

DEMENTIA
NATIONAL AUDIT OF
DEMENTIA

**National Audit of Dementia
Care in General Hospitals 2016-2017**

**Local report appendices for:
Eastbourne District General Hospital
East Sussex Healthcare NHS Trust**

July 2017

Commissioned by:

HQIP

Healthcare Quality
Improvement Partnership

Many thanks to Hwyl for permission to use the cover artwork. Hwyl is an art project run by Dementia Matters in Powys (DMiP) and Arts Alive Wales based at the Brecon War Memorial Hospital. The project focuses on working with elderly patients on hospital wards, with their families, carers, the ward staff and artists on a weekly basis.

With thanks to Rhiannon Davies (DMiP) and Tessa Waite (Arts Alive Wales).

Table of Contents

Introduction to the appendices	2
Appendix A: Organisational checklist data	3
Appendix B: Patient demographics	15
Appendix C: Casenote audit data	19
Appendix D: Carer demographics	28
Appendix E: Carer questionnaire data	29
Appendix F: Staff demographics	32
Appendix G: Staff questionnaire data	34
Appendix H: Verbatim staff suggestions for your hospital, presented by job role	40

Introduction to the appendices

This is the appendices for your local report. Your local report is in a separate document. The appendices present data from Round 3 of the National Audit of Dementia, both at a national level and for your hospital. Data for your hospital in Round 2 is also shown where applicable. When comparing Round 2 data with Round 3 data, please be aware that differences in sample sizes and slight wording changes to some questions, can affect results in both rounds. Therefore, conclusions made from comparing the data should be with caution. Hospitals with less than five returns for the carer or staff questionnaires have not received any data and returns of 5 to 9 questionnaires have not received demographic information. The table below shows how the data tables in the appendices are laid out and what information you can find in each cell.

Std no. [Type]	Question number and text		National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den
Standard reference and type. Standards document can be found on the audit website .	Question number. Orange items in the casenote audit appendix show low inter-rater reliability.	Question wording as in tool.	The national audit refers to all hospitals from England and Wales that participated in the Round 3 audit.	Data for your hospital from Round 3.	If the same question or a similar question was asked in Round 2, we have provided your Round 2 response for comparison. The carer and staff questionnaires are new tools and therefore this column has been excluded in these appendices.
			We have provided the percentage 'yes' response (unless otherwise indicated) and the numerator/denominator. The denominator will change throughout the appendices, depending on whether questions were routed (not asked in some instances), 'N/A' responses were chosen (these have been excluded from the analyses), or where staff and carers did not respond.		

For the organisational checklist, data from 199 hospitals are included in the national audit column (all the registered participants).

195 hospitals participated in the casenote audit, returning 10047 casenotes and this is shown in the national audit column. The national audit column for the casenote audit also shows the median and the inter quartile range for each question (where applicable). Question items which were found to have lower agreement in the inter-rater reliability analysis (see audit [website](#)) have been coloured orange.

196 hospitals returned carer questionnaires. Data from all questionnaires (4664) is presented in the carer questionnaire data tables in Appendix E.

198 hospitals returned staff questionnaires. Data from all questionnaires (14416) is presented in Appendix G. For some questionnaire items, the data for the two most positive answers have been combined, as well as being presented separately. This is provided both at a national level and for your hospital.

Appendix A: Organisational checklist data

Governance and delivery of care

Std no. [Type]	Question number and text	National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den	
4.1 [2]	1	A care pathway or bundle for patients with dementia is in place:			
		Yes	60.8% 121/199	Yes	Yes
		In development	26.1% 52/199		
4.2 [2]	1a	<i>(If Q1=Yes or In development)</i> A senior clinician is responsible for implementation and/ or review of the care pathway: (y/n)	97.1% 168/173	Yes	Yes
4.1 [2]	1b	<i>(If Q1=Yes or In development)</i> The dementia care pathway/ bundle is integrated within or linked to the following care pathways:			
		Delirium			
		Yes	65.9% 114/173	Yes	New question for Round 3
		Pathway in development	26.6% 46/173		
		Stroke			
		Yes	32.9% 57/173	Yes	New question for Round 3
		Pathway in development	21.4% 37/173		
		Fractured neck of femur			
		Yes	43.6% 75/172	Yes	New question for Round 3
		Pathway in development	24.4% 42/172		
4.7 [2]	2	The Executive Board regularly reviews information collected on:			
	2a	Re-admissions, in which patients with dementia can be identified in the total number of patients re-admitted (y/n)	31.7% 63/199	Yes	Yes
	2b	Delayed discharge/ transfers, in which patients with dementia can be identified in the total number of patients with delayed discharge/ transfers (y/n)	31.7% 63/199	No	Yes
4.4 [2]	3	The Executive Board regularly reviews the number of in-hospital falls and the breakdown of the immediate causes, in which patients with dementia can be identified (y/n)	60.3% 120/199	Yes	Yes

Std no. [Type]	Question number and text	National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den	
4.5 [2]	4	The Executive Board regularly receives feedback from the following:			
	4a	Clinical Leads for older people and people with dementia including Modern Matrons/ Nurse Consultant (y/n)	84.9% 169/199	Yes Yes	
	4b	Complaints – analysed by age (y/n)	52.3% 104/199	No No	
	4c	Patient Advice and Liaison Services (PALS) – in relation to the services for older people and people with dementia (y/n/na (hospitals in Wales))	58.6% 106/181	Yes Yes	
	4d	Patient/ public forums or local Healthwatch – in relation to services for older people and people with dementia (y/n)	67.3% 134/199	Yes Yes	
4.11 [2]	5	There are champions for dementia at:			
	5a	Directorate level (y/n)	81.9% 163/199	Yes Yes	
	5b	Ward level (y/n)	93.5% 186/199	Yes Yes	
N4a [3]	6	Dementia specialist nurses are employed in line with Royal College of Nursing guidance (there is at least one full time dementia specialist nurse for every 300 admissions of people with dementia per year): (y/n)	This question is not reported on as feedback showed hospitals found it difficult to interpret.		
N4b [3]	7	Has a strategy or plan for carer engagement been produced (e.g. using Triangle of Care self-assessment tool)? (y/n)	76.9% 153/199	Yes New question for Round 3	
	8	<i>(If Q7=Yes)</i> Is implementation of the strategy or plan scheduled for review?			
		Yes, more than once a year	41.2% 63/153	Yes, more than once a year	New question for Round 3
		Yes, once a year	34.6% 53/153		
Yes, less than once a year	20.3% 31/153				

Std no. [Type]	Question number and text		National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den	
N4c [3]	9	A Dementia Working Group is in place and reviews the quality of services provided in the hospital: (y/n)	93.5% 186/199	Yes	New question for Round 3	
	9a	<i>(If Q9=Yes)</i> The group meets:				
		Annually	0.5% 1/186	Bi-monthly	New question for Round 3	
		Bi-annually	0.5% 1/186			
		Quarterly	30.1% 56/186			
		Six-weekly	4.3% 8/186			
		Monthly	33.3% 62/186			
		Bi-monthly	29% 54/186			
		Weekly	0.5% 1/186			
		Unknown	1.6% 3/186			
	9b	<i>(If Q9=Yes)</i> The group includes:				
		Healthcare professionals	100% 186/186	√	New question for Round 3	
		Organisations e.g. Alzheimer's Society	64% 119/186	-		
Carer/ service user representation	66.1% 123/186	√				
N7a [3]	10	Ward staffing levels (nurses, midwives and care staff) are made available for the public to view on a monthly basis: (y/n)	88.4% 176/199	Yes	New question for Round 3	
	11	An evidence-based tool is used for establishing ward staffing levels: (y/n)	99% 197/199	Yes	New question for Round 3	
3.7 [1]	12	Protected mealtimes are established in all wards that admit adults with known or suspected dementia: (y/n)	98% 195/199	Yes	Yes	
	12a	<i>(If Q12=Yes)</i> Wards' adherence to protected mealtimes is reviewed and monitored: (y/n)	88.7% 173/195	Yes	Yes	
3.8 [1]	13	The hospital has in place a scheme/ programme which allows identified carers of people with dementia to visit at any time including at mealtimes (e.g. Carer's Passport): (y/n)	88.9% 177/199	Yes	New question for Round 3	

Discharge and transfer monitoring

Std no. [Type]	Question number and text		National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den
N5a [3]	14	Instances where less than 24 hours notice of discharge has been given to carers or family are compiled and reported to the Executive Board:			
		Yes, within the past 6 months	4% 8/199	No	New question for Round 3
		Yes, within the last year	1.5% 3/199		
N3c [3]	15	Instances of night time bed moves (i.e. between the evening meal and breakfast the next morning) are noted and reported at Executive Board level: (y/n)	38.2% 76/199	Yes	New question for Round 3

Use of personal information documents

Std no. [Type]	Question number and text		National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den
1.14 [1]	16	There is a formal system (pro-forma or template) in place in the hospital for gathering information pertinent to caring for a person with dementia: (y/n)	98.5% 196/199	Yes	Yes
	17a	<i>(If Q16=Yes)</i> Information collected by the pro-forma includes personal details, preferences and routines: (y/n)	100% 196/196	Yes	Yes
	17b	<i>(If Q16=Yes)</i> Information collected by the pro-forma includes reminders or support with personal care: (y/n)	98.5% 193/196	Yes	Yes
	17c	<i>(If Q16=Yes)</i> Information collected by the pro-forma includes recurring factors that may cause or exacerbate distress: (y/n)	100% 196/196	Yes	Yes
	17d	<i>(If Q16=Yes)</i> Information collected by the pro-forma includes support or actions that can calm the person if they are agitated: (y/n)	99% 194/196	Yes	Yes
1.15 [3]	17e	<i>(If Q16=Yes)</i> Information collected by the pro-forma includes life details which aid communication: (y/n)	99.5% 195/196	Yes	Yes
1.14 [1]	18	<i>(If Q16=Yes)</i> Information collected by the pro-forma includes how the person with dementia communicates with others/ understands communication: (y/n)	99.5% 195/196	Yes	New question for Round 3

Std no. [Type]	Question number and text		National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den
1.14 [1]	19	(If Q16=Yes) The form prompts staff to approach carers or relatives to collate necessary information: (y/n)	93.4% 183/196	Yes	Yes
20	Documenting use of personal information in practice: Hospitals selected three wards (not mental health wards) which had the highest admissions of people with dementia. 10 patients in these wards were checked to see if the personal information document was present. Included were patients with dementia who needed a personal information document such as "This is Me" (any patients with dementia who did not require a personal information document were excluded).				
	Ward 1:		Folkington		New question for Round 3
	Ward 2:		Seaford 3		
	Ward 3:		Jevington		
	Number of patients checked:		-	10	New question for Round 3
	Range		0-40	-	-
	Median		10	-	-
	Number of these patients where the information was present:		-	3	New question for Round 3
	Percentage of patients where the information was present:		-	30%	New question for Round 3
	Range		0-100%	-	-
	Mean		49%	-	-
Median		50%	-	-	

Recognition of dementia

Std no. [Type]	Question number and text		National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den
9.3 [1]	21	There is a system in place across the hospital that ensures that all staff in the ward or care area are aware of the person's dementia or condition and how it affects them: (y/n)	90.5% 180/199	Yes	Yes

Std no. [Type]	Question number and text		National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den
9.3 [1]	21a	<i>(If Q21=Yes)</i> Please say what this is:			
		A visual indicator, symbol or marker	91.1% 164/180	√	A box to highlight or alert dementia condition in the notes or care plan
		Alert sheet or electronic flag	23.9% 43/180	-	
		A box to highlight or alert dementia condition in the notes or care plan	33.9% 61/180	√	
		Other	18.9% 34/180	-	
	There is a system in place across the hospital that ensures that staff from other areas are aware of the person's dementia or condition whenever the person accesses other treatment areas: (y/n)	70.4% 140/199	Yes	Yes	
	22a	<i>(If Q22=Yes)</i> Please say what this is:			
		A visual indicator, symbol or marker	87.1% 122/140	√	Other
		Alert sheet or electronic flag	18.6% 26/140	-	
		A box to highlight or alert dementia condition in the notes or care plan	20.7% 29/140	-	
Other		17.9% 25/140	-		
23	The dementia lead or dementia working group collates feedback from carers on the written and verbal information provided to them: (y/n)	81.9% 163/199	Yes	New question for Round 3	

Training, learning and development

Std no. [Type]	Question number and text		National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den
7.2 [2]	24	There is a training and knowledge framework or strategy that identifies necessary skill development in working with and caring for people with dementia: (y/n)	95.5% 190/199	Yes	Yes

Std no. [Type]	Question number and text	National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den	
7.4 [2]	25	The following questions are about training that is provided to acute healthcare staff who are involved in the care of people with dementia (or suspected dementia):			
		Dementia awareness training:			
		Doctors			
		Mandatory	46.2% 92/199	-	-
		Provided on induction	63.3% 126/199	√	√
		Provided in the last 12 months	58.8% 117/199	√	√
		Not provided in the last 12 months	8.5% 17/199	-	-
		Nurses			
		Mandatory	51.8% 103/199	-	-
		Provided on induction	74.4% 148/199	√	√
		Provided in the last 12 months	68.3% 136/199	√	√
		Not provided in the last 12 months	1% 2/199	-	-
		Healthcare assistants			
		Mandatory	51.8% 103/199	-	-
		Provided on induction	71.4% 142/199	√	√
		Provided in the last 12 months	68.3% 136/199	√	√
		Not provided in the last 12 months	1% 2/199	-	-
		Other allied healthcare professionals, e.g. physiotherapists, dieticians			
		Mandatory	47.7% 95/199	-	-
		Provided on induction	64.8% 129/199	√	√
		Provided in the last 12 months	67.8% 135/199	√	√
		Not provided in the last 12 months	3.5% 7/199	-	-

Std no. [Type]	Question number and text	National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den	
7.4 [2]	25	Support staff in the hospital, e.g. housekeepers, porters, receptionists			
		Mandatory	41.2% 82/199	-	-
		Provided on induction	57.8% 115/199	√	-
		Provided in the last 12 months	63.8% 127/199	√	-
		Not provided in the last 12 months	11.1% 22/199	-	√
7.11 [3]	26	Involvement of people with dementia and carers and use of their experiences is included in the training for ward staff: (y/n)	82.4% 164/199	Yes	Yes
7.5 [3]	27	What format is used to deliver basic dementia awareness training?			
		eLearning module	72.9% 145/199	√	New question for Round 3
		Workshop or study day	91% 181/199	√	
		Higher education module	22.6% 45/199	√	
		Other	29.1% 58/199	-	

7.5 [3]	28	Hospitals were asked to provide figures on the number of staff trained in dementia awareness. Only 34 hospitals could provide this for at least one of the years specified. Therefore, there is no data on training figures.
N7b [3]	29	What is the total number of adult beds excluding maternity and mental health beds in your hospital at 31 March 2016? This information was to compare with question 28 so is therefore not included.

Specific resources supporting people with dementia

Std no. [Type]	Question number and text		National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den
6.2 [2]	30	The hospital has access to intermediate care services, which will admit people with dementia: (y/n)	93% 185/199	Yes	Yes
6.3 [3]	30a	<i>(If Q30=Yes)</i> Access to intermediate care services allows people with dementia to be admitted to intermediate care directly and avoid unnecessary hospital admission: (y/n)	84.3% 156/185	Yes	Yes
7.1 [2]	31	There is a named dignity lead to provide guidance, advice and consultation to staff: (y/n)	70.4% 140/199	Yes	Yes
6.4 [2]	32	There is a named person/ identified team who takes overall responsibility for complex needs discharge and this includes people with dementia: (y/n)	95.5% 190/199	Yes	Yes
6.5 [2]	33a	<i>(If Q32=Yes)</i> This person/ team has training in ongoing needs of people with dementia: (y/n)	92.6% 176/190	Yes	Yes
6.6 [3]	33b	<i>(If Q32=Yes)</i> This person/ team has experience of working with people with dementia and their carers: (y/n)	98.4% 187/190	Yes	Yes
6.7 [2]	34	There is a social worker or other designated person or team responsible for working with people with dementia and their carers, and providing advice and support, or directing to appropriate organisations or agencies: (y/n)	75.9% 151/199	Yes	Yes

Std no. [Type]	Question number and text	National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den	
N3b [2]	35	The hospital can provide finger foods for people with dementia (please select one option only):			New question for Round 3
		Patients can choose a complete meal option (including vegetarian) that can be eaten without cutlery (finger food) on every day	65.3% 130/199	√	
		Patients can choose a complete meal option (including vegetarian) that can be eaten without cutlery on four to six days per week or more	1% 2/199	-	
		Patients can choose a complete meal option (including vegetarian) that can be eaten without cutlery on two or three days per week or more	0% 0/199	-	
		Patients can choose a complete meal option (including vegetarian) that can be eaten without cutlery on only one day per week	0% 0/199	-	
		Finger food consists of sandwiches/wraps only	33.7% 67/199	-	
		Patients who may be unable to use cutlery will never be admitted to the hospital	0% 0/199	-	
3.11 [2]	36	The hospital can provide 24 hour food services for people with dementia (please select one option only):			New question for Round 3
		In addition to the main meals, other food, for example toast, sandwiches, cereals, soup, and lighter hot dish(es) are available 24 hours a day	50.8% 101/199	√	
		In addition to the main meals, other food, for example toast, sandwiches, cereals, soup are available, but less than 24 hours a day	10.6% 21/199	-	
		Simple food supplies for example bread, cereal, yoghurt and biscuits are available 24 hours a day	32.2% 64/199	-	
		Only snacks (biscuits, cake) are available 24 hours a day	3% 6/199	-	
Food is not available 24 hours a day	3.5% 7/199	-			
6.10 [2]	37	There is access to advocacy services with experience and training in working with people with dementia: (y/n)	95% 189/199	Yes	Yes

Environment

Std no. [Type]	Question number and text	National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den		
6.11 [3]	Opportunities for social interaction for patients with dementia are available (e.g. to eat/ socialise away from their bed area with other patients):					
	38	On all adult wards	15.1% 30/199	-	New question for Round 3	
		On care of the elderly wards	38.7% 77/199	√		
		Other	30.2% 60/199	-		
		No	16.1% 32/199	-		
N8a [3]	The physical environment within the hospital has been reviewed using an appropriate tool (e.g. King's Fund Enhancing the Healing Environment) to establish whether it is "dementia-friendly":					
	39	Throughout the hospital	42.7% 85/199	√	New question for Round 3	
		All adult wards/ areas	13.6% 27/199	-		
		All care of the elderly wards/ areas	18.1% 36/199	-		
		Designated dementia wards only	3% 6/199	-		
		Other	13.1% 26/199	-		
		No	9.5% 19/199	-		
	40	<i>(If Q39=Yes)</i> Environmental changes based on the review are:				
			Completed	15% 27/180	-	New question for Round 3
			Underway	56.7% 102/180	√	
			Planned but not yet underway	10% 18/180	-	
			Planned but funding has not been identified	15.6% 28/180	-	
			Plans are not in place	2.8% 5/180	-	

Std no. [Type]	Question number and text	National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den	
N8a [3]	<i>(If Q39=Yes)</i> Service users/ carers/ lay volunteers have been part of the team reviewing the environment:				
	41	Throughout the hospital	36.7% 66/180	√	New question for Round 3
		All adult wards/ areas	9.4% 17/180	-	
		All care of the elderly wards/ areas	13.3% 24/180	-	
		Designated dementia wards only	5% 9/180	-	
		Other	13.3% 24/180	-	
		They have not been part of the team	22.2% 40/180	-	
	<i>(If Q39=Yes)</i> There are plans to further review the changes implemented:				
	42	Yes, we are already undertaking/ have already done this	49.4% 89/180	√	New question for Round 3
		Yes, once the work is completed	40% 72/180	-	
		No plans are in place	10.6% 19/180	-	

Appendix B: Patient demographics

Age range	National audit Round 3: % (N)	Your hospital Round 3: % (N)
34 - 65	2.2% (221)	1.9% (1)
66 - 80	24.3% (2445)	18.9% (10)
81 - 100	73% (7332)	79.2% (42)

1.14 [1]	22	Does the care assessment contain a section dedicated to collecting information from the carer, next of kin or a person who knows the patient well? (y/n)	57.2% 5727/10010 (58%, 31-85%)	83% 44/53	67.5% 27/40
	22a	<i>(If Q22=Yes)</i> Has information been collected about the patient regarding personal details, preferences and routines?			
		Yes	47.4% 2669/5626 (53%, 30-77%)	69.8% 30/43	80.8% 21/26
		Unknown*	33.1% 1865/5626 (14%, 0-44%)	11.6% 5/43	New answer option for Round 3
	22b	<i>(If Q22=Yes)</i> Has information been collected about the patient's food and drink preferences?			
		Yes	44.1% 2476/5616 (50%, 29-71%)	56.8% 25/44	New question for Round 3
		Unknown*	34.1% 1916/5616 (16%, 3-48%)	20.5% 9/44	
	22c	<i>(If Q22=Yes)</i> Has information been collected about the patient regarding reminders or support with personal care?			
		Yes	55.3% 3116/5631 (64%, 42-80%)	73.8% 31/42	92% 23/25
		Unknown*	29.9% 1685/5631 (13%, 0-37%)	14.3% 6/42	New answer option for Round 3
	22d	<i>(If Q22=Yes)</i> Has information been collected about the patient regarding recurring factors that may cause or exacerbate distress?			
		Yes	32.6% 1818/5583 (35%, 18-56%)	39.5% 17/43	54.5% 12/22
		Unknown*	37.8% 2110/5583 (20%, 5-50%)	30.2% 13/43	New answer option for Round 3

Std no. [Type]	Question number and text		National audit Round 3: % Num/Den (Median, IQR)	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den
1.14 [1]	22e	(If Q22=Yes) Has information been collected about the patient regarding support or actions that can calm the person if they are agitated?			
		Yes	28.2% 1564/5539 (26%, 13-50%)	31.7% 13/41	18.8% 3/16
		Unknown*	39.1% 2167/5539 (20%, 7-52%)	24.4% 10/41	New answer option for Round 3
1.15 [3]	22f	(If Q22=Yes) Has information been collected about the patient regarding life details which aid communication?			
		Yes	43.1% 2413/5598 (50%, 25-70%)	52.4% 22/42	68.2% 15/22
		Unknown*	35.3% 1977/5598 (17%, 3-46%)	16.7% 7/42	New answer option for Round 3

*Unknown response options refer to situations in which the information is usually recorded in a document which accompanies the patient (e.g. "This is Me" or patient passport) and no copy is available in the notes.

Discharge

Assessment before discharge

Std no. [Type]	Question number and text	National audit Round 3: % Num/Den (Median, IQR)	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den	
5.3 [2]	23	At the point of discharge the patient's level of cognitive impairment, using a standardised assessment, was summarised and recorded: (y/n)	22.4% 1639/7329 (17%, 9-30%)	33.3% 15/45	32.3% 10/31
	23a	<i>(If 23=No)</i> Please comment:			
		Patient too unwell/ not responsive	3.3% 189/5690	3.3% 1/30	New question for Round 3
		Patient has advanced dementia (i.e. patient's advanced dementia makes the assessment not appropriate)	1.9% 110/5690	0% 0/30	
		Not routine/ not standard practice	5.8% 331/5690	0% 0/30	
		Not documented/ unknown reason	78.1% 4444/5690	93.3% 28/30	
	Dementia diagnosis (i.e. dementia diagnosis mentioned as a reason for not completing assessment)	10.8% 616/5690	3.3% 1/30		
	24	At the point of discharge the cause of cognitive impairment was summarised and recorded: (y/n)	69.1% 5067/7329 (72%, 57-84%)	68.9% 31/45	54.8% 17/31
	25	Have there been any symptoms of delirium? (y/n)	32.3% 2367/7329 (33%, 22-41%)	46.7% 21/45	38.7% 12/31
	25a	<i>(If Q25=Yes)</i> Have the symptoms of delirium been summarised for discharge? (y/n)	47.9% 1133/2367 (45%, 33-64%)	52.4% 11/21	50% 6/12
26	Have there been any persistent behavioural and psychiatric symptoms of dementia (wandering, aggression, shouting) during this admission? (y/n)	19.4% 1425/7329 (19%, 13-26%)	20% 9/45	32.3% 10/31	
26a	<i>(If Q26=Yes)</i> Have the symptoms of behavioural and psychiatric symptoms of dementia been summarised for discharge? (y/n)	44.5% 635/1426 (40%, 23-60%)	44.4% 4/9	20% 2/10	

Std no. [Type]	Question number and text		National audit Round 3: % Num/Den (Median, IQR)	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den
5.3 [2]	27	Is there a recorded referral to a social worker for assessment of housing and care needs due to a proposed change in residence?	65.5% 1649/2519 (71%, 53-89%)	64% 16/25	New question for Round 3
	27a (i)	<i>(If Q27=Yes):</i> There are documented concerns about the patient's capacity to consent to the referral:	70.4% 1161/1649 (75%, 50-89%)	56.3% 9/16	New question for Round 3
	27a (ii)	The patient had capacity on assessment and their consent is documented	11.9% 138/1161 (0%, 0-20%)	0% 0/9	
		The patient lacked requisite capacity and evidence of a best interests decision has been recorded	69.9% 811/1161 (75%, 50-90%)	55.6% 5/9	
		There is no record of either consent or best interest decision making*	18.3% 212/1161 (14%, 0-33%)	44.4% 4/9	
	27a (i)	There are no documented concerns about the patient's capacity to consent to the referral:	29.6% 488/1649 (25%, 11-50%)	43.8% 7/16	
	27a (iii)	The patients consent was requested and this is recorded	29.1% 142/488 (25%, 0-50%)	42.9% 3/7	
		There is no record of the patients consent*	70.9% 346/488 (75%, 50-100%)	57.1% 4/7	
	27a (ii & iii)	Consent or best interests (responses options combined)	66.2% 1091/1649 (67%, 50-86%)	50% 8/16	
		No consent or best interests (response options combined)	33.8% 558/1649 (33%, 14-50%)	50% 8/16	

*Please note that these figures include 1.9% of casenotes where it was specified that the capacity assessment information is kept with social worker notes, which are unavailable to the auditor.

Discharge coordination and multi-disciplinary team input

		No	4.9% 444/9090	-	3.4% 2/58	-

Appendix H: Staff suggestions for your hospital

The staff questionnaire included a question asking staff to make one suggestion on how their hospital could improve care and support provided to people with dementia. Below, all suggestions from staff at Eastbourne District General Hospital are provided.

Registered Nurses (Band 5 or 6)
Add in dementia study session into the mandatory training day.
Better communication at pre-assessment would help us highlight better the individual needs of each dementia patient prior to surgery.
Better staff engagement in the butterfly project.
By training the staff.
Dementia specialist nurse should be available every day to cover wards; trained nurses and HCAs for support.
Get consent forms 4s put in place ASAP when it comes to requiring it for procedures etc. Too many patients being cancelled as form 4s are not completed or patients have not kept to starving guidelines through no fault of their own.
Give dementia champion more time to do what they are allocated for. Increase staff when dependencies increase, it is not [currently] happening. Work on strategies to keep existing staff. All that I can say is that it is difficult to achieve with the shortage of staff and the increased workload. Time is precious to sit and speak to patients with dementia. We need to listen to them well and pay them attention. It is not happening. More staff are being lost because of this and more people are not getting what they deserve.
Having more activities to help them get involved and active as much as we can.
I think our hospital has improved well over the last year.
It would be nice if infection control would allow the ward to have rummage bags for patients with dementia, these are knitted bags and inside they have had buttons sewn into the base and pompoms and old keys etc. so that the patient can rummage and fiddle with these items, keeping their hands occupied.
Limit the amount of transfers these patients have on one admission. e.g. some move from A&E to CDU (clinical decisions unit) to medical assessment unit to medical ward to medically fit ward before discharge. Four, sometimes more, movements to unfamiliar surroundings can be very distressing.
More awareness and understanding of the differing levels of dementia and also the support available for relatives outside the hospital. Would be useful to create a specific hands on document with all helplines in and also [information on] progressive onset so families can understand what's happening to their loved one. More awareness is required to identify people with dementia.
More staff as decency levels are very high with those who have dementia.
Paint colour changes to doors and walls, change to flooring colour.
Some activities for these patients such as puzzles or reminiscence boxes. I have seen a woollen sleeve with beads that can be worn over cannulas for dementia sufferers that like to fiddle with things, this could be very useful and made possible by volunteers, although infection control may pose an issue.
The issue which concerns ward staff most, is the constant movement of patients around the Hospital. This particularly affects those people with dementia who have come to know and trust their environment and the people caring for them. Staff have learned how best to meet their needs, and carers and relatives have built a valuable two-way dialogue with the staff, giving them confidence to leave the patients in our care. This valuable dynamic should be given a higher priority during bed management discussions. As always more time is needed.

Registered Nurses (Band 5 or 6)

There has been a big drive for such patients with the butterfly scheme and "this is me" document, again dependant on staff thinking about such things. Ideally, staff to have more time to engage with dementia patients - to have time to talk and engage with the past, look at old pictures, offer more structured stimulation - resources to support such activities. Quiet places to nurse such patients away from acute, fast paced ward that can cause anxiety/ distress and increase confusion. More training.

To make sure there are the right number of staff on the wards to look after people in our care with dementia, on all shifts and wards. The correct number of staff will always be in the best interest of all patients in hospital - those with and without dementia.

We all need to be aware of patients with dementia and how this condition affects them and their carers. We should include them with the decisions made about their care as they will know the patient better than us - thus hopefully giving a positive result.

We have an excellent dementia team here and we love having them on the ward - they are always approachable and helpful.

Within our setting, we are lucky enough to have a social room. They host daily lunch club for patients with dementia and have a range of activities. Sadly, we have not been given the equipment of patient armchairs in this room which means sadly some patients are unable to join in with these activities. We would also be looking to raise funds for a television in our social room for all of our patients.

Registered Nurses (Band 7 or above)

Development and funding for more resources suitable for patients and relatives living with dementia.

More staff on the wards to assist with feeding and/ or encouraging patients to eat.

More training sessions, more staff to cope with the extra workload.

Remember to offer free parking to those family and friends who are offering fundamental care to dementia patients.

Healthcare Assistants

By giving frequent training and updates to HCAs.

Encourage/ provide day activities in every ward or in the ward where there are large number of dementia patients being admitted.

Have more resources to occupy patients through the day and night. Sensory items etc.

I think it would be helpful to have one particular ward for dementia patients so more care can be devoted to them and their more specialised care and needs.

I think we have a very good system on how, we as a whole, support people with dementia.

Illustrative photos/ pictures can be provided to help patients make their choices when it comes to food etc.

More facilities/ things for them to do.

More illustrated picture signs, i.e. toilets = picture of on door, picture menu, clocks that show date and time or (it is not Wednesday afternoon). Need picture menus and maybe a board (wipe on wipe off) at the end of the bed so that we could write what a patient has ordered, stick on the picture, as patient cannot remember, it is difficult to try and remember what everyone has ordered if busy.

More personalised care planning. More specific training (being introduced). More dementia champions to an area. More communication between staff over the person's needs.

Healthcare Assistants

More staffing at time when needed to give more 1:1 support with dementia patients where needed.

More training could be given so that all staff are aware of how to properly look after dementia patients.

People with dementia need more time, sometimes staff can't provide due to other tasks.

Therapy room for dementia (like signs and images). I think it would help to have a room with proper dementia essentials as it would help them settle and become calmer during their stay.

There needs to be more work done with housekeeping staff on how to communicate effectively with patients with dementia. Plus, all staff need to work together in the process of ordering food for patients to ensure patients get a varied diet to include their personal preferences.

Try to not move patients so much. In acute wards, dementia patients can be very disruptive to very sick patients - it can be very difficult for all patients and staff.

Doctors

Better access to older peoples' mental health team.

If I could pick one thing it would be to encourage everyone to give more time to patients with dementia; not always easy but always worthwhile.

More staff!

Specific ward area for patients with dementia with a day room and activities. This would be particularly prudent as many people with dementia wait in hospital once medically well for care package or physiotherapy. We are good at highlighting patients with dementia but do not seem to be able to offer them the targeted support in order to meet their additional needs.

Allied Healthcare Professionals

Flexible visiting hours for relatives. Relatives of those with dementia should be allowed to visit any time, bring meals if they wish etc. in order to be able to help support and orientate their loved one and be able to provide continuity and emotional support.

Have frequent updates regarding dementia information. If all wards with dementia patients have "this is me" and are clearly visible to see.

In the community - training for nursing homes so they have a better understanding of swallowing difficulties.

More prominent advice on the individual needs of the patients e.g. "This is Me" documentation in front of notes.

More training opportunities and more support on the wards. I think two dementia support workers have recently been employed which should improve the service.

Students

No comments from students for your hospital.

Therapy Assistants & Allied Healthcare Professional Assistants

No comments from therapy assistants and allied healthcare professional assistants for your hospital.

Ward-based Administrators

More staff.

Provide more information to staff with individual leaflets.

To make sure when outside agencies are used to sit with patients who require one to one specialing, that they try to communicate with them and not just sit looking at the patient i.e. perhaps look at some pictures or even read to them. I know this is not always possible but I see many times no interaction with the patients by these specials.
