

Carer Questionnaire

What is this survey for?

This questionnaire is part of a National Clinical Audit which aims to improve the quality of care that hospitals provide to people who have confusion or memory problems. We invite carers (family members or key workers) to share views about the care the person with memory problems received and communication you have had with hospital staff during their admission to hospital between **8 June to 6 July 2026**.

This information will be included in local and national reports which are used to help hospitals improve standards of care by highlighting things that are done well and areas that need improvement. We welcome any feedback and reports summarising this will be published in 2027.

Confidentiality:

- This questionnaire is completely anonymous and hospital staff will not see your responses.
- By completing and returning this form, you consent to the use of your answers in the national audit, including in our reports. Further information about how we use data can be found in our privacy notice on our website.
- If you decide that you would prefer not to fill in the questionnaire, this is fine and will not in any way affect the care provided to the person you care for.
- This is not a complaint form, the project team will look at all the responses but because we don't ask for your name, we will not be able to follow up your individual concerns or complaints. If you would like to make a complaint, please speak to the service or your local Patient Advice and Liaison Service (PALS) who will be able to offer confidential advice on making a complaint.
- If you tell us about a risk of harm to a patient, we may need to contact the hospital straight away.

N12 Please enter the name of the hospital:

N13 During which time period did the admission take place?

- Before 1 July 2025
- 1 July 2025 - 31 December 2025
- After 1 January 2026
