCD and anxiety disorders in pregnancy and postnatally	Dr Lucinda Green
09.45-10.30	Small group discussion: Case examples of anxiety in the perinatal period	Drs Lucinda Green, Roch Cantwell and Liz McDonald
10.30–11.00	Depression in the Perinatal period	Lucinda Green
11.00-11.15	Break	
11.00–12.00	Small group discussion: Case examples of depression in the perinatal period	Drs Lucinda Green, Roch Cantwell and Liz McDonald
12.00-13.00	Schizophrenia – what does this diagnosis mean for women in the perinatal period?	Dr Liz McDonald
13.00–13.45	Lunch	
13.45 – 14.45	Post-partum psychosis and BPAD	Dr Liz McDonald
14.45–15.15	Pre-birth planning	Dr Lucinda Green
15.15-15.30	Break	
15.30–16.30	Small group discussion Writing a pre-birth plan.	Drs Lucinda Green and Liz McDonald
ILOs	<ol style="list-style-type: none"> 1. Understand the course of depression, OCD, schizophrenia, BPAD and Post-partum psychosis within the perinatal context 2. Understand how to organise and chair a perinatal mental health pre-birth planning meeting to ensure that the woman, her partner and other family members and the relevant professionals have a shared understanding of any concerns, needs and risks as well as the woman and family’s strengths. 	

	3. Develop effective perinatal mental health care plans collaboratively with women, partners, other carers and professionals.

Day 3 Wednesday 19 th January 2022		
	Facilitators: Drs Lucinda Green and Liz McDonald	
09.15-11.00	Safeguarding in the perinatal period	Dr Lucinda Green
11.00–11.15	Break	
11.15-12.45	Continued: Safeguarding in the perinatal period Small group work exploring cases.	Dr Lucinda Green
12.45–13.30	Lunch	

13.30–14.00	General principles when prescribing for women of childbearing potential.	Dr Liz McDonald
14.00-15.00	Prescribing anti-psychotic medication and mood stabilisers in pregnancy and breastfeeding	Dr Angelika Wieck
15.00-15.15	Break	
15.15-15.50	Prescribing anti-depressant medication in the perinatal period: how do we translate evidence into practice?	Prof Ian Jones
15.50–16.30	Question and Answer session	Dr Angelika Wieck Prof Ian Jones Dr Lucinda Green Dr Liz McDonald
ILOs	<ol style="list-style-type: none"> 1. Describe the factors highlighted in child serious case reviews which can affect children’s safety and wellbeing and increase the risk of abuse and neglect. 2. Recognise how perinatal mental health services, working effectively in partnership with a range of professionals, can ensure child safeguarding concerns are identified early and that effective care, treatment and support for women and families can reduce the risk of harm to infants and children. 3. Be familiar with currently available evidence on the reproductive safety of the main psychotropic drugs, resources that provide high quality evidence updates and current influential prescribing guidance

Course leads and facilitators

	<p><u>Dr Liz McDonald</u></p> <p>Dr Liz McDonald is former Chair of the Perinatal faculty at the RCPsych (2012-16), former Chair of the Pan London PMH Clinical Network (2013-2017). She worked clinically and in service development in east London, was a Guideline Development Group member for the NICE APMH guidelines (2007 and 2014), was a regional assessor for psychiatric maternal deaths and was a member of the IAG for MBRRACE. She was Clinical Lead for the NHSE funded Bursary Project for training perinatal psychiatrists at the RCPsych and is now a joint clinical lead for the HEE funded masterclass programme for perinatal psychiatrists. She is a visiting lecturer at the Tavistock and Portman NHS Foundation Trust. She has extensive experience of teaching at regional, national and international levels. She has been an active mentor of trainee and consultant psychiatrists. She is currently co-editing a Seminar Series Perinatal Psychiatry textbook with the RCPsych and Cambridge University Press.</p>
	<p><u>Dr Lucinda Green</u></p> <p>Dr Lucinda Green developed and led the perinatal mental health service at St. Thomas' Hospital (South London & Maudsley NHS Foundation Trust) from 2002 to 2016. She then moved to West London NHS Trust where she was Perinatal Clinical Lead. She currently works in private practice at the Portland Hospital, The Child & Family Practice and the Women's Wellness Centre in London. For the Pan London Perinatal Mental Health Network Dr Green has been chair of both the South and North West London Perinatal Mental Health Clinical Networks. She was joint lead for the London Perinatal Mental Health Care Pathway and lead for the Pan London Perinatal Mental Health Network's Perinatal Pre-Birth Planning Best Practice Toolkit. She was a member of the British Association for Psychopharmacology Perinatal Guideline Development Group. She has been an elected member of the Royal College of Psychiatrists Perinatal Faculty and was the lead for the development of a series of perinatal information leaflets for the RCPsych. She is a former chair of the London & South Perinatal Consultant Psychiatrists Association.</p> <p>Dr Green has many years' experience of designing and delivering perinatal mental health training for a range of professionals. She has been a clinical supervisor for senior trainees and a mentor for consultant perinatal psychiatrists. She was a mentor for the Royal College of Psychiatrists Perinatal Bursary Programme and is now a joint clinical lead for the HEE funded masterclass programme for perinatal</p>

psychiatrists at the RCPsych. She is a visiting lecturer in perinatal mental health for the Tavistock and Portman NHS Foundation Trust. www.drLucindaGreen.co.uk

Dr Roch Cantwell

Roch Cantwell is a consultant perinatal psychiatrist, lead clinician for Scotland's National Perinatal Managed Clinical Network and vice-chair of the Perinatal and Infant Mental Health Programme Board, tasked with establishing specialist services across Scotland. He is lead psychiatric assessor for the Confidential Enquiries into Maternal Deaths and chaired the SIGN guideline development group on Perinatal Mood Disorders. He led the development of Scotland's first MBU and community perinatal mental health team. He chairs the RCPsych Perinatal Quality Network Accreditation Committee and is past chair of the College's UK and Scotland Perinatal Faculties.

Dr Clare Dolman

Dr Clare Dolman is a journalist and researcher whose PhD focused on women with bipolar disorder's decision-making regarding pregnancy and childbirth. She is Patient and Public Involvement Lead for the NIHR-funded ESMI project on the effectiveness and cost-effectiveness of perinatal mental health services, based at the IOPPN, King's College and lectures there and at the Royal College of Psychiatrists on service user perspectives. Clare, who has a personal interest in this subject, is Vice Chair of the MMHA (Maternal Mental Health Alliance) maternalmentalhealthalliance.org, a trustee of the charity APP - Action on Postpartum Psychosis (app-network.org) and an Ambassador for Bipolar UK (bipolaruk.org).

Dr Emily Finch

Dr Finch is the Addictions Clinical Director, Southwark, Central Acute & Addictions Operational Directorate and Clinical Director, Addictions Clinical Academic Group at South London and Maudsley NHS Foundation Trust, with responsibility for Addiction services across Lambeth, Bexley, Greenwich and Wandsworth. She is a Visiting Senior Lecturer at King's College London. She is currently clinical lead for the Alcohol Assertive Outreach Team is also responsible for quality for adult psychiatry service in Southwark and a member of the Trust Quality Centre. She is currently on the Advisory Council on the Misuse of Drugs (ACMD) and joint chair of the Recovery Committee. Emily is the vice-chair of the Royal College of Psychiatrists Addictions Executive. She is a co-chair of the London Joint Working Group on Hepatitis C. In 2012 Emily chaired a joint RCGP RCPsych working group to develop a document defining competencies for doctors working in Addictions and has recently chaired the NICE quality standard drug use disorders topic expert group. From 2004 to 2007 Emily was the Clinical Team Leader at the National Treatment Agency (NTA) where she took a lead in the clinical aspects of national drug policy and in liaising between the NTA and the professionals working in the field. Emily teaches and lectures, on all aspects of addiction and supervises PhD

	<p>students. She is an educational and clinical supervisor for psychiatric trainees. She is head of education and training for the Clinical Academic Group. Her research interests include the outcome of treatment for opiate users, hepatitis C and injectable prescribing. Emily is a Trustee of alcohol research UK and Gamcare.</p>
	<p><u>Dr Nic Horley</u></p> <p>Dr Nic Horley is a Chartered Clinical Psychologist working for the West London Perinatal Mental Health Service. Prior to working in Perinatal Mental Health Services her background is in severe and enduring mental health, working therapeutically with people diagnosed with Personality Disorder. Dr Horley offers evidence based individual and group interventions to women who are pregnant or in the early postnatal period using a range of therapies, all of which are underpinned by attachment theory. Dr Horley is a qualified Dialectical Behaviour Therapist and has completed additional training in Schema Therapy and Trauma Focussed Therapy. She has trained in and regularly uses the Circle of Security and Video Feedback Interventions. Since the expansion of the West London Perinatal Mental Health Service in February 2016, Dr Horley has worked to develop the psychological intervention pathways offered during the perinatal period.</p> <p>Dr Horley is a visiting lecturer with the Tavistock and Portman NHS Foundation Trust and is a member of the Perinatal Faculty there. She lectures and supervises clinical psychology trainees and MSc students in the areas of personality disorder, treatment planning and psychological assessment and formulation.</p>

	<p><u>Prof Ian Jones</u></p> <p>Ian Jones is Professor of Psychiatry and Honorary Consultant Perinatal Psychiatrist at Cardiff University. He is Director of the National Centre for Mental Health (NCMH.info) and with colleagues leads the Bipolar Disorder Research Network (BDRN.org). NCMH has recruited over 20,000 people with mental health problems to its research cohort and BDRN has involved over 7,000 people with bipolar disorder from around the UK in research. He leads the Cardiff University Psychiatry Service (CUPS) and a clinical service offering pre-conception counselling to women with severe mental illness. He is Director of BEP-C, a group psychoeducation programme for bipolar disorder. He is a Trustee of The Maternal Mental Health Alliance (maternalmentalhealthalliance.org) and a Trustee and Scientific Advisor to Action on Postpartum Psychosis (app-network.org). His research focuses on bipolar disorder and postpartum psychosis. He has authored or co-authored over 300 publications and book chapters. He has been awarded the Marcé Medal for his research on Postpartum Psychosis and was named Academic Psychiatrist of the Year at the RCPsych Awards 2013. In 2014 BEP-C was awarded the British Medical Journal (BMJ) award for innovation in medicine.</p>
---	--

Dr Maddalena Miele

Dr Miele has led the perinatal mental health service at St Mary's Hospital, Central North West London (CNWL) FT, in partnership with the Imperial College Healthcare NHS Trust maternity unit since 2009. From December 2016 to January 2020 she was Clinical Lead of the Perinatal Mental Health Service for CNWL FT. She has a clinical background in Obstetrics and Gynaecology and completed a PhD in neuroscience at the department of Physiology at Oxford University. She trained in General Adult Psychiatry at the Maudsley, Bethlem and St Mary's Hospitals with an endorsement in Liaison Psychiatry. She trained in Infant Mental Health with Dr PO Svanberg (Care Index and Parent Infant Interaction Observation Scale). She has been a member of the Perinatal Faculty Executive and the Perinatal Quality Network Advisory Group of the RCPsych and the College representative for the Maternal Mental Health Alliance (2015-2018). Dr Miele has been heavily involved in perinatal mental health service development and is the chair the North West London division of the London Perinatal Mental Health Network (NHS England). She co-authored the London Perinatal Mental Health Care Pathways endorsed by the Mental Health Strategic Clinical Network and is the creative director of the animation movie "Building Better Perinatal Mental Health services". She is the lead author of the Pre-conception advice: Best Practice Toolkit for Perinatal Mental Health Services launched by Pan London Perinatal Mental Health Network in 2019. She is actively involved in training and teaching programs to raise awareness on perinatal mental illness and improve clinical skills in perinatal and infant mental health care. She is the lead trainer for the Parent Infant Interaction Observation Scale course at Warwick University Medical School. In 2019 she was co-opted by the Perinatal Faculty Executive of the RCPsych and by the Association of Infant Mental Health UK Executive.

Dr Angelika Wieck

Following a research lectureship at the Institute of Psychiatry, Psychology and Neuroscience conducting a study on biological and psychosocial aetiological mechanisms in bipolar illness triggered by childbirth, Dr Wieck was a Consultant in General Adult Psychiatry, a Consultant for the Northwest Specialist Service for Affective Disorders, the Lead Consultant for the North West Perinatal Psychiatry Service based in Manchester, the Clinical Lead for the Perinatal Mental Health Clinical Network in Greater Manchester, and a member of the National Clinical Reference Group for Perinatal Mental Health. She was the psychiatric expert for the Valproate Advisory Group at the European Medicines Agency, is the chair of the Women, Gender and Mental Health Section at the European Psychiatric Association and serves on the Editorial board of European Psychiatry. Her current appointment is as Honorary Perinatal Consultant Psychiatrist at the Greater Manchester Mental Health NHS Foundation Trust, and Honorary Senior Lecturer at the University of Manchester. Dr Wieck's research interests and publications are in reproductive psychopharmacology, psychoneuroendocrinology and perinatal psychiatry.
