

National Audit of Dementia
Care in General Hospitals Round 5
Local Report August 2023

Chesterfield Royal Hospital

Chesterfield Royal Hospital NHS Foundation Trust

Authors

This report was compiled by the National Audit of Dementia project team:

Dr Dasha Nicholls, Clinical and Strategic Director (CCQI)

Dr Alan Quirk, Head of Clinical Audit and Research (CCQI)

Chloë Hood, Programme Manager

Ruth Essel, Deputy Programme Manager

Carmen Chasse, Project Officer

Rachel Davies, Project Officer

Parveen Gurm, Project Officer

The National Audit of Dementia (care in general hospitals) is commissioned by the Healthcare Quality Improvement Partnership (HQIP) as part of the National Clinical Audit and Patient Outcomes Programme (NCAPOP). HQIP is led by a consortium of the Academy of Medical Royal Colleges, the Royal College of Nursing, and National Voices. Its aim is to promote quality improvement in patient outcomes, and in particular, to increase the impact that clinical audit, outcome review programmes and registries have on healthcare quality in England and Wales. HQIP holds the contract to commission, manage and develop the National Clinical Audit and Patient Outcomes Programme (NCAPOP), comprising around 40 projects covering care provided to people with a wide range of medical, surgical and mental health conditions. The programme is funded by NHS England, the Welsh Government and, with some individual projects, other devolved administrations and crown dependencies.

Introduction

Background

The National Audit of Dementia care in general hospitals (NAD) examines aspects of care received by people with dementia in general hospitals in England and Wales. The audit is commissioned by the Healthcare Quality Improvement Partnership on behalf of NHS England/NHS Improvement and the Welsh Government, as part of the National Clinical Audit Programme.

Data collection

Round 5 of NAD collected data between September 2022-January 2023. The audit was open to all general acute hospitals in England and Wales providing acute services on more than one ward which admits adults over the age of 65. In England and Wales, 187 hospitals (92% of eligible hospitals) took part in this round. Round 5 used a new sampling methodology and reduced casenote dataset, and revised organisational dataset (see [National Report](#) p11).

Participating hospitals were asked to complete:

- Prospective identification of people with dementia or suspected dementia admitted to the hospital from 19 September – 14 October 2022
- A casenote audit of the first 40-80 of these patients (some hospitals extended their identification period to achieve their sample)
- A survey of carer experience of the quality of care
- Data submission of hospital level information relating to training, resources and planning care, collated with key metrics from the casenote audit and carer questionnaire into the Annual Dementia Statement (ADS) for each hospital.

Hospital were also asked to use a newly developed tool to collect data from patients with dementia admitted to the hospital (3-5 patients per month, once fit for discharge). This data is reported back separately every 6 months. Data validation and evaluation will take place after the first twelve months of collection.

Results in this report

This report contains:

- Summary graphs/graphics showing key results from the prospective casenote audit and the carer questionnaire, including where possible comparison with Round 4 results
- Appendix tables with a full breakdown of Round 5 results for the casenote audit, carer questionnaire, and ADS.

You will also find a full presentation of your ADS data downloadable as a poster from [CaseCapture](#) data collection platform.

Your Data

Comparison of key metrics across all hospitals is available in National Report [Appendix XI](#).

The full National Report dataset and the post outlier analysis dataset are available at [here](#).

Please note that National R5 data throughout the report is referred to as 'TNS', for the National sample..

Data verification, analysis and outlier analysis

Participating sites were asked to check their data at the end of the data collection period, and also received specific data cleaning queries relating to anomalous entries. The confirmed datasets were aggregated and analysed for national reporting. These results appear in the national report and in this local report.

Following outlier analysis of this dataset, hospital sites notified of negative outlier status were given a further opportunity to check their data and submit amendments. Key metrics results post outlier amendments are shown in [appendix IV](#) and in the final dataset accessible [here](#).

Recommendations

[Please see National Report page 5 for Round 5 recommendations.](#)

Summary

Results of less than 5 locally have been suppressed to preserve anonymity. All graph data within infographics are rounded and may not add to 100%. For full breakdown, please see your ADS poster and [appendices tables](#). **NB:** 25 casenote audit returns and 10 carer questionnaire returns were minimum requirements for inclusion in local reporting.

2,223

RFSDA Total Casenotes within Admission Period: **80**

RFSDA Total Casenotes outside Admission Period: **0**

National Total Casenotes within Admission Period: **14,626**

National Total Casenotes outside Admission Period: **257**

Table 1: Key Metrics and Summary Data

Key Metrics	National R5	RFSDA R5
% Delirium screen (inc. noted on admission)	87%	96%
% Pain assessment	92%	100%
% Pain reassessment	92%	100%
% Pain tool – question only	61%	100%
% Initiation of discharge plan in first 24 hours*	45%	80%
Carer rating overall care quality	66%	88%
Carer rating communication	60%	67%
Summary Data	National R5	RFSDA R5
% People with dementia admitted to hospital over previous year	Range between 0.1% - 15% Median: 3%	5%
% People with personal information document at bedside	46%	60%
Number of Lead Nurse for dementia in post	Ranged between 0 - 6	1
% Staff with Tier 1 training	86%	82.3%
% Staff with Tier 2 training	45%	63%

Demographic Information from Casenote Audit

**National R5
Median Age:**

85

National R5 Ethnicity

This data has been suppressed due to identifiable information. Please see appendices tables for full data

**RFSDA
Median Age:**

83

**National R5
Age Range:**

30-106

National R5 First Language

This data has been suppressed due to identifiable information. Please see appendices tables for full data

**RFSDA
Age Range:**

61-102

Unrecorded Demographic Information QI Point

Demographic information returned as part of the casenote audit showed a significant proportion of casenotes where 'Unknown' was returned for ethnicity, first language or gender. You can see what proportion of your sample was affected by this in the graphic below.

During analysis for the National Report we looked at whether age or ethnicity had any impact on length of stay and outlying status (see [R5 Appendix](#) p49 and 53). This was simple analysis on the national dataset, and we did not discern any significant differences. Better recording of demographic data will help to support exploration of health inequality outcomes.

Delirium Screening and Assessment

People with dementia have a five-fold risk of developing delirium. The casenote audit asked about any screening for signs of delirium. If delirium had been noted on admission this was also taken into account. Figure 4 below shows all initial delirium screening, and Figure 5 the breakdown by screen type.

Figure 4: Initial Delirium Screening, including Delirium Noted on Admission (n=80)

Figure 5: Delirium Screen Type Breakdown (n=80)

RFSDA previous R4
Any Initial Delirium Screen:
60%

Table 2: Delirium Screening Date Range %

Delirium Screening Date Range %	National R5 % (N)	RFSDA R5 %(N)
0-1 days	90.9% (8201)	84.4% (65)
2-3 days	5.5% (496)	11.7% (9)
4-6 days	1.8% (164)	3.9% (3)
7-13 days	0.9% (80)	0% (0)
14-20 days	0.3% (30)	0% (0)
21-27 days	0.2% (17)	0% (0)
28-34 days	0.2% (17)	0% (0)
35-69 days	0.2% (14)	0% (0)
70-140 days	0% (1)	0% (0)

Pain Assessment and Reassessment

As some symptoms of dementia may mean that people living with the condition are unable to report pain, or respond appropriately to questions about it, NICE recommends that use of a structured tool is always considered. The figures and table below show any pain assessment, including question only, then the breakdown by assessment type. Pain reassessment is shown in figures 8 and 9. The casenote audit tool allows the response "N/A for recorded reasons" and these responses have been excluded from totals.

Table 3: Any Pain Assessment (n=80)

Any Pain Assessment (excluding NA)	National R5 %	RFSDA R5 %
Assessment within 24 hours	85%	100%
Assessment more than 24 hours	7%	0%
No pain assessment	8%	0%

RFSDA previous R4
Any Pain Assessment:

94%

Figure 6: Pain Assessment Tool Breakdown (n=80)

Table 4: Pain Assessment Date Range

Pain Assessment Date Range	National R5 % (N)	RFSDA R5 %(N)
0-1 days	94.2% (9069)	100% (80)
2-3 days	3.7% (357)	0% (0)
4-6 days	1% (93)	0% (0)
7-13 days	0.5% (49)	0% (0)
14-20 days	0.2% (17)	0% (0)
21-27 days	0.1% (9)	0% (0)
28-34 days	0.1% (12)	0% (0)
35-69 days	0.1% (14)	0% (0)
70-140 days	0% (3)	0% (0)

Figure 7: Any Pain Reassessment (n=80)

Figure 8: Pain Reassessment Tool Breakdown (n=80)

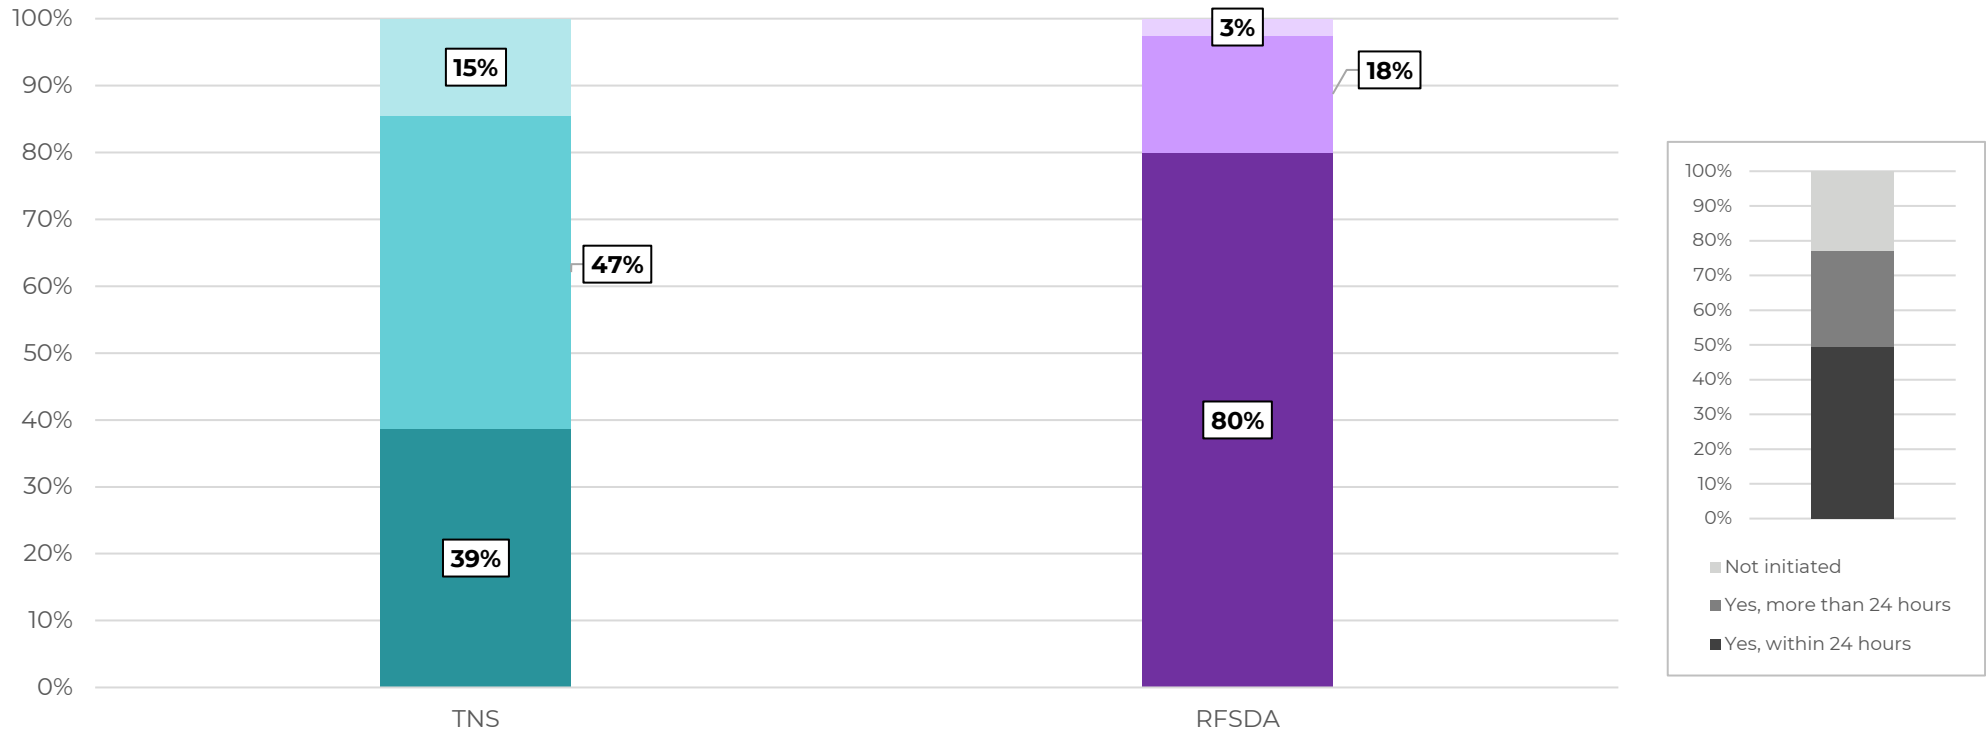

Table 5: Pain Reassessment Date Range

Pain Reassessment Date Range	National R5 % (N)	RFSDA R5 % (N)
0-1 days	93% (8267)	100% (80)
2-3 days	4.9% (436)	0% (0)
4-6 days	1.3% (117)	0% (0)
7-13 days	0.5% (46)	0% (0)
14-20 days	0.1% (9)	0% (0)
21-27 days	0.1% (5)	0% (0)
28-34 days	0.1% (8)	0% (0)
35-69 days	0% (1)	0% (0)
70-140 days	0% (1)	0% (0)

Discharge Planning

NHS England [Principles for Reducing Length of Stay](#) highlight the importance of early discharge planning. Figure 10 shows all responses on discharge planning and point of initiation. The audit tool also allowed respondents to indicate any reasons for later initiation of discharge, including awaiting results or surgical outcomes, and the acuity of the patient's condition.

Figure 9: Discharge Planning Initiated (n=80)

Reasons Plan Not Initiated and Outlier Analysis

When these responses are taken into account as N/A, discharge planning within 24 hours rises to 83.5% (4084/4891) nationally. At a local level this was the result used for outlier analysis (see post outlier dataset [Appendix IV](#))

Figure 10: Expected Date of Discharge Recorded (n=80)

Figure 11: Named member of staff (n=80)

Figure 12: Reasons discharge planning was not initiated within 24 hours of admission (n=16)

Discharge Information

**National R5
Median Length of Stay (days):**

10

**RFSDA R5
Median Length of Stay (days):**

10

**National R5
Patients discharged by
end of audit period:**

86.4%

**RFSDA R5
Patients discharged by
end of audit period:**

95%

**National R5
Patients were on the
right ward:**

92.5%

**RFSDA R5
Patients were on the
right ward:**

87.5%

**National R5
Patients who received
an end of life care plan:**

80.6%

**RFSDA R5
Patients who received
an end of life care plan:**

50%

NB. EOL care plan information was only collected for patients who died during admission

Figure 13: Length of Stay in Weeks (n=80)

As the sampling methodology changed between Rounds 4 and 5 we have not presented a comparison of Length of Stay between rounds.

Figure 14: Change in Place of Care (n=76)

This figure shows the proportion of patients who moved from own home or place of short term care (respite, carer's home, intermediate, rehab, another hospital) to residential, nursing or long stay care post discharge. It also shows the proportion of patients who moved from long term care to their own home or short term care, as well as patients who's place of care did not change.

Feedback from Carers

Figures below show a full breakdown of the carer questionnaire responses. Your Round 4 carer questionnaire results are shown above each graph. NB this data is only shown for sites with 10 or more carer questionnaires.

Carer ratings for overall quality of care and for communication can be found in [Appendix XI](#) of the national Report, and on your ADS poster on [CaseCapture](#).

Figure 15: Informed Staff (n=8)

This data has been suppressed due to number of records. Please see appendices tables for full data

Do you feel that hospital staff were well informed and understood the needs of the person you look after?

Figure 16: Quality of care from staff (n=8)

This data has been suppressed due to number of records. Please see appendices tables for full data

Do you feel confident that hospital staff delivered high quality care that was appropriate to the needs of the person you look after?

Figure 17: Personal Care (n=8)

This data has been suppressed due to number of records. Please see appendices tables for full data

Was the person you look after given enough help with personal care from hospital staff? For example, eating, drinking, washing and using the toilet.

Figure 18: Respect (n=8)

This data has been suppressed due to number of records. Please see appendices tables for full data

Was the person you look after treated with respect by hospital staff?

Figure 19: Informed about Care (n=8)

This data has been suppressed due to number of records. Please see appendices tables for full data

Were you (or the patient, where appropriate) kept clearly informed about their care and progress during the hospital stay?
For example, about plans for treatment and discharge

Figure 20: Involved Decisions (n=8)

This data has been suppressed due to number of records. Please see appendices tables for full data

Were you (or the patient, where appropriate) involved as much as you wanted to be in decisions about their care?

Figure 21: Needs (n=8)

This data has been suppressed due to number of records. Please see appendices tables for full data

Did hospital staff ask you about the needs of the person you look after to help plan their care?

Figure 22: Overall Carer Rating (n=8)

This data has been suppressed due to number of records. Please see appendices tables for full data

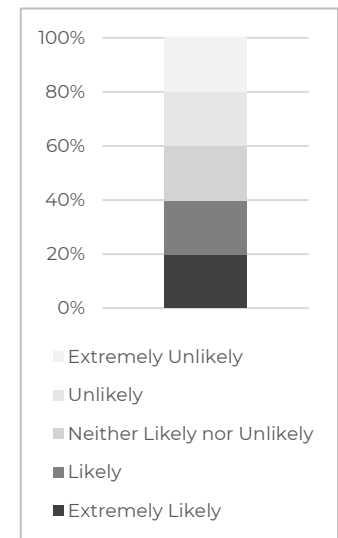

Overall, how would you rate the care received by the person you look after during the hospital stay?

Figure 23: Recommend (n=8)

This data has been suppressed due to number of records. Please see appendices tables for full data

How likely would you be to recommend the service to friends and family if they needed similar care or treatment?

Figure 24: Carer Satisfaction (n=8)

This data has been suppressed due to number of records. Please see appendices tables for full data

Overall, how satisfied are you with the support you have received from this hospital to help you in your role as a carer?

Carer Comments

Carers were able to make comments on the questionnaire. The table below shows a summary overview of comments by theme sorted by positive/ negative. (Sites were returned all their comments with identifying details removed in January).

Your hospital received a total of **4** carer comments.

Table 6: Carer Comments by Category*

**In Hospital Adverse Events can only have negative comments*

Staff Training	National R5 (N)	RFSDA R5 (N)
Positive	2	0
Negative	39	0
Treatment of Patients	National R5 (N)	RFSDA R5 (N)

(If the patient died) Was the patient receiving end of life care/on an end of life care plan?	National R5 % (N/D)	RFSDA R5 % (N/D)	RFSDA R4 % (N/D)
Yes	80.6% (987/1224)	50% (2/4)	New to R5
No	19% (233/1224)	50% (2/4)	New to R5
Unknown/Not documented	0.3% (4/1224)	0% (0/4)	New to R5

Appendix II: Annual Dementia Statement

NB: The tool and questions differed between R4 and R5. Information from both datasets is shown and comparison should be made with caution.

Admissions

Admissions	National R5	RFSDA R5	RFSDA R4
Number of overall admissions to the hospital in the past year	60,432 (Median)	39676	New to R5
Number of dementia admissions to the hospital within the past year	1,871 (Median)	1858	New to R5
Percentage of people with dementia admitted to the hospital	3% (Median)	4.7%	New to R5
Do dementia leads in the hospital think most people with dementia are identified during admission	National R5 % (N/D)	RFSDA R5	RFSDA R4
Yes	62.5% (105/168)	Yes	New to R5
No	33.9% (57/168)	-	New to R5
Not Known/ Undocumented	3.6% (6/168)	-	New to R5
Can you estimate a proportion of people with dementia who may not be identified during admission?	National R5 % (N/D)	RFSDA R5	RFSDA R4
Less than 5%	28.6% (48/168)	Less than 5%	New to R5
Up to 10%	10.1% (17/168)	-	New to R5

Up to 15%	8.3% (14/168)	-	New to R5
Up to 20%	6.5% (11/168)	-	New to R5
Up to 25%	8.3% (14/168)	-	New to R5
An unknown number	38.1% (64/168)	-	New to R5

Feedback about the care provided to people with dementia

Do you collect feedback on a regular basis from people with dementia admitted to the hospital?	National R5 % (N/D)	RFSDA R5	RFSDA R4
Yes	35.7% (60/168)	Yes	New to R5
No	58.9% (99/168)	-	New to R5
Not Known/ Undocumented	5.4% (9/168)	-	New to R5
Based on the past six months, what is the average number of people with dementia per month providing feedback? *If 'Yes' to 4.3	National R5 % (N/D)	RFSDA R5	RFSDA R4
1	16.7% (10/60)	1	New to R5
2	10% (6/60)	-	New to R5
3	11.7% (7/60)	-	New to R5
4	10% (6/60)	-	New to R5
5	20% (12/60)	-	New to R5

Carer Questionnaire Responses

1. Do you feel that hospital staff were well informed and understood the needs of the person you look after?	National R5 % (Num/Den)	RFSDA R5 % (N/D)	RFSDA R4 % (N/D)
Yes, definitely	42% (901/2143)	75% (6/8)	50% (10/20)
Yes, to some extent	44.4% (952/2143)	25% (2/8)	50% (10/20)
No	13.5% (290/2143)	0% (0/8)	0% (0/20)
2. Do you feel confident that hospital staff delivered high quality care that was appropriate to the needs of the person you look after?	National R5 % (Num/Den)	RFSDA R5 % (N/D)	RFSDA R4 % (N/D)
Yes, definitely	49.7% (1066/2144)	62.5% (5/8)	68.4% (13/19)
Yes, to some extent	39.2% (840/2144)	37.5% (3/8)	31.6% (6/19)
No	11.1% (238/2144)	0% (0/8)	0% (0/19)
3. Was the person you look after given enough help with personal care from hospital staff? For example, eating, drinking, washing and using the toilet.	National R5 % (Num/Den)	RFSDA R5 % (N/D)	RFSDA R4 % (N/D)
Yes, definitely	48.2% (992/2058)	62.5% (5/8)	68.4% (13/19)
Yes, to some extent	37.6% (774/2058)	37.5% (3/8)	31.6% (6/19)
No	14.2% (292/2058)	0% (0/8)	0% (0/19)

4. Was the person you look after treated with respect by hospital staff?	National R5 % (Num/Den)	RFSDA R5 % (N/D)	RFSDA R4 % (N/D)
Yes, definitely	70.2% (1488/2119)	87.5% (7/8)	100% (20/20)
Yes, to some extent	25.8% (546/2119)	12.5% (1/8)	0% (0/20)
No	4% (85/2119)	0% (0/8)	0% (0/20)
5. Were you (or the patient, where appropriate) kept clearly informed about their care and progress during the hospital stay? For example, about plans for treatment and discharge.	National R5 % (Num/Den)	RFSDA R5 % (N/D)	RFSDA R4 % (N/D)
Yes, definitely	38.7% (827/2138)	50% (4/8)	66.7% (12/18)
Yes, to some extent	39.7% (848/2138)	50% (4/8)	22.2% (4/18)
No	21.7% (463/2138)	0% (0/8)	11.1% (2/18)
6. Were you (or the patient, where appropriate) involved as much as you wanted to be in decisions about their care?	National R5 % (Num/Den)	RFSDA R5 % (N/D)	RFSDA R4 % (N/D)
Yes, definitely	42.2% (898/2127)	50% (4/8)	65% (13/20)
Yes, to some extent	36.8% (782/2127)	37.5% (3/8)	20% (4/20)
No	21% (447/2127)	12.5% (1/8)	15% (3/20)

7. Did hospital staff ask you about the needs of the person you look after to help plan their care?	National R5 % (Num/Den)	RFSDA R5 % (N/D)	RFSDA R4 % (N/D)
Yes, definitely	42.9% (919/2144)	37.5% (3/8)	80% (16/20)
Yes, to some extent	32.8% (704/2144)	37.5% (3/8)	15% (3/20)
No	24.3% (521/2144)	25% (2/8)	5% (1/20)
8. Overall, how would you rate the care received by the person you look after during the hospital stay?	National R5 % (Num/Den)	RFSDA R5 % (N/D)	RFSDA R4 % (N/D)
Excellent	28.6% (631/2208)	50% (4/8)	68.4% (13/19)
Very good	30.7% (677/2208)	50% (4/8)	21.1% (4/19)
Good	19.7% (435/2208)	0% (0/8)	10.5% (2/19)
Fair	14.5% (320/2208)	0% (0/8)	0% (0/19)
Poor	6.6% (145/2208)	0% (0/8)	0% (0/19)
9. How likely would you be to recommend the service to friends and family if they needed similar care or treatment?	National R5 % (Num/Den)	RFSDA R5 % (N/D)	RFSDA R4 % (N/D)
Extremely likely	36% (767/2129)	50% (4/8)	65% (13/20)
Likely	35.7% (759/2129)	50% (4/8)	35% (35/20)

Neither likely nor unlikely	15.9% (338/2129)	0% (0/8)	0% (0/20)
Unlikely	7.9% (169/2129)	0% (0/8)	0% (0/20)
Extremely unlikely	4.5% (96/2129)	0% (0/8)	0% (0/20)
10. Overall, how satisfied are you with the support you have received from this hospital to help you in your role as a carer?	National R5 % (Num/Den)	RFSDA R5 % (N/D)	RFSDA R4 % (N/D)
Very satisfied	42.8% (882/2063)	62.5% (5/8)	52.9% (9/17)
Somewhat satisfied	37.1% (765/2063)	37.5% (3/8)	35.3% (6/17)
Somewhat dissatisfied	11.9% (246/2063)	0% (0/8)	11.8% (2/17)
Very dissatisfied	8.2% (170/2063)	0% (0/8)	0% (0/17)
