

National Audit of Dementia Audit of Casenotes 2022 Discharge information

Thank you for participating in the National Audit of Dementia.

For this audit you will be submitting casenote audit data via the new platform CaseCapture on Netsolving. The NAD team have created a comprehensive guidance document which you should have received via email outlining how to find your sample, navigate the data collection tool and submit data for the pilot. If you have not received this or have any queries please contact nad@rcpsych.ac.uk.

This is Part THREE of the casenote audit. For this part of the audit you will complete discharge information for the same sample of patients as in Part Two. The timelag is to allow for discharge to have taken place for the great majority of patients. Deadline for all data entry for Part Three is 24 March 2023.

*

Entering the data: You can save and return to each record entered.

1.1 Audit allocated ID Number [link from previously entered]
