Call for submissions
Royal College of Psychiatrists
Trainees’ Conference 2021:
Breaking Barriers to Recruitment & Retention

Thursday 25 to Friday 26 March 2021
Online Event

Registration Opening Soon...

The Psychiatric Trainees’ Committee (PTC) invites submissions for oral presentations at our 2021 Trainees’ Conference.

We invite you to submit 200 words about how you, as the psychiatrists of tomorrow, have broken barriers in your training journey. We would like to know what you did, what barrier(s) you negotiated, how it felt and what you would want fellow trainees to know.

Perhaps you’ve combined training with another passion. You may have taken a break from training for a while or juggled it with other priorities in your life. Alternatively you may have overcome difficulties during training such as bullying or moved regions or nations during your training.

Your voices and narratives are vital to share with all trainees so we can all learn and see how the seemingly impossible is actually possible. Four people from the submissions will be invited to present live in a workshop on ‘breaking barriers’ during the conference, but submissions can be anonymised and displayed digitally.

Submissions should be in the form of a paragraph of a maximum of 200 words and submitted by email to leah.charlton@rcpsych.ac.uk by 15:00 on 11 February 2021.

You will be informed whether you have been accepted or not by 26 February 2021.

How to send abstracts: Email your abstract as a word document or as an email to leah.charlton@rcpsych.ac.uk with the subject reference ‘PTC Trainees 2021 - ORAL’ followed by your name.

CLOSING DATE: 15:00 on Thursday 11 February 2021
