

**National Audit of Dementia
Care in General Hospitals 2016-2017**

Local report appendices for:

Warwick Hospital

South Warwickshire NHS Foundation Trust

July 2017

Commissioned by:

HQIP

Healthcare Quality
Improvement Partnership

Many thanks to Hwyl for permission to use the cover artwork. Hwyl is an art project run by Dementia Matters in Powys (DMiP) and Arts Alive Wales based at the Brecon War Memorial Hospital. The project focuses on working with elderly patients on hospital wards, with their families, carers, the ward staff and artists on a weekly basis.

With thanks to Rhiannon Davies (DMiP) and Tessa Waite (Arts Alive Wales).

Table of Contents

Introduction to the appendices	2
Appendix A: Organisational checklist data	3
Appendix B: Patient demographics	15
Appendix C: Casenote audit data	19
Appendix D: Carer demographics	28
Appendix E: Carer questionnaire data	29
Appendix F: Staff demographics	32
Appendix G: Staff questionnaire data	34
Appendix H: Verbatim staff suggestions for your hospital, presented by job role	40

Introduction to the appendices

This is the appendices for your local report. Your local report is in a separate document. The appendices present data from Round 3 of the National Audit of Dementia, both at a national level and for your hospital. Data for your hospital in Round 2 is also shown where applicable. When comparing Round 2 data with Round 3 data, please be aware that differences in sample sizes and slight wording changes to some questions, can affect results in both rounds. Therefore, conclusions made from comparing the data should be with caution. Hospitals with less than five returns for the carer or staff questionnaires have not received any data and returns of 5 to 9 questionnaires have not received demographic information. The table below shows how the data tables in the appendices are laid out and what information you can find in each cell.

Std no. [Type]	Question number and text		National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den
Standard reference and type. Standards document can be found on the audit website .	Question number. Orange items in the casenote audit appendix show low inter-rater reliability.	Question wording as in tool.	The national audit refers to all hospitals from England and Wales that participated in the Round 3 audit.	Data for your hospital from Round 3.	If the same question or a similar question was asked in Round 2, we have provided your Round 2 response for comparison. The carer and staff questionnaires are new tools and therefore this column has been excluded in these appendices.
			We have provided the percentage 'yes' response (unless otherwise indicated) and the numerator/denominator. The denominator will change throughout the appendices, depending on whether questions were routed (not asked in some instances), 'N/A' responses were chosen (these have been excluded from the analyses), or where staff and carers did not respond.		

For the organisational checklist, data from 199 hospitals are included in the national audit column (all the registered participants).

195 hospitals participated in the casenote audit, returning 10047 casenotes and this is shown in the national audit column. The national audit column for the casenote audit also shows the median and the inter quartile range for each question (where applicable). Question items which were found to have lower agreement in the inter-rater reliability analysis (see audit [website](#)) have been coloured orange.

196 hospitals returned carer questionnaires. Data from all questionnaires (4664) is presented in the carer questionnaire data tables in Appendix E.

198 hospitals returned staff questionnaires. Data from all questionnaires (14416) is presented in Appendix G. For some questionnaire items, the data for the two most positive answers have been combined, as well as being presented separately. This is provided both at a national level and for your hospital.

Appendix A: Organisational checklist data

Governance and delivery of care

Std no. [Type]	Question number and text	National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den	
4.1 [2]	1	A care pathway or bundle for patients with dementia is in place:			
		Yes	60.8% 121/199	Yes	In development
		In development	26.1% 52/199		
4.2 [2]	1a	<i>(If Q1=Yes or In development)</i> A senior clinician is responsible for implementation and/ or review of the care pathway: (y/n)	97.1% 168/173	Yes	Yes
4.1 [2]	1b	<i>(If Q1=Yes or In development)</i> The dementia care pathway/ bundle is integrated within or linked to the following care pathways:			
		Delirium			
		Yes	65.9% 114/173	Yes	New question for Round 3
		Pathway in development	26.6% 46/173		
		Stroke			
		Yes	32.9% 57/173	Yes	New question for Round 3
		Pathway in development	21.4% 37/173		
		Fractured neck of femur			
		Yes	43.6% 75/172	Yes	New question for Round 3
		Pathway in development	24.4% 42/172		
4.7 [2]	2	The Executive Board regularly reviews information collected on:			
	2a	Re-admissions, in which patients with dementia can be identified in the total number of patients re-admitted (y/n)	31.7% 63/199	No	No
	2b	Delayed discharge/ transfers, in which patients with dementia can be identified in the total number of patients with delayed discharge/ transfers (y/n)	31.7% 63/199	No	Yes
4.4 [2]	3	The Executive Board regularly reviews the number of in-hospital falls and the breakdown of the immediate causes, in which patients with dementia can be identified (y/n)	60.3% 120/199	No	No

Std no. [Type]	Question number and text	National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den	
4.5 [2]	4	The Executive Board regularly receives feedback from the following:			
	4a	Clinical Leads for older people and people with dementia including Modern Matrons/ Nurse Consultant (y/n)	84.9% 169/199	Yes Yes	
	4b	Complaints – analysed by age (y/n)	52.3% 104/199	No No	
	4c	Patient Advice and Liaison Services (PALS) – in relation to the services for older people and people with dementia (y/n/na (hospitals in Wales))	58.6% 106/181	No No	
	4d	Patient/ public forums or local Healthwatch – in relation to services for older people and people with dementia (y/n)	67.3% 134/199	No No	
4.11 [2]	5	There are champions for dementia at:			
	5a	Directorate level (y/n)	81.9% 163/199	Yes No	
	5b	Ward level (y/n)	93.5% 186/199	Yes Yes	
N4a [3]	6	Dementia specialist nurses are employed in line with Royal College of Nursing guidance (there is at least one full time dementia specialist nurse for every 300 admissions of people with dementia per year): (y/n)	This question is not reported on as feedback showed hospitals found it difficult to interpret.		
N4b [3]	7	Has a strategy or plan for carer engagement been produced (e.g. using Triangle of Care self-assessment tool)? (y/n)	76.9% 153/199	Yes New question for Round 3	
	8	<i>(If Q7=Yes)</i> Is implementation of the strategy or plan scheduled for review?			
		Yes, more than once a year	41.2% 63/153	Yes, once a year	New question for Round 3
		Yes, once a year	34.6% 53/153		
Yes, less than once a year	20.3% 31/153				

Std no. [Type]	Question number and text	National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den	
N4c [3]	9	A Dementia Working Group is in place and reviews the quality of services provided in the hospital: (y/n)	93.5% 186/199	Yes	New question for Round 3
	9a	<i>(If Q9=Yes)</i> The group meets:			
		Annually	0.5% 1/186	Monthly	New question for Round 3
		Bi-annually	0.5% 1/186		
		Quarterly	30.1% 56/186		
		Six-weekly	4.3% 8/186		
		Monthly	33.3% 62/186		
		Bi-monthly	29% 54/186		
		Weekly	0.5% 1/186		
		Unknown	1.6% 3/186		
	9b	<i>(If Q9=Yes)</i> The group includes:			
		Healthcare professionals	100% 186/186	√	New question for Round 3
		Organisations e.g. Alzheimer's Society	64% 119/186	-	
Carer/ service user representation	66.1% 123/186	√			
N7a [3]	10	Ward staffing levels (nurses, midwives and care staff) are made available for the public to view on a monthly basis: (y/n)	88.4% 176/199	Yes	New question for Round 3
	11	An evidence-based tool is used for establishing ward staffing levels: (y/n)	99% 197/199	Yes	New question for Round 3
3.7 [1]	12	Protected mealtimes are established in all wards that admit adults with known or suspected dementia: (y/n)	98% 195/199	Yes	Yes
	12a	<i>(If Q12=Yes)</i> Wards' adherence to protected mealtimes is reviewed and monitored: (y/n)	88.7% 173/195	Yes	Yes
3.8 [1]	13	The hospital has in place a scheme/ programme which allows identified carers of people with dementia to visit at any time including at mealtimes (e.g. Carer's Passport): (y/n)	88.9% 177/199	Yes	New question for Round 3

Discharge and transfer monitoring

Std no. [Type]	Question number and text		National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den
N5a [3]	14	Instances where less than 24 hours notice of discharge has been given to carers or family are compiled and reported to the Executive Board:			
		Yes, within the past 6 months	4% 8/199	No	New question for Round 3
		Yes, within the last year	1.5% 3/199		
N3c [3]	15	Instances of night time bed moves (i.e. between the evening meal and breakfast the next morning) are noted and reported at Executive Board level: (y/n)	38.2% 76/199	No	New question for Round 3

Use of personal information documents

Std no. [Type]	Question number and text		National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den
1.14 [1]	16	There is a formal system (pro-forma or template) in place in the hospital for gathering information pertinent to caring for a person with dementia: (y/n)	98.5% 196/199	Yes	Yes
	17a	<i>(If Q16=Yes)</i> Information collected by the pro-forma includes personal details, preferences and routines: (y/n)	100% 196/196	Yes	Yes
	17b	<i>(If Q16=Yes)</i> Information collected by the pro-forma includes reminders or support with personal care: (y/n)	98.5% 193/196	Yes	Yes
	17c	<i>(If Q16=Yes)</i> Information collected by the pro-forma includes recurring factors that may cause or exacerbate distress: (y/n)	100% 196/196	Yes	Yes
	17d	<i>(If Q16=Yes)</i> Information collected by the pro-forma includes support or actions that can calm the person if they are agitated: (y/n)	99% 194/196	Yes	Yes
1.15 [3]	17e	<i>(If Q16=Yes)</i> Information collected by the pro-forma includes life details which aid communication: (y/n)	99.5% 195/196	Yes	Yes
1.14 [1]	18	<i>(If Q16=Yes)</i> Information collected by the pro-forma includes how the person with dementia communicates with others/ understands communication: (y/n)	99.5% 195/196	Yes	New question for Round 3

Std no. [Type]	Question number and text		National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den
1.14 [1]	19	(If Q16=Yes) The form prompts staff to approach carers or relatives to collate necessary information: (y/n)	93.4% 183/196	Yes	Yes
20	Documenting use of personal information in practice: Hospitals selected three wards (not mental health wards) which had the highest admissions of people with dementia. 10 patients in these wards were checked to see if the personal information document was present. Included were patients with dementia who needed a personal information document such as "This is Me" (any patients with dementia who did not require a personal information document were excluded).				
	Ward 1:		Charlecote		New question for Round 3
	Ward 2:		Squire		
	Ward 3:		Thomas		
	Number of patients checked:		-	10	New question for Round 3
	Range		0-40	-	-
	Median		10	-	-
	Number of these patients where the information was present:		-	8	New question for Round 3
	Percentage of patients where the information was present:		-	80%	New question for Round 3
	Range		0-100%	-	-
	Mean		49%	-	-
Median		50%	-	-	

Recognition of dementia

Std no. [Type]	Question number and text		National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den
9.3 [1]	21	There is a system in place across the hospital that ensures that all staff in the ward or care area are aware of the person's dementia or condition and how it affects them: (y/n)	90.5% 180/199	Yes	No

Std no. [Type]	Question number and text		National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den
9.3 [1]	21a	<i>(If Q21=Yes)</i> Please say what this is:			
		A visual indicator, symbol or marker	91.1% 164/180	√	N/A
		Alert sheet or electronic flag	23.9% 43/180	-	
		A box to highlight or alert dementia condition in the notes or care plan	33.9% 61/180	-	
		Other	18.9% 34/180	-	
	22	There is a system in place across the hospital that ensures that staff from other areas are aware of the person's dementia or condition whenever the person accesses other treatment areas: (y/n)	70.4% 140/199	Yes	
	22a	<i>(If Q22=Yes)</i> Please say what this is:			
		A visual indicator, symbol or marker	87.1% 122/140	√	N/A
		Alert sheet or electronic flag	18.6% 26/140	-	
		A box to highlight or alert dementia condition in the notes or care plan	20.7% 29/140	-	
Other		17.9% 25/140	-		
9.13 [2]	23	The dementia lead or dementia working group collates feedback from carers on the written and verbal information provided to them: (y/n)	81.9% 163/199	Yes	

Training, learning and development

Std no. [Type]	Question number and text		National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den
7.2 [2]	24	There is a training and knowledge framework or strategy that identifies necessary skill development in working with and caring for people with dementia: (y/n)	95.5% 190/199	Yes	Yes

Std no. [Type]	Question number and text	National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den	
7.4 [2]	25	The following questions are about training that is provided to acute healthcare staff who are involved in the care of people with dementia (or suspected dementia):			
		Dementia awareness training:			
		Doctors			
		Mandatory	46.2% 92/199	-	-
		Provided on induction	63.3% 126/199	√	-
		Provided in the last 12 months	58.8% 117/199	√	-
		Not provided in the last 12 months	8.5% 17/199	-	√
		Nurses			
		Mandatory	51.8% 103/199	-	-
		Provided on induction	74.4% 148/199	√	-
		Provided in the last 12 months	68.3% 136/199	√	-
		Not provided in the last 12 months	1% 2/199	-	√
		Healthcare assistants			
		Mandatory	51.8% 103/199	-	-
		Provided on induction	71.4% 142/199	√	-
		Provided in the last 12 months	68.3% 136/199	√	√
		Not provided in the last 12 months	1% 2/199	-	-
		Other allied healthcare professionals, e.g. physiotherapists, dieticians			
		Mandatory	47.7% 95/199	-	-
		Provided on induction	64.8% 129/199	√	-
		Provided in the last 12 months	67.8% 135/199	√	-
		Not provided in the last 12 months	3.5% 7/199	-	√

Std no. [Type]	Question number and text	National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den	
7.4 [2]	25	Support staff in the hospital, e.g. housekeepers, porters, receptionists			
		Mandatory	41.2% 82/199	-	-
		Provided on induction	57.8% 115/199	√	-
		Provided in the last 12 months	63.8% 127/199	√	-
		Not provided in the last 12 months	11.1% 22/199	-	√
7.11 [3]	26	Involvement of people with dementia and carers and use of their experiences is included in the training for ward staff: (y/n)	82.4% 164/199	Yes	No
7.5 [3]	27	What format is used to deliver basic dementia awareness training?			
		eLearning module	72.9% 145/199	√	New question for Round 3
		Workshop or study day	91% 181/199	√	
		Higher education module	22.6% 45/199	√	
		Other	29.1% 58/199	-	

7.5 [3]	28	Hospitals were asked to provide figures on the number of staff trained in dementia awareness. Only 34 hospitals could provide this for at least one of the years specified. Therefore, there is no data on training figures.
N7b [3]	29	What is the total number of adult beds excluding maternity and mental health beds in your hospital at 31 March 2016? This information was to compare with question 28 so is therefore not included.

Specific resources supporting people with dementia

Std no. [Type]	Question number and text		National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den
6.2 [2]	30	The hospital has access to intermediate care services, which will admit people with dementia: (y/n)	93% 185/199	Yes	Yes
6.3 [3]	30a	<i>(If Q30=Yes)</i> Access to intermediate care services allows people with dementia to be admitted to intermediate care directly and avoid unnecessary hospital admission: (y/n)	84.3% 156/185	Yes	Yes
7.1 [2]	31	There is a named dignity lead to provide guidance, advice and consultation to staff: (y/n)	70.4% 140/199	Yes	No
6.4 [2]	32	There is a named person/ identified team who takes overall responsibility for complex needs discharge and this includes people with dementia: (y/n)	95.5% 190/199	Yes	Yes
6.5 [2]	33a	<i>(If Q32=Yes)</i> This person/ team has training in ongoing needs of people with dementia: (y/n)	92.6% 176/190	No	No
6.6 [3]	33b	<i>(If Q32=Yes)</i> This person/ team has experience of working with people with dementia and their carers: (y/n)	98.4% 187/190	Yes	Yes
6.7 [2]	34	There is a social worker or other designated person or team responsible for working with people with dementia and their carers, and providing advice and support, or directing to appropriate organisations or agencies: (y/n)	75.9% 151/199	Yes	Yes

Std no. [Type]	Question number and text	National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den	
N3b [2]	35	The hospital can provide finger foods for people with dementia (please select one option only):			
		Patients can choose a complete meal option (including vegetarian) that can be eaten without cutlery (finger food) on every day	65.3% 130/199	√	New question for Round 3
		Patients can choose a complete meal option (including vegetarian) that can be eaten without cutlery on four to six days per week or more	1% 2/199	-	
		Patients can choose a complete meal option (including vegetarian) that can be eaten without cutlery on two or three days per week or more	0% 0/199	-	
		Patients can choose a complete meal option (including vegetarian) that can be eaten without cutlery on only one day per week	0% 0/199	-	
		Finger food consists of sandwiches/wraps only	33.7% 67/199	-	
		Patients who may be unable to use cutlery will never be admitted to the hospital	0% 0/199	-	
3.11 [2]	36	The hospital can provide 24 hour food services for people with dementia (please select one option only):			
		In addition to the main meals, other food, for example toast, sandwiches, cereals, soup, and lighter hot dish(es) are available 24 hours a day	50.8% 101/199	-	New question for Round 3
		In addition to the main meals, other food, for example toast, sandwiches, cereals, soup are available, but less than 24 hours a day	10.6% 21/199	√	
		Simple food supplies for example bread, cereal, yoghurt and biscuits are available 24 hours a day	32.2% 64/199	-	
		Only snacks (biscuits, cake) are available 24 hours a day	3% 6/199	-	
		Food is not available 24 hours a day	3.5% 7/199	-	
6.10 [2]	37	There is access to advocacy services with experience and training in working with people with dementia: (y/n)	95% 189/199	Yes	

Environment

Std no. [Type]	Question number and text	National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den		
6.11 [3]	Opportunities for social interaction for patients with dementia are available (e.g. to eat/ socialise away from their bed area with other patients):					
	38	On all adult wards	15.1% 30/199	-	New question for Round 3	
		On care of the elderly wards	38.7% 77/199	-		
		Other	30.2% 60/199	√		
		No	16.1% 32/199	-		
N8a [3]	The physical environment within the hospital has been reviewed using an appropriate tool (e.g. King's Fund Enhancing the Healing Environment) to establish whether it is "dementia-friendly":					
	39	Throughout the hospital	42.7% 85/199	-	New question for Round 3	
		All adult wards/ areas	13.6% 27/199	-		
		All care of the elderly wards/ areas	18.1% 36/199	-		
		Designated dementia wards only	3% 6/199	-		
		Other	13.1% 26/199	√		
		No	9.5% 19/199	-		
	40	<i>(If Q39=Yes)</i> Environmental changes based on the review are:				
			Completed	15% 27/180	-	New question for Round 3
			Underway	56.7% 102/180	√	
			Planned but not yet underway	10% 18/180	-	
			Planned but funding has not been identified	15.6% 28/180	-	
			Plans are not in place	2.8% 5/180	-	

Std no. [Type]	Question number and text	National audit Round 3: % Num/Den	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den	
N8a [3]	<i>(If Q39=Yes)</i> Service users/ carers/ lay volunteers have been part of the team reviewing the environment:				
	41	Throughout the hospital	36.7% 66/180	-	New question for Round 3
		All adult wards/ areas	9.4% 17/180	-	
		All care of the elderly wards/ areas	13.3% 24/180	-	
		Designated dementia wards only	5% 9/180	-	
		Other	13.3% 24/180	√	
		They have not been part of the team	22.2% 40/180	-	
	<i>(If Q39=Yes)</i> There are plans to further review the changes implemented:				
	42	Yes, we are already undertaking/ have already done this	49.4% 89/180	-	New question for Round 3
		Yes, once the work is completed	40% 72/180	√	
		No plans are in place	10.6% 19/180	-	

Appendix B: Patient demographics

Age range	National audit Round 3: % (N)	Your hospital Round 3: % (N)
34 - 65	2.2% (221)	2% (1)
66 - 80	24.3% (2445)	25.5% (13)
81 - 100	73% (7332)	72.5% (37)
101 - 108	0.4% (39)	0% (0)
Unknown	0.1% (10)	0% (0)

Age	National audit Round 3: % (N)	Your hospital Round 3: % (N)
Range	34 - 108	46 - 99

Assessment

Multidisciplinary assessment

Std no. [Type]	Question number and text		National audit Round 3: % Num/Den (Median, IQR)	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den	
1.9 [1]	14	An assessment of mobility was performed by a healthcare professional: (y/n/could not be assessed for recorded reasons)	93.8% 8558/9126 (96%, 91-98%)	93.8% 45/48	92.3% 36/39	
	15	An assessment of nutritional status was performed by a healthcare professional: (y/n/could not be assessed for recorded reasons)	89.8% 8832/9837 (93%, 86-96%)	94% 47/50	95% 38/40	
	15a	(If Q15=Yes) The assessment of nutritional status includes recording of BMI (Body Mass Index) or weight:				
			Yes, there is a recording of the patient's BMI or weight	85.9% 7580/8822 (89%, 79-96%)	78.7% 37/47	81.6% 31/38
		Other action taken	4% 352/8822 (2%, 0-5%)	8.5% 4/47	New answer options for Round 3	
	Yes or other action taken	89.9% 7932/2288 (93%, 85-98%)	87.2% 41/47			
1.10 [1]	16	Has a formal pressure ulcer risk assessment been carried out and score recorded? (y/n)	95.5% 9590/10044 (98%, 94-100%)	98% 50/51	100% 40/40	
1.12 [1]	17	As part of the multidisciplinary assessment has the patient been asked about any continence needs? (y/n/could not be assessed for recorded reasons)	88% 8572/9744 (92%, 85-97%)	76.5% 39/51	87.5% 35/40	
1.11 [1]	18	As part of the multidisciplinary assessment has the patient been assessed for the presence of any pain? (y/n/could not be assessed for recorded reasons)	83.2% 8185/9840 (90%, 77-98%)	86.3% 44/51	97.4% 38/39	

Std no. [Type]	Question number and text		National audit Round 3: % Num/Den (Median, IQR)	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den
1.13 [1]	19	Has an assessment of functioning been carried out?			
		Yes, a standardised assessment has taken place	45.3% 4212/9294 (45%, 23-66%)	6% 3/50	8.8% 3/34
		Yes, an occupational therapy and/or a physiotherapy assessment has taken place	42.8% 3977/9294 (44%, 26-58%)	74% 37/50	New answer options for Round 3
		Yes, other	1.7% 161/9294 (0%, 0-2%)	0% 0/50	
		Yes (all options)	89.8% 8350/9294 (92%, 85-96%)	80% 40/50	

Mental state assessment

Std no. [Type]	Question number and text		National audit Round 3: % Num/Den (Median, IQR)	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den
1.3 [2]	20	Has a standardised mental status test been carried out? (y/n/could not be assessed for recorded reasons)	54% 4684/8682 (55%, 38-72%)	27.7% 13/47	50% 19/38
1.4 [2]	21	Has an assessment been carried out for recent changes or fluctuation in behaviour that may indicate the presence of delirium?			
		Yes, and there were indications that delirium may be present	25.9% 2603/10047 (24%, 14-36%)	7.8% 4/51	32.5% 13/40
		Yes, but there was no indication that delirium may be present	18.5% 1863/10047 (15%, 6-25%)	17.6% 9/51	7.5% 3/40
		Yes (both options)	44.5% 4466/10047 (42%, 27-60%)	25.5% 13/51	40% 16/40
1.5 [2]	21a	(If Q21=Yes) Has the patient been clinically assessed for delirium by a healthcare professional? (y/n)	85.3% 2220/2603 (90%, 78-100%)	50% 2/4	53.8% 7/13

Information about the person with dementia

Std no. [Type]	Question number and text	National audit Round 3: % Num/Den (Median, IQR)	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den	
1.14 [1]	22	Does the care assessment contain a section dedicated to collecting information from the carer, next of kin or a person who knows the patient well? (y/n)	57.2% 5727/10010 (58%, 31-85%)	29.4% 15/51	27.5% 11/40
	22a	<i>(If Q22=Yes)</i> Has information been collected about the patient regarding personal details, preferences and routines?			
		Yes	47.4% 2669/5626 (53%, 30-77%)	85.7% 12/14	9.1% 1/11
		Unknown*	33.1% 1865/5626 (14%, 0-44%)	7.1% 1/14	New answer option for Round 3
	22b	<i>(If Q22=Yes)</i> Has information been collected about the patient's food and drink preferences?			
		Yes	44.1% 2476/5616 (50%, 29-71%)	85.7% 12/14	New question for Round 3
		Unknown*	34.1% 1916/5616 (16%, 3-48%)	7.1% 1/14	
	22c	<i>(If Q22=Yes)</i> Has information been collected about the patient regarding reminders or support with personal care?			
		Yes	55.3% 3116/5631 (64%, 42-80%)	85.7% 12/14	54.5% 6/11
		Unknown*	29.9% 1685/5631 (13%, 0-37%)	7.1% 1/14	New answer option for Round 3
	22d	<i>(If Q22=Yes)</i> Has information been collected about the patient regarding recurring factors that may cause or exacerbate distress?			
		Yes	32.6% 1818/5583 (35%, 18-56%)	71.4% 10/14	9.1% 1/11
		Unknown*	37.8% 2110/5583 (20%, 5-50%)	14.3% 2/14	New answer option for Round 3

Std no. [Type]	Question number and text		National audit Round 3: % Num/Den (Median, IQR)	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den
1.14 [1]	22e	(If Q22=Yes) Has information been collected about the patient regarding support or actions that can calm the person if they are agitated?			
		Yes	28.2% 1564/5539 (26%, 13-50%)	78.6% 11/14	0% 0/11
		Unknown*	39.1% 2167/5539 (20%, 7-52%)	14.3% 2/14	New answer option for Round 3
1.15 [3]	22f	(If Q22=Yes) Has information been collected about the patient regarding life details which aid communication?			
		Yes	43.1% 2413/5598 (50%, 25-70%)	85.7% 12/14	54.5% 6/11
		Unknown*	35.3% 1977/5598 (17%, 3-46%)	7.1% 1/14	New answer option for Round 3

*Unknown response options refer to situations in which the information is usually recorded in a document which accompanies the patient (e.g. "This is Me" or patient passport) and no copy is available in the notes.

Discharge

Assessment before discharge

Std no. [Type]	Question number and text	National audit Round 3: % Num/Den (Median, IQR)	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den	
5.3 [2]	23	At the point of discharge the patient's level of cognitive impairment, using a standardised assessment, was summarised and recorded: (y/n)	22.4% 1639/7329 (17%, 9-30%)	2.7% 1/37	7.4% 2/27
	23a	<i>(If 23=No)</i> Please comment:			
		Patient too unwell/ not responsive	3.3% 189/5690	0% 0/36	New question for Round 3
		Patient has advanced dementia (i.e. patient's advanced dementia makes the assessment not appropriate)	1.9% 110/5690	2.8% 1/36	
		Not routine/ not standard practice	5.8% 331/5690	83.3% 30/36	
		Not documented/ unknown reason	78.1% 4444/5690	11.1% 4/36	
	Dementia diagnosis (i.e. dementia diagnosis mentioned as a reason for not completing assessment)	10.8% 616/5690	2.8% 1/36		
	24	At the point of discharge the cause of cognitive impairment was summarised and recorded: (y/n)	69.1% 5067/7329 (72%, 57-84%)	73% 27/37	74.1% 20/27
	25	Have there been any symptoms of delirium? (y/n)	32.3% 2367/7329 (33%, 22-41%)	16.2% 6/37	51.9% 14/27
	25a	<i>(If Q25=Yes)</i> Have the symptoms of delirium been summarised for discharge? (y/n)	47.9% 1133/2367 (45%, 33-64%)	50% 3/6	35.7% 5/14
26	Have there been any persistent behavioural and psychiatric symptoms of dementia (wandering, aggression, shouting) during this admission? (y/n)	19.4% 1425/7329 (19%, 13-26%)	24.3% 9/37	25.9% 7/27	
26a	<i>(If Q26=Yes)</i> Have the symptoms of behavioural and psychiatric symptoms of dementia been summarised for discharge? (y/n)	44.5% 635/1426 (40%, 23-60%)	22.2% 2/9	0% 0/7	

Std no. [Type]	Question number and text		National audit Round 3: % Num/Den (Median, IQR)	Your hospital Round 3: % Num/Den	Your hospital Round 2: % Num/Den
5.3 [2]	27	Is there a recorded referral to a social worker for assessment of housing and care needs due to a proposed change in residence?	65.5% 1649/2519 (71%, 53-89%)	66.7% 8/12	New question for Round 3
	27a (i)	<i>(If Q27=Yes):</i> There are documented concerns about the patient's capacity to consent to the referral:	70.4% 1161/1649 (75%, 50-89%)	75% 6/8	New question for Round 3
	27a (ii)	The patient had capacity on assessment and their consent is documented	11.9% 138/1161 (0%, 0-20%)	16.7% 1/6	
		The patient lacked requisite capacity and evidence of a best interests decision has been recorded	69.9% 811/1161 (75%, 50-90%)	83.3% 5/6	
		There is no record of either consent or best interest decision making*	18.3% 212/1161 (14%, 0-33%)	0% 0/6	
	27a (i)	There are no documented concerns about the patient's capacity to consent to the referral:	29.6% 488/1649 (25%, 11-50%)	25% 2/8	
	27a (iii)	The patients consent was requested and this is recorded	29.1% 142/488 (25%, 0-50%)	50% 1/2	
		There is no record of the patients consent*	70.9% 346/488 (75%, 50-100%)	50% 1/2	
	27a (ii & iii)	Consent or best interests (responses options combined)	66.2% 1091/1649 (67%, 50-86%)	87.5% 7/8	
		No consent or best interests (response options combined)	33.8% 558/1649 (33%, 14-50%)	12.5% 1/8	

*Please note that these figures include 1.9% of casenotes where it was specified that the capacity assessment information is kept with social worker notes, which are unavailable to the auditor.

Discharge coordination and multi-disciplinary team input

		No	4.9% 444/9090	-	3.9% 2/51	-

Appendix H: Staff suggestions for your hospital

The staff questionnaire included a question asking staff to make one suggestion on how their hospital could improve care and support provided to people with dementia. Below, all suggestions from staff at Warwick Hospital are provided.

Registered Nurses (Band 5 or 6)
A garden would be nice so they can have somewhere to go that is secure and they see a different environment than the [four] walls of the bay.
By discharging them as quickly as possible after they have been medically fit.
Day room. More therapy.
Dementia training days. More staff would help in giving the patient more of your time.
Develop a purpose-built unit for dementia patients, staffed with clinical support workers that have received expert training in dementia care and trained staff with experience in this specialty.
Don't keep moving people around the hospital to make beds, it just makes them more confused and disables them and often leads to much longer stays in hospital, and the loss of ability to manage when they go home.
For there to be mandatory [training] on dementia from professionals such as matrons. Would benefit from the 'dementia champion' spending allocated times on the ward to educate.
Have more interactive activities for dementia patients to do to entertain them.
Have specialist care of the elderly/ dementia/ frailty ward so that we could work towards a centre of excellence.
I feel encouraged to accommodate the individual needs of people with dementia but the lack of staff and time pressures often make it very difficult.
I think there needs to be closer links with the mental health teams within the community that we should be able to call upon for support and advice - as at the moment, there appears to be a system in place that is a one-off assessment and no follow up if and when any advice has been given. I understand that when we are making a referral to the mental health services, they will not accept the referral, or see the patient, until they are medically fit. I feel strongly that this has the potential to deny and delay the patient of the mental health care that they may well be needing. I really feel strongly that these links between the acute hospital care and the mental health services should be working within collaboration with each other and not in isolation, to support our mental health patients that need the acute care to maintain their physical health. Where has holistic care gone?
I work on a surgical unit. Patients usually attend pre-op, but the butterfly scheme "this is me" is not completed at this stage and we rarely have the opportunity to sit with relatives to go through this.
More people that have done the dementia champion course.
More staff on the ward, better facilities.
More staff so we can spend time with patients to stimulate them, TV's radios, games, colouring equipment.
More staff.
More understanding when wards need staff to 'special', and not move staff as these patients are more often settled when they always have someone. The kitchen staff do not always recognise patients with dementia may eat overnight and do not always make it easy to obtain food. We need to be able to give them food when they are [hungry], not because its lunch time. They don't always know that and tea rounds, don't presume they won't like a drink! [Finger foods] always the same and never what is actually on the menu you pick off. Do not make a menu if cannot ever provide.

Registered Nurses (Band 5 or 6)

Need extra staff to provide full holistic care, for example, some dementia patients require help eating and drinking and time to do this varies greatly from patient to patient.

Perhaps have volunteers who have more time to spend with patients with dementia. There occasionally is a volunteer who comes in to talk but it is very brisk usually.

Possible photograph scheme - relatives/ friends bring in a photograph of when they didn't have dementia - when they were happy. To remind staff looking after them that they are not just someone with dementia. They are people that have often lived full happy lives.

Probably patients with dementia need to be in a separate ward because, if they are in the main ward, they tend to be overlooked and not receive person centred care.

Specialist nurse for dementia – hands-on post, working on the wards.

Registered Nurses (Band 7 or above)

By developing and embedding a dedicated dementia specialist team.

Looking at the environment and how we can improve this.

The ward is not appropriate for dementia patients. The ward is an acute ward and we do not have the time and staff to always sit and chat with them.

They have higher needs and staffing can limit how much time you can spend with them. We would like to have more staff and an activity coordinator.

Healthcare Assistants

Can only be improved really by staffing being kept up.

Could improve by offering visual choice for meals and have more activities so more settled.

Dementia ward need more facilities, like day room, TV - all bays and facilities for books and good locking system for ward unit, make sure they don't get out when you are busy. Please allocate more staff for dementia ward, and also need more recreational activities.

If they can improve staffing levels especially at night time because it's a struggle to provide quality care for patients with dementia.

More interactive activities to use with patients for distraction and settling techniques.

More knowledge on how to [care] for people with aggressive dementia.

More training and support.

More training for staff. Managers, senior staff need to make sure staff adhere to policies. Some staff do not treat patients with dementia with dignity. Could do better meals, equipment e.g. cutlery coloured plates, meals more appetising.

Need more dementia courses throughout the year, more frequent. Need more hands/ volunteers to help feed. Awareness and more training should be given to some HCAs on how important nutrition is to the patient and his/ her recovery.

Need more staff.

Need more training during work hours - not just one workshop. Facilities need to be educated about dementia, as well as doctors (not just nurses/ HCAs).

Not to move them round the hospital during the night to create a bed, as this makes them more confused.

Healthcare Assistants

The ward or trust needs to employ more people on each shift, as this ward especially is so demanding that most of the time, you are too busy to chat with the patients.

To have a play box to stimulate their minds while in the ward, to keep them occupied during their stay - must be very scary being in hospital with all the noise and people around them.

Doctors

Concise yet effective dementia assessment pathway for patients admitted with problems due to dementia. Better support from social services and facilities in community to facilitate discharge of patients with care needs.

Allied Healthcare Professionals

Greater skills training.

More mental stimulation.

More stimulation for dementia patients.

Provide activities to keep those with dementia active and occupied.

Students

"Get to know me" or dementia forms are filled out as compulsory for dementia patients.

Therapy Assistants & Allied Healthcare Professional Assistants

Provide more stimulation.

Ward-based Administrators

A day room with activities and more staff to take the time to interact.

Minimum move of wards, special area in assessment unit and emergency medicine until a more appropriate ward is available.

Other / Unknown

No comments from other staff for your hospital.
