## Appendix VI: Supplementary Analyses

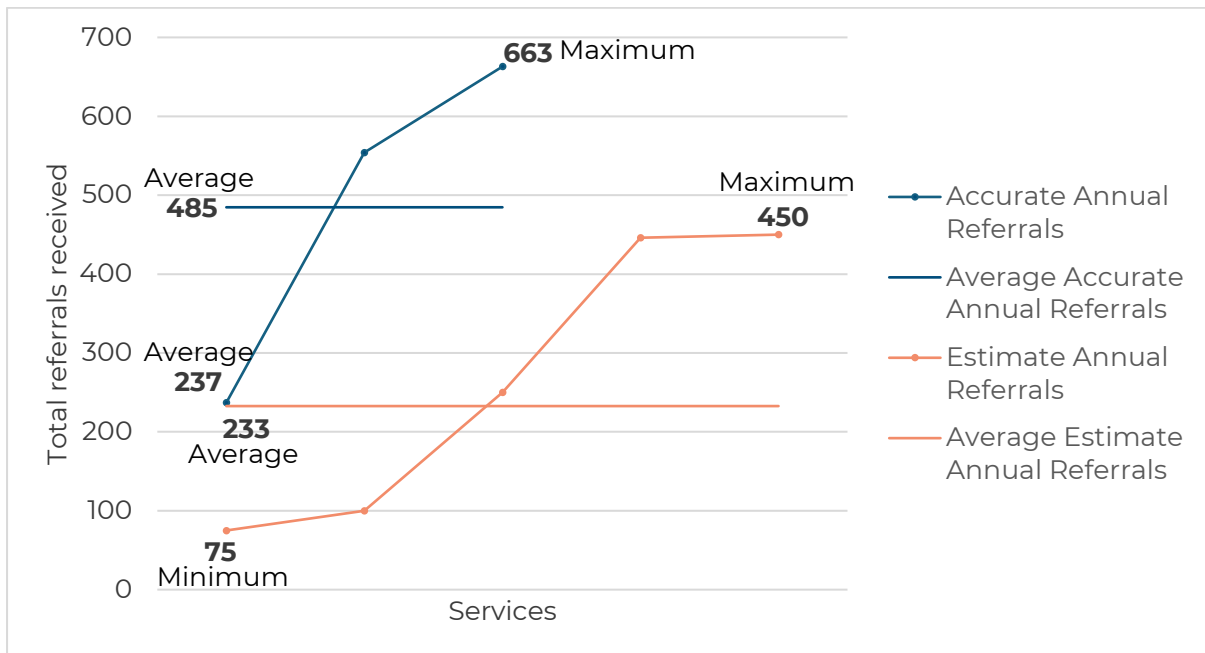

**Figure 1:** Neurology Led Memory Services by Region

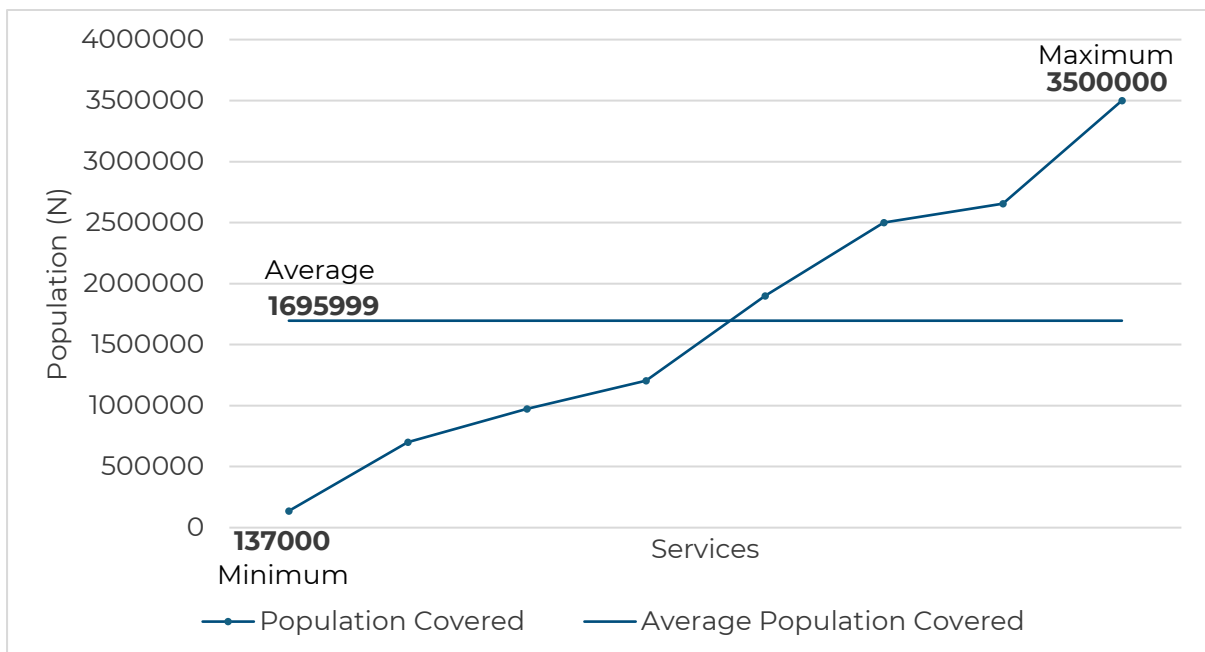

**Figure 2:** Total Referrals Per Service (1 Apr 2024 - 31 Mar 2025) (accurate and estimated scores combined) (Q.6, Q.7)

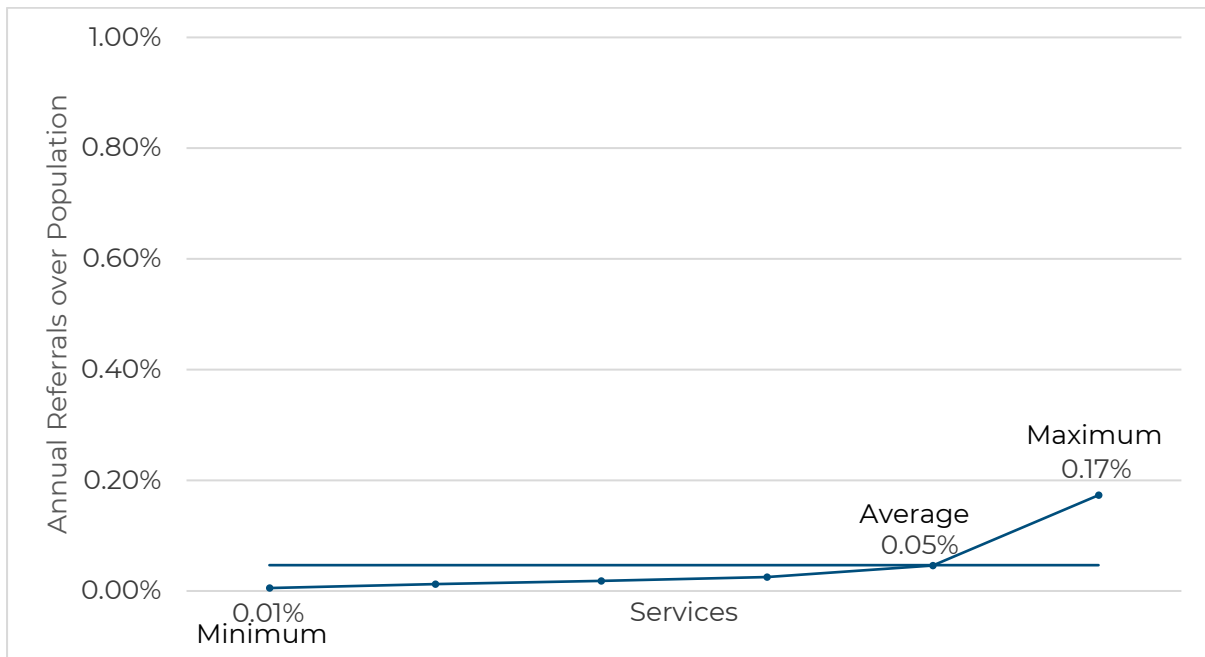

**Figure 3:** Total Referrals Per Service (1 Apr 2024 - 31 Mar 2025) (Q.6, Q.7)

**Figure 4:** Estimated Population Served by Service (Q.9)

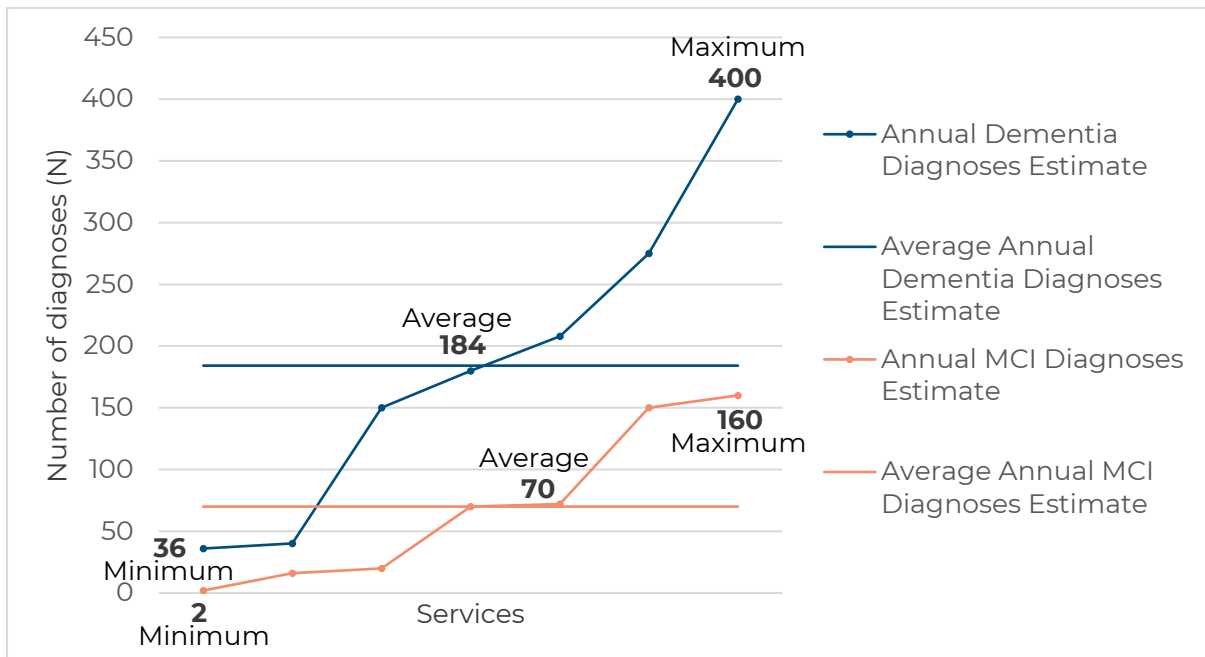

**Figure 5:** Total Referrals Per Service (1 Apr 2024 - 31 Mar 2025) over Estimated Population Served by Service (Q.6, Q.7, Q.9)

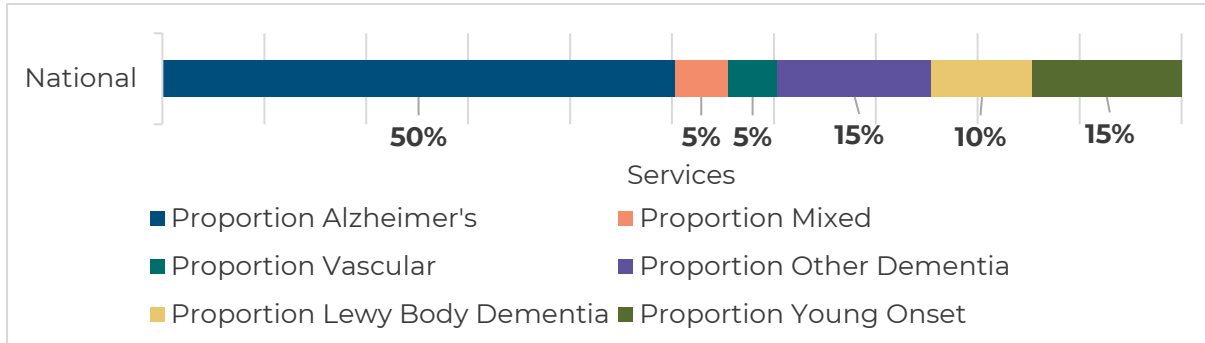

Annual referral figures were divided by the estimated population size for each service and expressed as a percentage to indicate the proportion of referrals relative to the population. Both estimated and actual annual referral figures were included in this calculation, which was used to indicate the number of referrals per person in the population.

**Figure 6:** Estimate Total MCI and Dementia Diagnoses (Apr 2024-Mar 2025) (Q.12, Q.14)

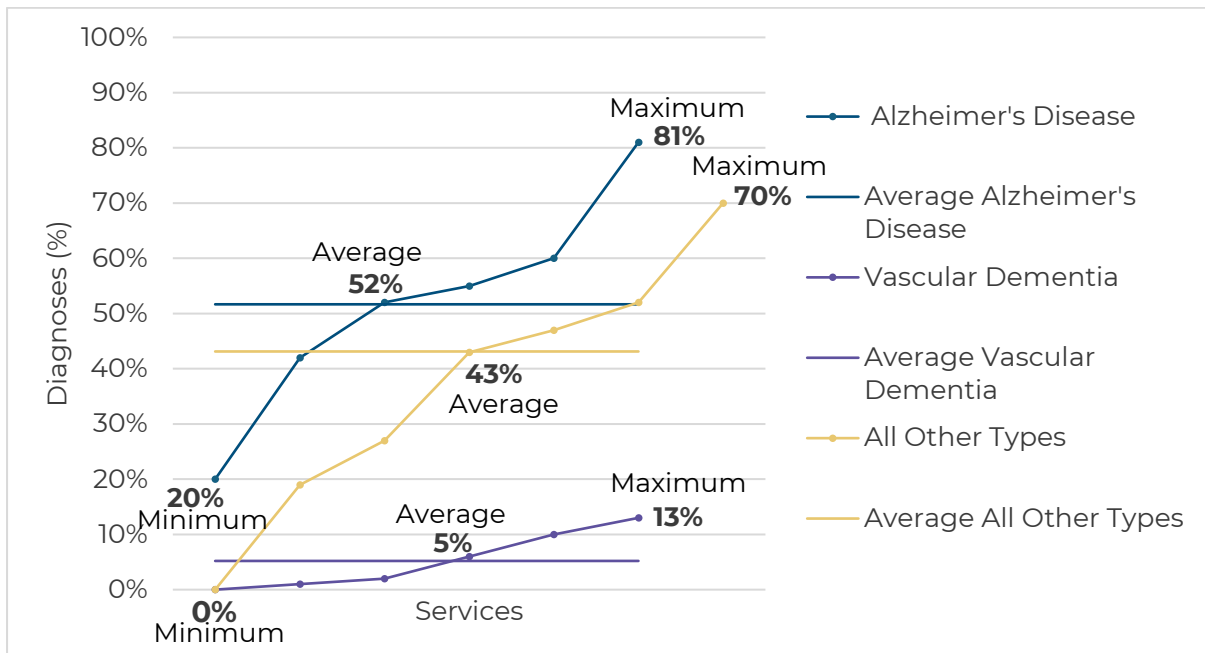

**Figure 7:** Proportion of Dementia Diagnoses by Type (Q.15)

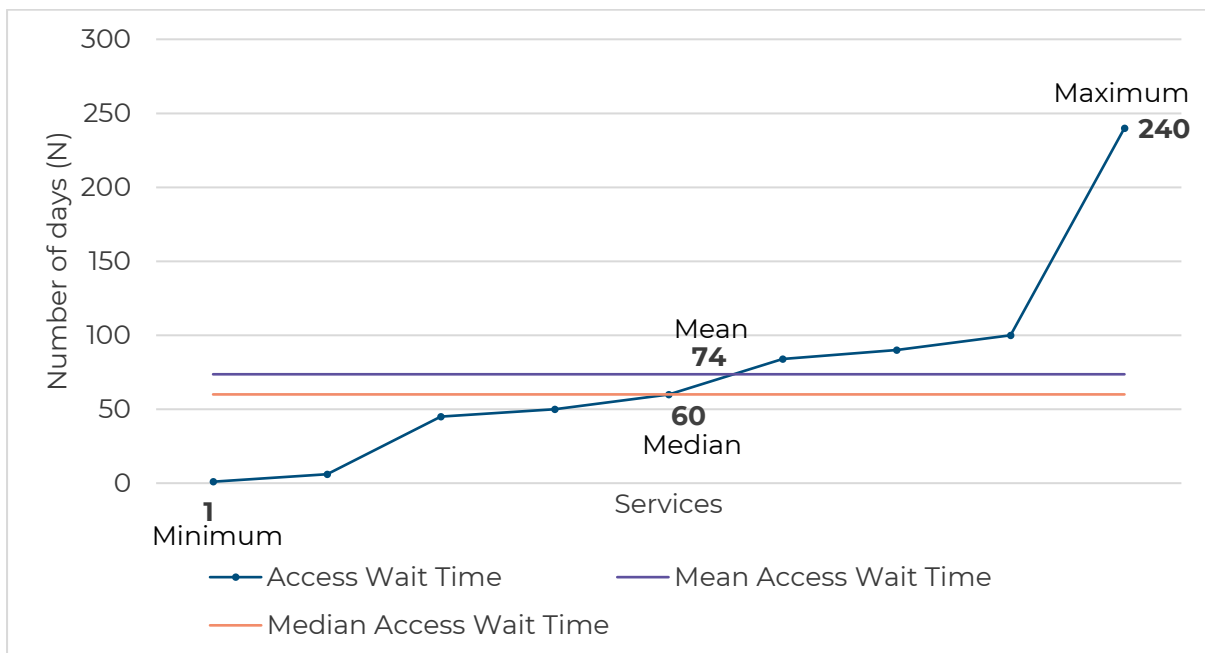

The proportion of each dementia type was calculated by dividing its estimated annual figure by the total of all estimated annual figures across dementia types.

**Figure 8:** Variation in Diagnosis of Dementia by Type per Service (Q.15)

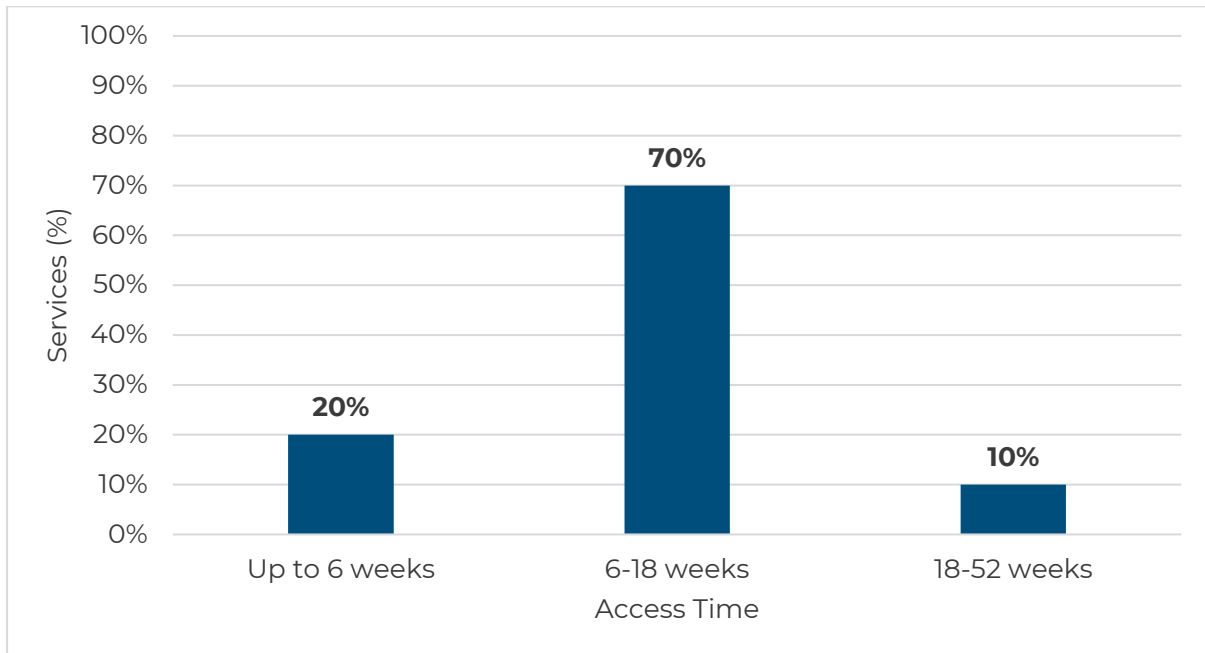

The proportion of each dementia type was calculated by dividing its estimated annual figure by the total of all estimated annual figures across dementia types.

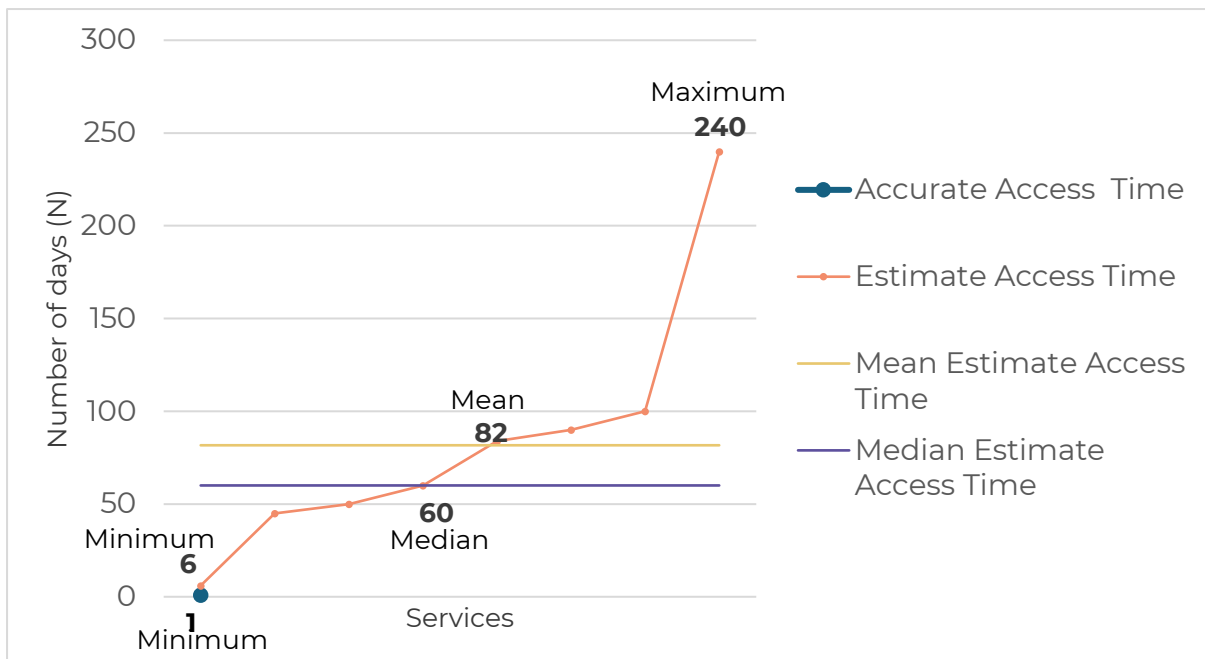

**Figure 9:** Average Days from Referral to Initial Assessment (Apr 2024–Mar 2025) (combined accurate and estimate) (Q.18, Q.19)

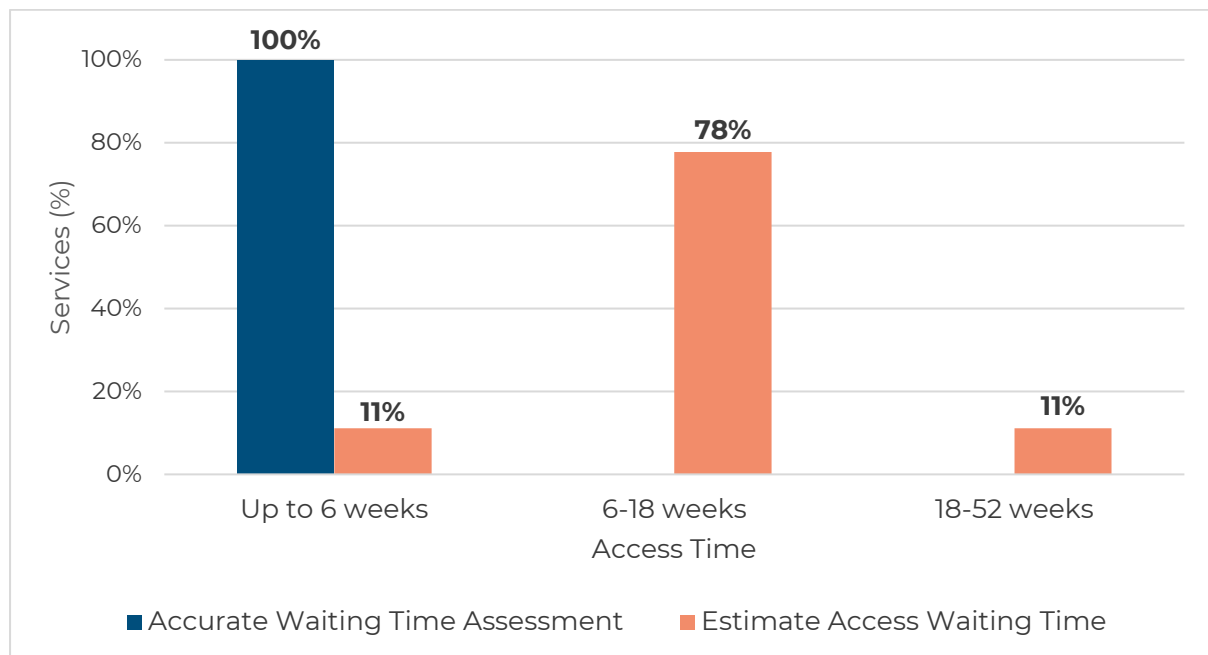

**Figure 10:** Average Weeks from Referral to Initial Assessment (Apr 2024–Mar 2025) (combined accurate and estimate) (Q.19, Q.20)

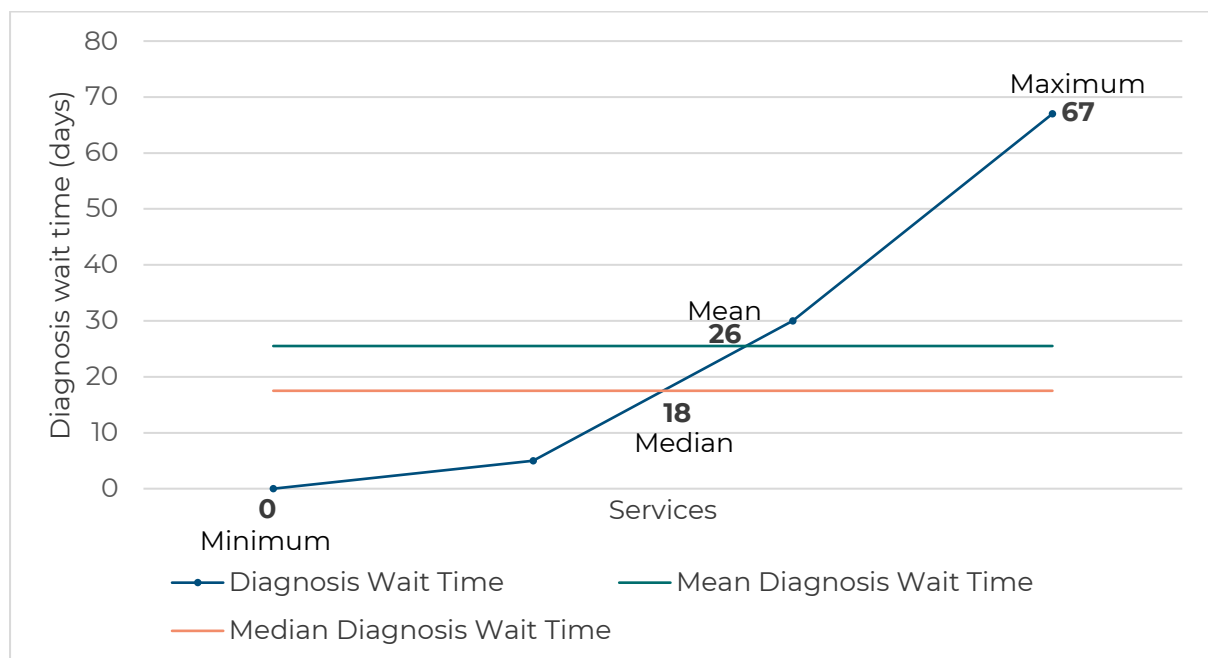

**Figure 11:** Average Days from Referral to Initial Assessment (Apr 2024–Mar 2025) (Q.19, Q.20)

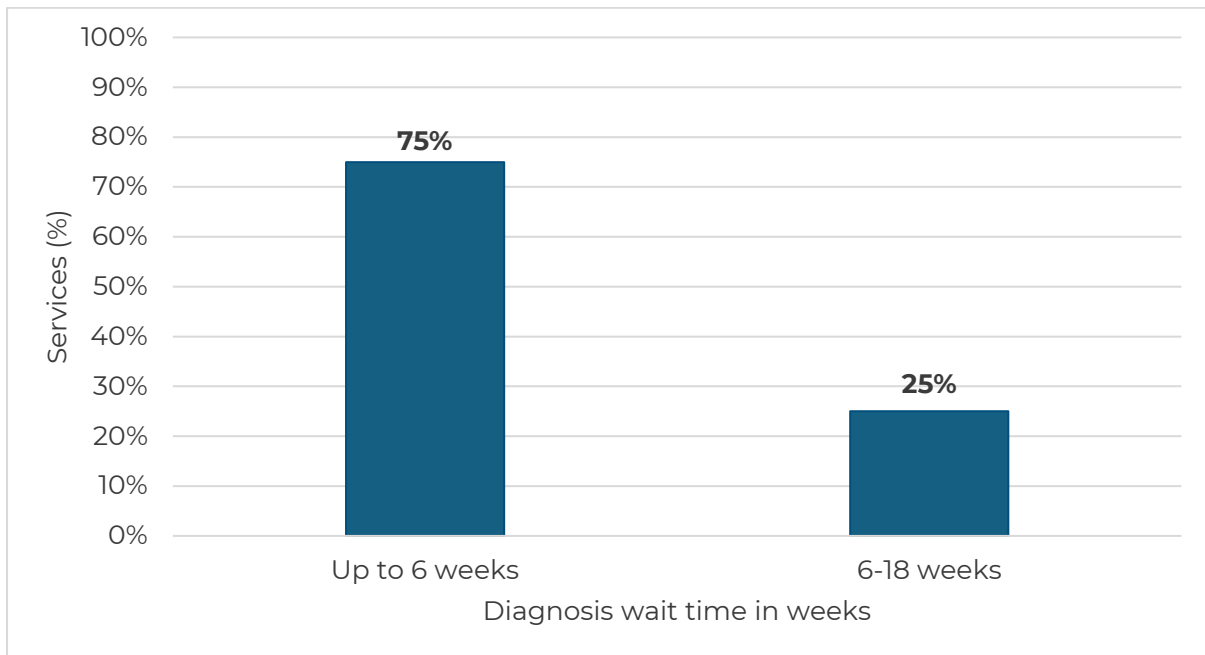

**Figure 12:** Average Weeks from Referral to Initial Assessment (Apr 2024–Mar 2025) (Q.19, Q.20)

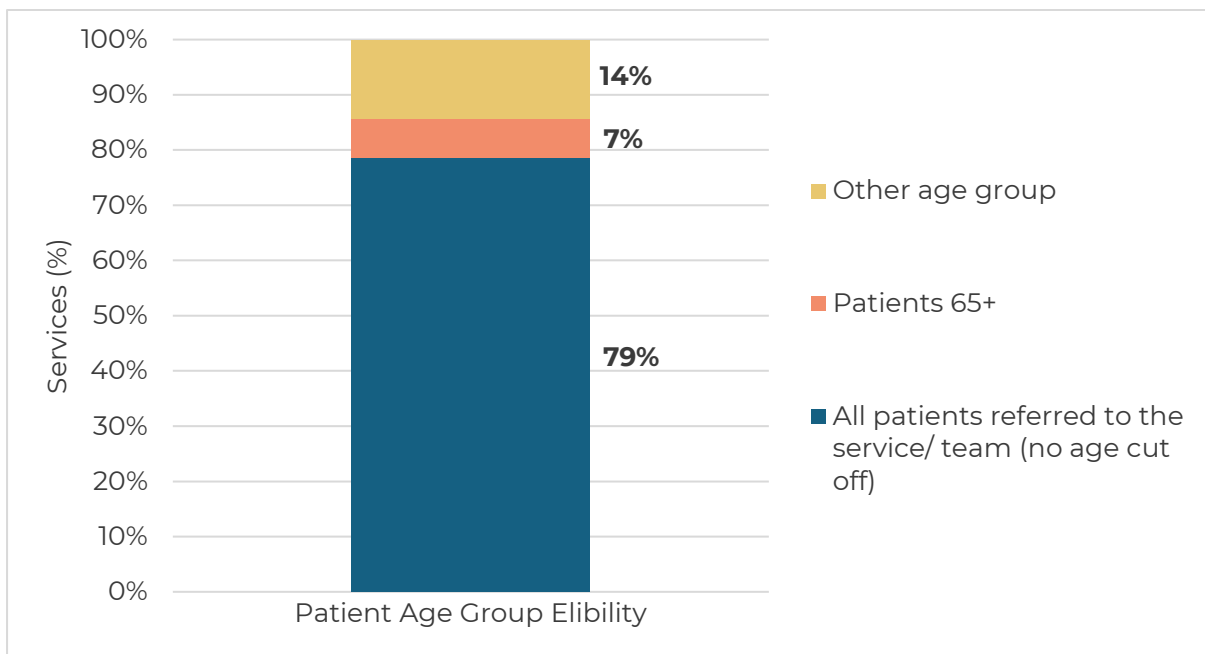

**Figure 13:** Estimate Average Days from Initial Assessment to Diagnosis (Apr 2024–Mar 2025) (Q.23)

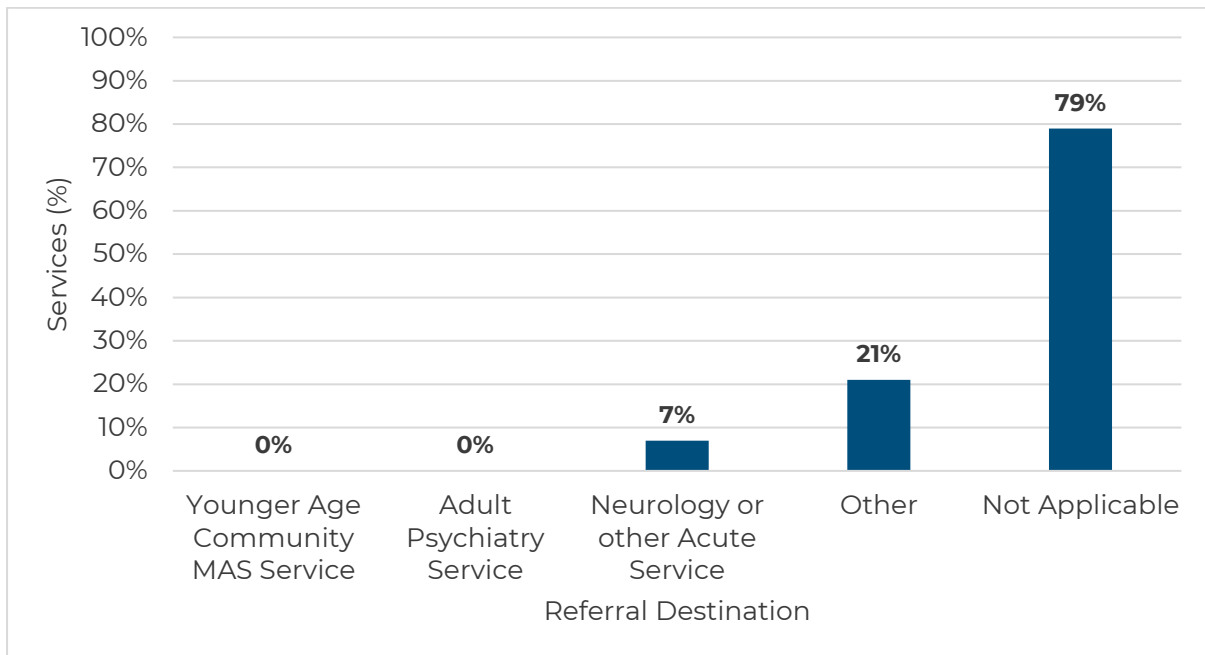

**Figure 14:** Estimate Average Weeks from Initial Assessment to Diagnosis (Apr 2024–Mar 2025) (Q.23)

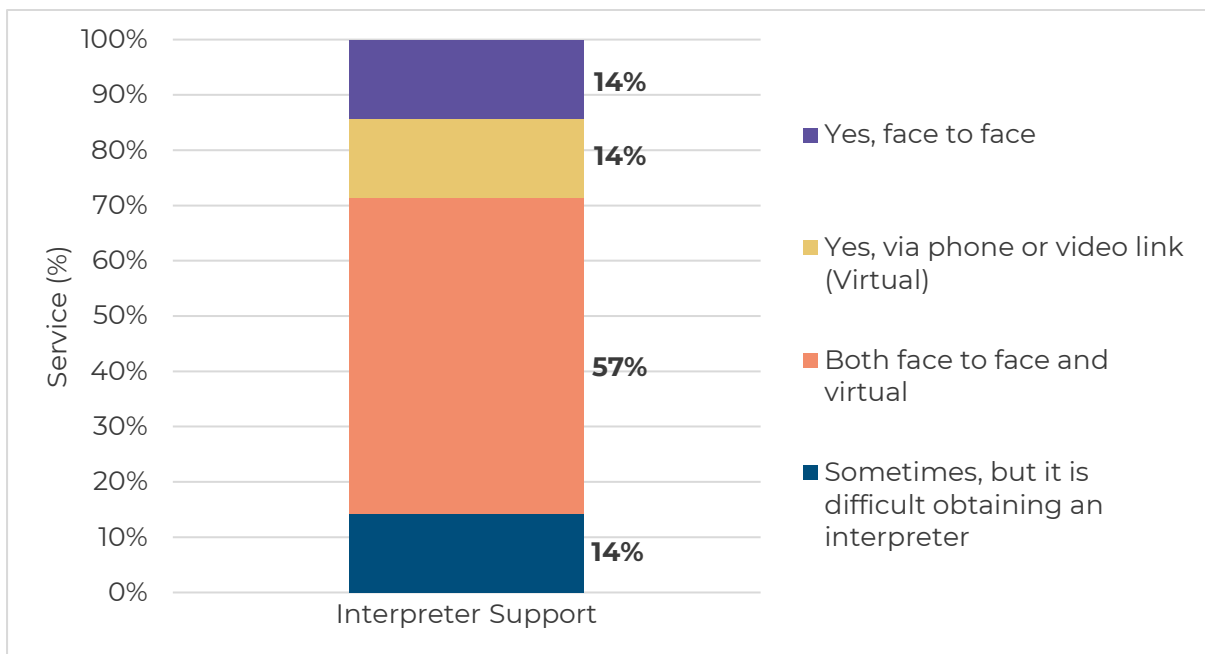

**Figure 15:** Age Eligibility for Assessment (Q.25)

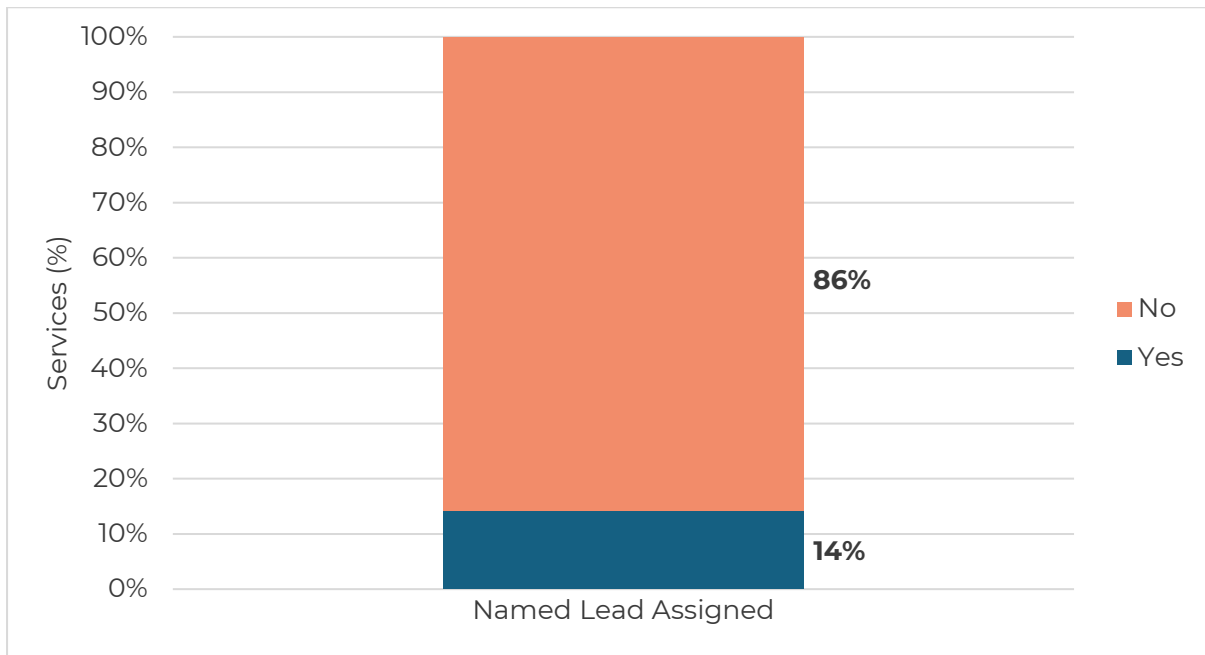

**Figure 16:** Referral Destination for Patients Below Age Limit (Q.26)

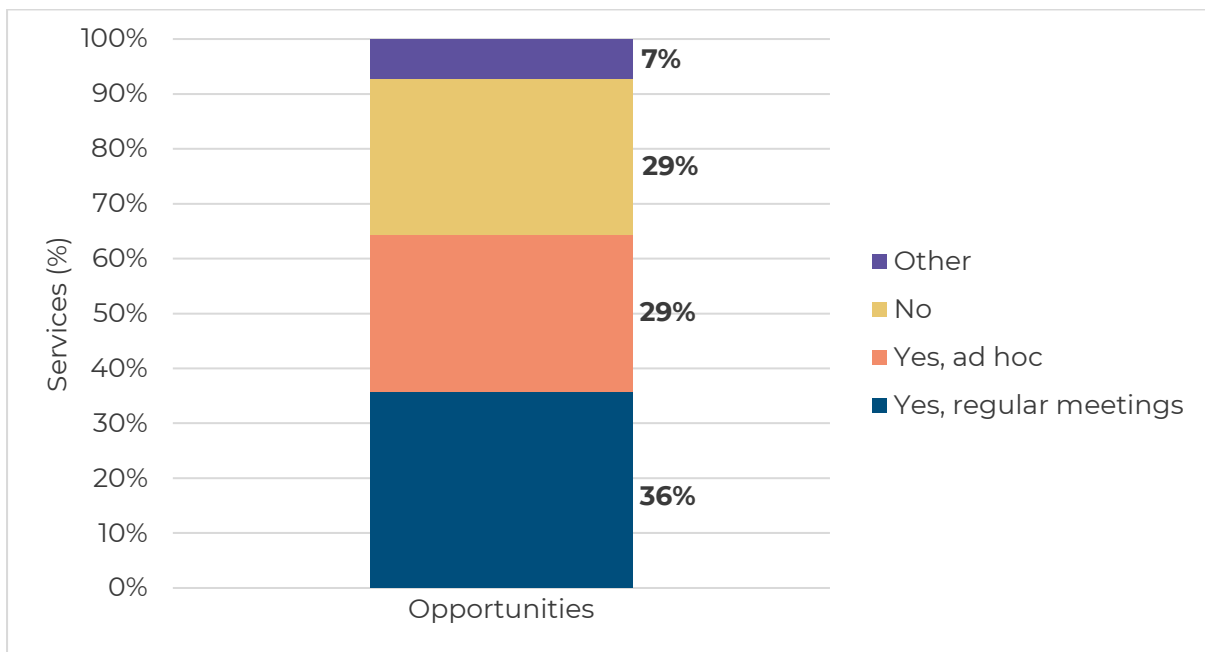

**Figure 17:** Interpreter Support Availability (Q.30)

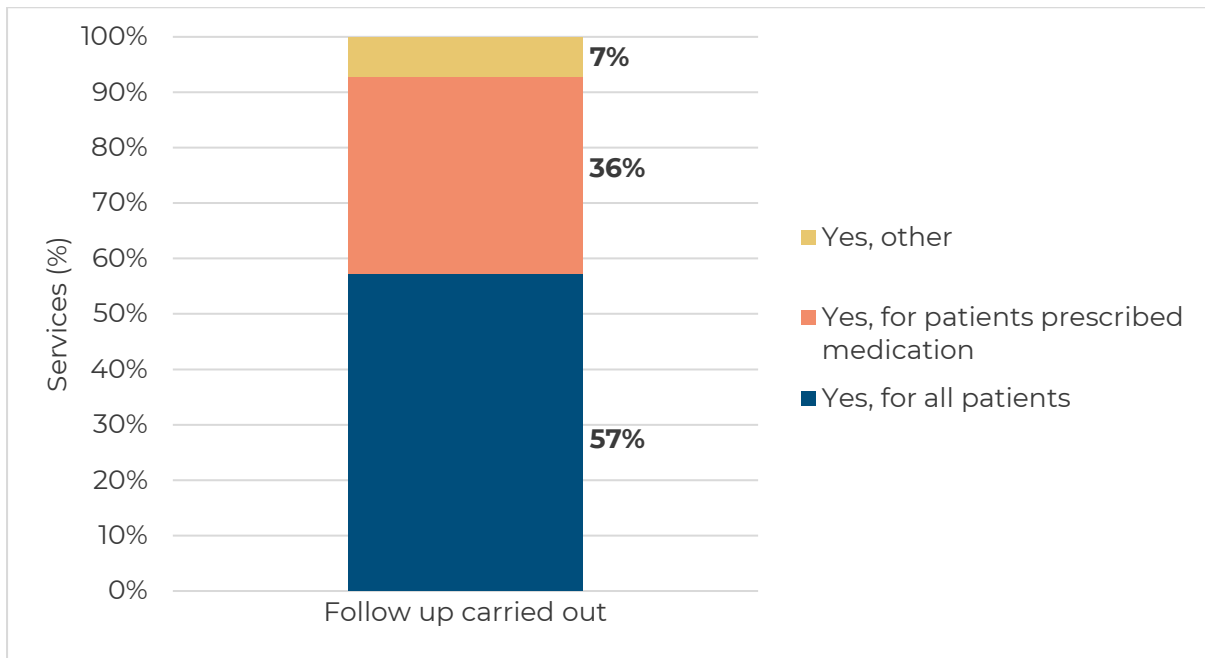

**Figure 18:** Named Lead for Young Onset Dementia (Q.32)

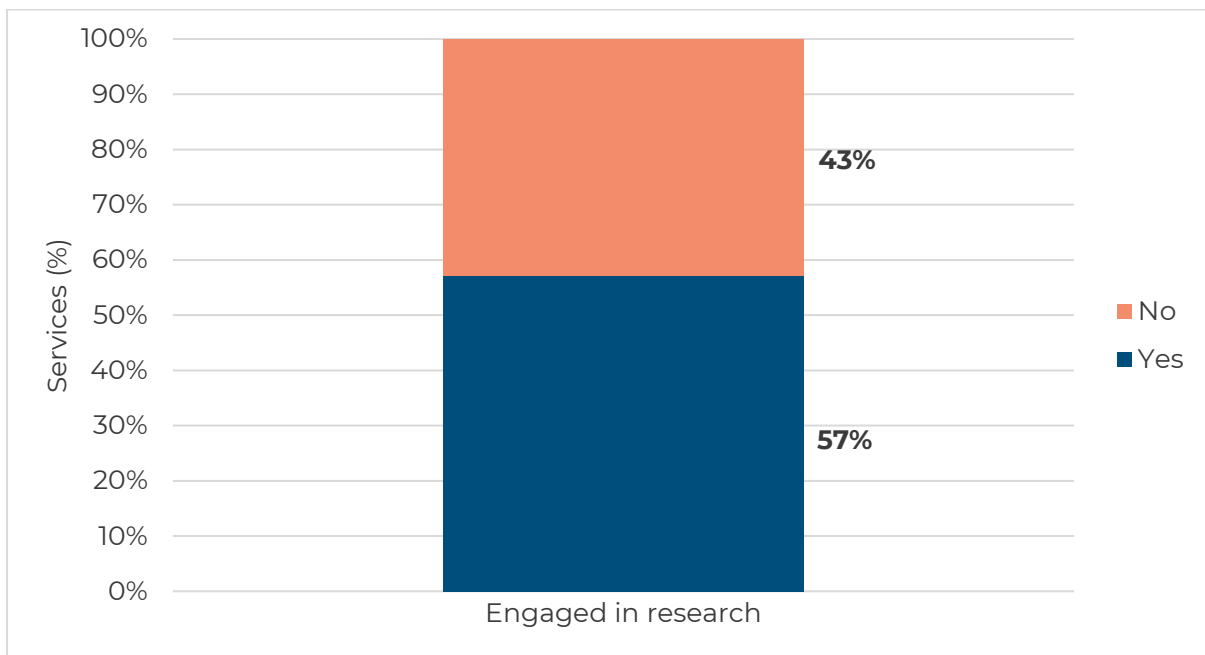

**Figure 19:** Opportunities for Joint Working with Geriatrics (Q.34)

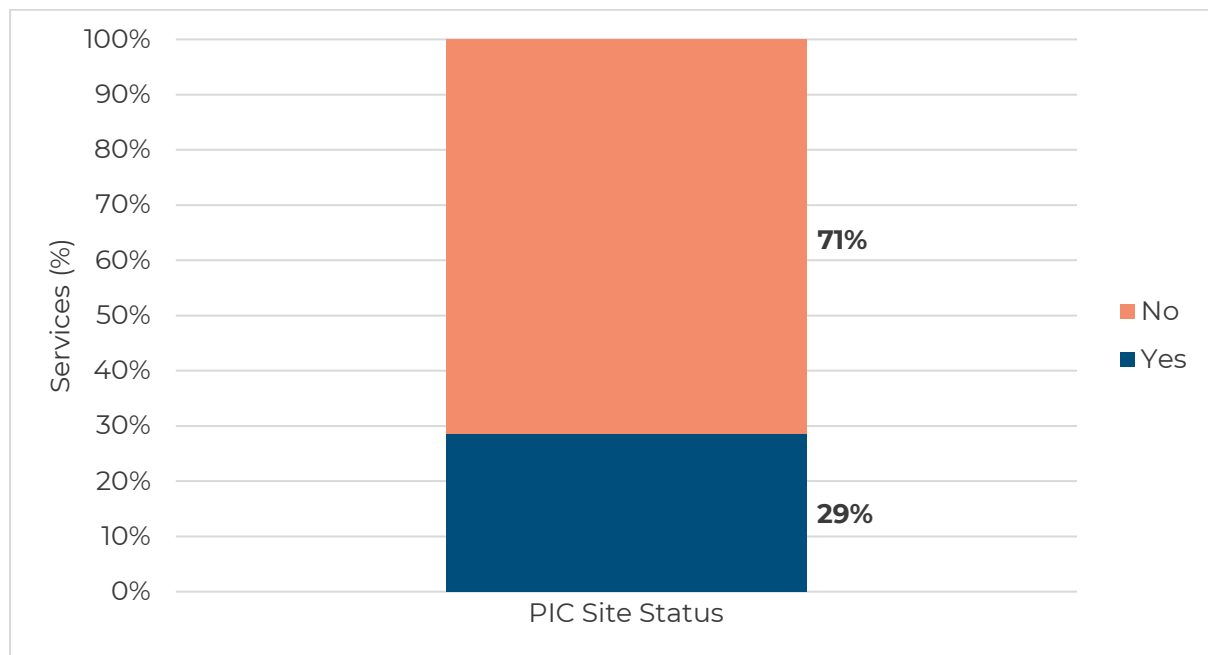

**Figure 20:** Post-diagnostic Monitoring Service Availability (Q.35)

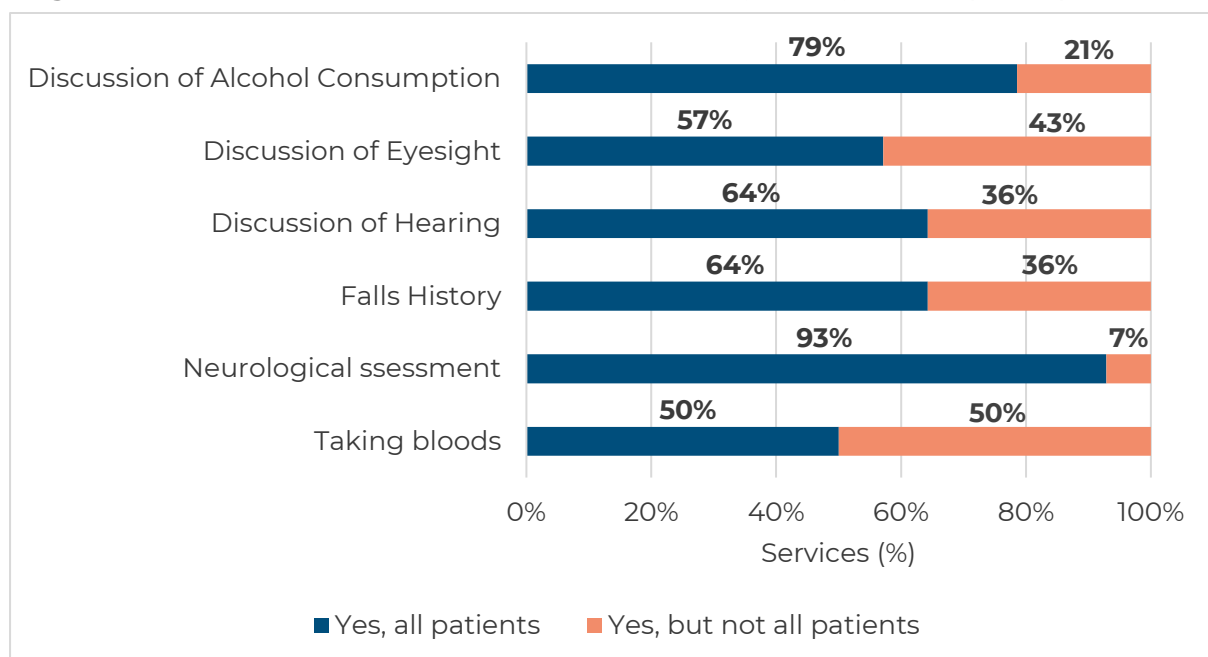

**Figure 21:** Participation in Research Studies or Trials (Q.37)

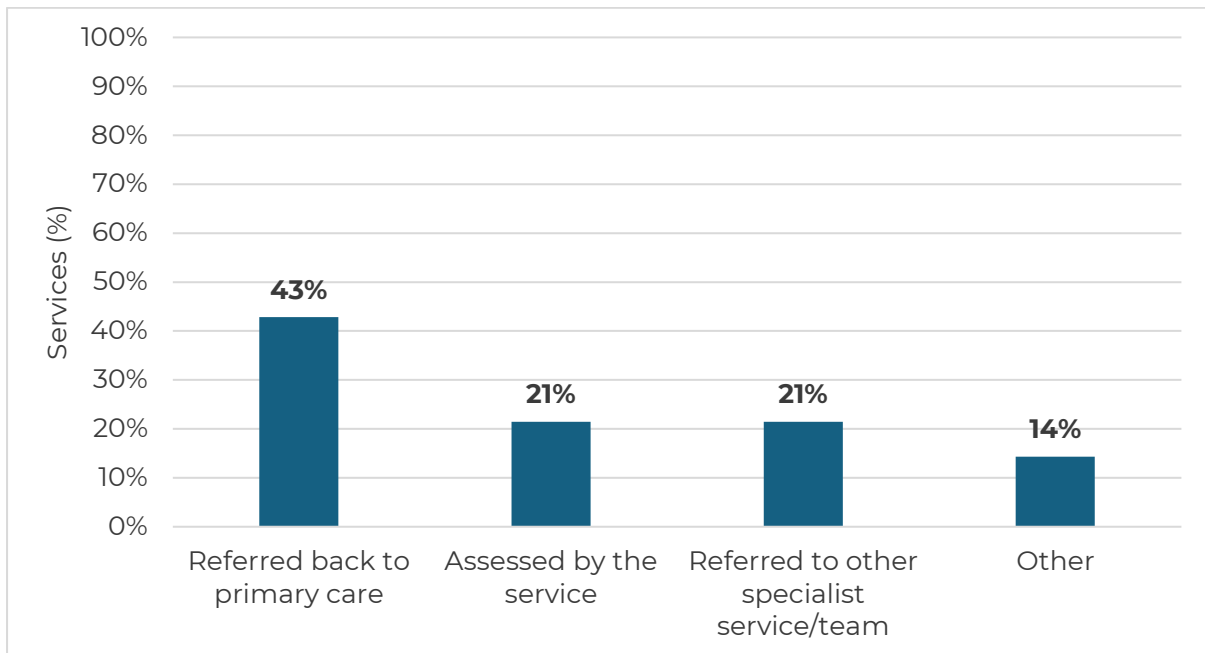

**Figure 22:** Participant Identification Centre (PIC) Site Status (Q.38)
