Additional Cholesterol codes.....	62

Purpose of the document

The primary purpose of this document is to guide Early Intervention in Psychosis (EIP) teams on using the appropriate SNOMED codes when recording data in the Mental Health Services Data Set (MHSDS), specifically to support reporting for the National Clinical Audit of Psychosis (NCAP).

It also outlines the more detailed data required to evidence NCAP standards.

The document is divided into two sections:

- **Section 1 – SNOMED Coding Guidance for EIP Teams: MHSDS Data Recording & NCAP Compliance**

This section details the specific NCAP compliant SNOMED codes that should be utilised when recording data in the MHSDS.

- **Section 2 – NCAP Analysis and Audit Mapping**

This section details how NCAP uses this data for audit and analysis, including the broader range of codes currently accepted

Audience

This document is for anyone involved in the NCAP audit, including providers, clinicians, audit teams, BI staff, and data analysts.

Section 1 - SNOMED Coding Guidance for EIP Teams: MHSDS Data Recording & NCAP Compliance

This section outlines the recommended SNOMED codes for recording clinical activity in the MHSDS, aligned with NCAP standards. These codes have been developed in collaboration with NHS England to ensure consistency with national expectations. By using standardised codes, we aim to improve the quality and completeness of MHSDS submissions, thereby strengthening the evidence base used to inform NCAP audit results.

Glossary of terms

MHSDS Table: Refers to the specific table within the MHSDS where the relevant data is recorded. Each table groups related data items about service users and their care.

MHSDS data item: A unique identifier (UID) for a specific data field within an MHSDS table. It defines the exact data point being collected, such as referral date or care contact type.

NCAP Mapping: Indicates how each MHSDS data item aligns with a specific NCAP question or reporting standard. This helps ensure consistent data collection for audit and benchmarking purposes.

SNOMED codes: Standardised clinical terminology used across the NHS to record clinical information.

Qualifier codes: Used to add context or detail to a clinical record, helping us to clarify the status of an intervention or service. In this guidance, we refer to two specific qualifier codes that are applied consistently across all interventions:

- Offered - 410527000
- Refused – 443390004¹

¹ Declined in the NCAP mapping is synonymous with Refused from the list of MHSDS qualifier codes above. This is the case for all other instances where this terminology appears throughout the document

Example: Recording CBTp using qualifier codes

To record that CBTp has been offered to a patient the SNOMED expression will be structured as follows:

SNOMED code for CBTp: Link code = Qualifier code

718026005:408730004=410527000

Where:

- 718026005 = CBTp
- 408730004 = Link code (*This is a generic code and remains the same for all entries*)
- 410527000 = Offered

Psychosocial Interventions

All psychosocial interventions information can be found in the MHS202 care activity or the MHS204 indirect activity table within the MHSDS.

Cognitive Behavioural Therapy for Psychosis (CBTp)

Under guidance from NHS England, the SNOMED code for CBT for bipolar has also been included, as this is a newly introduced code that was previously recorded under CBTp.

SNOMED codes:

- CBTp – 718026005
- CBT for bipolar – 1771581000000100

Use either of the above codes in the expression below.

MHSDS data item	NCAP mapping	SNOMED expression
M202110	CBTp Taken up (use when CBTp/CBT for bipolar session is delivered)	718026005 1771581000000100
or M204100	CBTp Waiting (offered but not yet taken up)	Any of the CBT SNOMED codes listed above:408730004=410527000
	CBTp Declined	Any of the CBT SNOMED codes listed above:408730004=443390004

MHSDS data item	NCAP mapping	SNOMED expression
	<i>(service user has refused)</i>	
	CBTp Not offered	No applicable SNOMED code recorded
	Referral to another service	1097161000000100

Cognitive Behavioural Therapy (CBT) for At Risk Mental States (ARMS)

SNOMED code: CBT – 228557008

MHSDS data item	NCAP mapping	SNOMED expression
M202110 or M204100	CBT Taken up <i>(use when CBT is delivered)</i>	228557008
	CBT Waiting <i>(offered but not yet taken up)</i>	228557008:408730004=410527000
	CBT Declined <i>(service user has refused)</i>	228557008:408730004=443390004
	CBT Not offered	No applicable SNOMED code recorded
	Referral to another service	519101000000109

Family Intervention (FI)

SNOMED code: Family Intervention – 985451000000105

MHSDS data item	NCAP mapping	SNOMED expression
M202110 or M204100	Family Intervention Taken up <i>(use when FI is delivered)</i>	985451000000105
	Family Intervention Waiting <i>(offered but not yet taken up)</i>	985451000000105:408730004=410527000
	Family Intervention Declined	985451000000105:408730004=443390004

<i>(service user has refused)</i>	
Family Intervention Not offered	Missing SNOMED code
Referral to another service	859411000000105

Supported Employment and/or Education (SEE)

Multiple SNOMED codes that can be used to evidence SEE activity within the MHSDS. These codes provide different types of support provided in relation to employment and education.

SNOMED codes:

- Education rehabilitation – 183339004
- Vocational rehabilitation – 70082004
- Individual Placement and Support – 772822000
- Employment support other than Individual Placement and Support – 1098051000000103

SNOMED referral codes:

- Referral to education service – 415271004
- Referral for vocational rehabilitation - 18781004
- Referral to employment support service other than Individual Placement and Support – 1098041000000101
- Referral to an Individual Placement and Support service – 1082611000000105

Use any of the above codes in the expression below.

MHSDS data item	NCAP mapping	SNOMED expression
M202110	SEE Taken up <i>(use when SEE is delivered)</i>	183339004 70082004 1098051000000103 772822000
or	SEE Waiting <i>(offered but not yet taken up)</i>	<i>Any of the SEE SNOMED codes listed above: 408730004=410527000</i>
M204100	SEE Declined <i>(service user has refused)</i>	<i>Any of the SEE SNOMED codes listed above: 408730004=443390004</i>

MHSDS data item	NCAP mapping	SNOMED expression
	SEE Not offered	Missing SNOMED code
	Referral to another service	Any of the SEE referral codes** listed above

Carer focused Education and Support Programme (CESP)

In addition to the *MHS202 Care Activity* and *MHS204 Indirect Activity* tables, carer-related information is also extracted from the *MHS011 social and personal circumstances* within the MHSDS.

SNOMED code: Carer focused education and support programme - 726052009

MHSDS table	MHSDS data item	NCAP mapping	SNOMED expression
MHS202 care activity or MHS204 Indirect activity	M202110 procedure or M204100	CESP Taken up (use when CESP is delivered)	726052009
		CESP Waiting (offered but not yet taken up)	726052009:408730004=410527000
		CESP Declined (service user has refused)	726052009:408730004=443390004
		CESP Not offered	Missing SNOMED code
		Referral to another service	1097201000000108
MHS202 care activity or MHS204 indirect care activity or MHS011 SocPerCircumstance	M202060 or M204090 or M011020	(Service user) has a caregiver	184156005

Access and Waiting Times

For more detailed information on Access and Waiting Time (AWT) please refer to:
[Early Intervention in Psychosis \(EIP\) Waiting Times quick guide to submitting data - NHS England Digital](#).

MHSDS Table	MHSDS data item	Data item name	National code /SNOMED CT code
MHS101	M101010	This is the date the REFERRAL REQUEST was received by the Health Care Provider.	Date
MHS902 Service Team Details	M902030	Service or team type referred to (mental health)	A14 - Early intervention team for psychosis
MHS006MHCare Coord	M006010	StartDateAssCareCoord	Date used to 'stop the clock'
MHS006 Care coordinator	M006040	Care professional service or team type association (mental health) - CareProfServOrTeamTypeAssoc	A14 - Early Intervention Team for Psychosis
HS201CareContac	M201010	CareContDate	Date used to 'stop the clock'

Clozapine

Clozapine information can be found in the *MHS202 care activity* table within the MHSDS.

SNOMED code: Clozapine therapy - 723948002

MHSDS data item	NCAP mapping	SNOMED expression
M202110 (procedure)	Clozapine Taken up (use when clozapine is given)	723948002
	Clozapine Waiting (offered but not yet taken up)	723948002:408730004=410527000 or

MHSDS data item	NCAP mapping	SNOMED expression
		1085661000000102 ²
	Clozapine Declined (service user has refused)	723948002:408730004=443390004 or 1085661000000102 ³
	Clozapine Not offered	Missing SNOMED code

Physical Health

All physical health information can be found in the *MHS202 care activity* or the *MHS204 indirect activity* table within the MHSDS.

Smoking

MHSDS data item	NCAP mapping	SNOMED expression
Smoking assessment		
M202110 (procedure) or M204100	Smoking assessment completed	196771000000101 or 196771000000101:408730004=410527000
	Declined to provide information	196771000000101: 408730004=443390004
	Not documented	Missing (No SNOMED code) or if date recorded is not in the last 12 months
Smoking status		
M202060 (finding) or M204090	Current Smoker	77176002 - Smoker (finding)
	Ex-Smoker/ Non-Smoker	Ex-Smoker – 8517006 or Never smoked – 266919005

² This SNOMED code is for 'Clozapine therapy offered'. The use of this code will help differentiate between the 'take up' of clozapine vs when the antipsychotic has been offered but not commenced (i.e. waiting or declined), as this standard is based on 'offer' rather than 'take up'. This workaround is implemented for use in those systems where qualifier codes are not available. Where qualifier codes are available, their use is encouraged instead to discern between waiting and declined options.

³ As above.

Interventions for smoking		
M202110 (procedure) or M204100	Smoking cessation education	225323000
	Smoking cessation therapy	710081004
	Referral to smoking cessation service	871661000000106
	Brief intervention for smoking cessation	771155005
	Smoking cessation behaviour support	384742004
	Nicotine replacement therapy	151159008 or 313396002
	Varenicline therapy	719591006
M202110 (procedure)	Intervention delivered	SNOMED code without any qualifier code
	Intervention offered/ waiting	The relevant SNOMED codes and qualifier code for 'offered'
	Declined intervention	The relevant SNOMED code and qualifier code for 'declined' or 966971000000103 - Varenicline smoking cessation therapy declined (situation) or 315022003 - Nicotine replacement therapy declined (situation)
	Not documented	Missing SNOMED code or if date recorded is not in the last 12 months

Alcohol

MHSDS data item	NCAP mapping	SNOMED expression
Alcohol assessment		
M202110 (procedure) or	Alcohol use assessment completed	713127001 or 443781008

MHSDS data item	NCAP mapping	SNOMED expression
M204100	Declined to provide information	Any of the above codes: 408730004= 443390004 or 361731000000101
	Not documented	Missing (No SNOMED code) or if date recorded is not in the last 12 months
Alcohol use		
M202060 (finding)	Alcohol consumption is harmful	Harmful alcohol use – 198431000000105 or Hazardous alcohol use – 198421000000108
	Alcohol consumption is not harmful	Alcohol intake within recommended sensible limits (finding)- 160593006
M204090	Service user does not drink Alcohol	Does not drink alcohol – 105542008
Interventions for harmful alcohol use		
M202110	Education about alcohol consumption	281078001 or 408947007
	Referral to alcohol misuse service	1099141000000106 or 431260004
M204100	Motivational interviewing technique	713144002
	Referral to alcohol brief intervention service	376401000000103
	Referral to psycho-educational group	417158007
	Disulfiram measurement	105168006
	Naltrexone measurement	121396009
	Drug addiction maintenance	768691000000103

MHSDS data item	NCAP mapping	SNOMED expression
M202110 (procedure)	therapy naltrexone	
	Intervention delivered	SNOMED code without any qualifier code
	Intervention offered/waiting	The relevant SNOMED codes and qualifier code for 'offered'
	Declined intervention	The relevant SNOMED code and qualifier code for 'declined'
	Not documented	Missing SNOMED code or if date recorded is not in the last 12 months

Substance Misuse

Substance misuse assessment		
MHSDS data item	NCAP mapping	SNOMED expression
M202110	Substance misuse assessment completed	777041000000105 or 443781008 - Assessment of lifestyle
or M204100	Declined to provide information	Any of the above codes: 408730004= 443390004
	Not documented	Missing (No SNOMED code) or if date recorded is not in the last 12 months
Substance misuse		
M202060 (finding)	Substance misuse	Substance misuse - 361055000
or M204090	No substance misuse	Missing SNOMED code for substance misuse
Interventions for substance misuse		
M202110	Substance use education	425014005 or 408943006
or M204100	Referral to substance misuse service	201521000000104 or 413306008

	Brief intervention for substance misuse	860061000000101
	Motivational interviewing technique	713144002
	Referral to psycho-educational group	417158007
	Drug rehabilitation and detoxification care management	782191000000107
M202110 (procedure)	Intervention delivered	SNOMED code without any qualifier code
	Intervention offered/waiting	The relevant SNOMED codes and qualifier code for 'offered'
	Declined intervention	The relevant SNOMED code and qualifier code for 'declined' or Substance misuse treatment declined (situation) - 299881000000104
	Not documented	Missing SNOMED code or if date recorded is not in the last 12 months

Body Mass Index

MHSDS data item	NCAP mapping	SNOMED expression
Body Mass Index (BMI) screening		
M202110	BMI screening completed	698094009
or	Declined to provide information	698094009: 408730004= 443390004
M204100	Not documented	Missing (No SNOMED code) or if date recorded is not in the last 12 months
BMI value		
	BMI (observable entity)	BMI 'observable entity' – 60621009

MHSDS data item	NCAP mapping	SNOMED expression
M202080		
M202090	BMI Value ⁴ (kg/m ²)	BMI value
	Referral for combined healthy eating and physical education programme	770749002
	Lifestyle education regarding risk of diabetes	699826006 or 443288003
	Referral for lifestyle education regarding risk of diabetes	1106151000000107
	Weight management programme	718361005
	Refer to weight management programme	408289007
M202110 or M204100	Referral for lifestyle education	1097171000000107
	Lifestyle education	313204009
	Mental health medication review	413143000
	Antipsychotic medication review	769063007
	Advice about diet	11816003 or 443288003
	Referral to dietitian	103699006
	Advice about exercise	304507003

⁴ The exact BMI values are stored as an Observation Value where there is a SNOMED code for 'Observable Entity'.

MHSDS data item	NCAP mapping	SNOMED expression
M202110 (procedure)	Referral for exercise therapy	390864007
	Referral to exercise on referral programme	526151000000109
	Bariatric surgery	430715008
	Assessment for bariatric surgery	707206008
M202110 (procedure)	Intervention delivered	SNOMED code without any qualifier code
	Intervention offered/waiting	The relevant SNOMED codes and qualifier code for 'offered'
	Declined intervention	The relevant SNOMED code and qualifier code for 'declined'
	Not documented	Missing SNOMED code or if date recorded is not in the last 12 months

Blood Pressure

MHSDS data item	NCAP mapping	SNOMED expression
Blood pressure screening		
M202110 or M204100	Blood pressure assessment completed	171222001 or 75367002
	Declined to provide information	Any of the above codes: 408730004= 443390004 or 413123006
	Not documented	Missing (No SNOMED code) or if date recorded is not in the last 12 months

MHSDS data item	NCAP mapping	SNOMED expression
Blood pressure values		
M202080	Blood pressure (observable entity) ⁵	<p>Systolic blood pressure 'observable entity' - 271649006</p> <p>and</p> <p>Diastolic blood pressure 'observable entity' – 27165000</p>
M202090	Blood Pressure values	<p>Systolic value</p> <p>and</p> <p>Diastolic value</p>
Interventions for hypertension		
M202110 or M204100	Referral to general practice service	<p>1090411000000105</p> <p>or 360981000000109</p> <p>or</p> <p>183515008</p>
	Referral for antihypertensive therapy	<p>1097181000000109</p> <p>or</p> <p>183515008</p>
	Antihypertensive therapy	308116003
	Mental health medication review	413143000
	Antipsychotic medication review	769063007
	Advice about diet	<p>11816003</p> <p>or</p> <p>443288003</p>
	Referral to dietitian	103699006
	Advice about exercise	304507003
	Referral for exercise therapy	390864007
	Referral to exercise on referral programme	526151000000109
	Referral to specialist/secondary care physician	103696004
	Intervention delivered	SNOMED code without any qualifier code

⁵ The exact blood pressure values are stored as an Observation Value where there is a SNOMED code for 'observable entity'.

MHSDS data item	NCAP mapping	SNOMED expression
M202110 (procedure)	Intervention offered/waiting	The relevant SNOMED codes and qualifier code for 'offered'
	Declined intervention	The relevant SNOMED code and qualifier code for 'declined' or 401047000 - Hypertension treatment declined (situation)
	Not documented	Missing SNOMED code or if date recorded is not in the last 12 months

Glucose

MHSDS data item	NCAP mapping	SNOMED expression
Glucose screening		
M202110 or M204100	Glucose assessment completed	Haemoglobin A1c measurement – 43396009 or Fasting blood glucose measurement - 271062006 or Random blood glucose measurement – 271061004
	Declined to provide information	Any of the codes above: 408730004= 443390004 or 698473004 - Blood glucose test declined (situation)
Glucose values		

MHSDS data item	NCAP mapping	SNOMED expression
M202080	Glucose (observable entity) ⁶	Haemoglobin A1c level (observable entity) – 1003671000000109 or Fasting blood glucose level (observable entity) – 997681000000108 or Random blood glucose level (observable entity) – 1089381000000101
M202090	Glucose values	Values
Interventions for glucose regulation		
M202110 or M204100	Referral for diabetic care	1099151000000109 or 183515008
	Diabetic care	385804009 or 394725008
	Referral to general practice service	1090411000000105 or 360981000000109 or 183515008
	Diet modification	1098021000000108 or 443288003
	Metformin therapy	1097191000000106 or 170746002
	Mental health medication review	413143000
	Antipsychotic medication review	769063007
	Referral to specialist/secondary care physician	103696004
	Advice about exercise	304507003
	Referral for exercise therapy	390864007

⁶ The glucose values are stored as an Observation Value where there is a SNOMED code for 'Observable Entity'.

MHSDS data item	NCAP mapping	SNOMED expression
M202110 (procedure)	Referral to exercise on referral programme	526151000000109
	Referral for lifestyle education	1097171000000107
	Lifestyle education	313204009 or 443288003
	Assessment for bariatric surgery	707206008
	Bariatric operative procedure	430715008
	Intervention delivered	SNOMED code without any qualifier code
M202110 (procedure)	Intervention offered/waiting	The relevant SNOMED codes and qualifier code for 'offered'
	Declined intervention	The relevant SNOMED code and qualifier code for 'declined'
	Not documented	Missing SNOMED code or if date recorded is not in the last 12 months

Cholesterol

MHSDS data item	NCAP mapping	SNOMED expression
Cholesterol (blood lipids) screening		
M202110 or M204100	Cholesterol screening completed	Total cholesterol measurement - 121868005
		High density lipoprotein measurement - 17888004
		Total cholesterol: HDL ratio measurement - 166842003
		Assessment using QRISK cardiovascular disease 10-year risk calculator – 763243004
	Declined to provide information	Any of the above codes: 408730004= 443390004
	Not documented	Missing (No SNOMED code) or if date recorded is not in the last 12 months
Cholesterol measurements		

MHSDS data item	NCAP mapping	SNOMED expression
M202080	Cholesterol (observable entity) ⁷	Total cholesterol level (observable entity) – 853681000000104 Non-HDL cholesterol – 293821000000103 High density/low density lipoprotein ratio (observable entity) – 1029071000000109 Total cholesterol: high density lipoprotein ratio (observable entity) – 1028551000000102 Triglycerides – 14740000 QRISK cardiovascular disease 10-year risk calculator score (observable entity) – 763244005
M202090	Cholesterol values	values
Interventions for dyslipidaemia		
M202110	Lipid lowering therapy	134350008
	Referral for lipid lowering therapy	1105081000000108
	Mental health medication review	413143000
	Antipsychotic medication review	769063007
	Advice about diet	11816003 or 443288003
M204100	Referral to dietitian	103699006
or	Advice about exercise	304507003
	Referral for exercise therapy	390864007
	Referral to exercise on referral programme	526151000000109
	Referral to general practice service	1090411000000105 or

⁷ The exact cholesterol values are stored as an observation value where there is a SNOMED code for 'observable entity'.

MHSDS data item	NCAP mapping	SNOMED expression
M202110 (procedure)		360981000000109 or 183515008
	Referral to primary care service	703978000
	Referral to specialist/secondary care physician	103696004
	Intervention delivered	SNOMED code without any qualifier code
	Intervention offered/waiting	The relevant SNOMED codes and qualifier code for 'offered'
	Declined intervention	The relevant SNOMED code and qualifier code for 'declined' or Lipid lowering therapy declined (situation) - 135826008
	Not documented	Missing SNOMED code or if date recorded is not in the last 12 months

Outcome Measures

All outcome measures data can be found within *MHS606 coded scored assessment (referral)* or *MHS607 coded scored assessment (care activity)* tables within the MHSDS. NCAP looks for both an initial assessment with scores, and a follow-up assessment with scores.

HoNOS Working Age Adults

All individual scores are being collected.

MHSDS data item	NCAP mapping	SNOMED CT codes	Values
M607910 or MHS606910	1 – overactive, aggressive, disruptive or agitated behaviour	979641000000103	
	2 – Non-accidental self-injury	979651000000100	0 - No problem
	3 – Problem drinking or drug-taking	979661000000102	
	4 – Cognitive problems	979671000000109	1 - Minor problem requiring no action
	5 – Physical illness or disability problems	979681000000106	
	6 – Problems associated with hallucinations and delusions	979691000000108	2 - Mild problem but definitely present
	7 – Problems with depressed mood	979701000000108	
	8 – Other mental and behavioural problems	979711000000105	3 - Moderately severe problem
	9 – Problems with relationships	979721000000104	
	10 – Problems with activities of daily living	979731000000102	4 - Severe to very severe problem
	11 – Problems with living conditions	979741000000106	9 - Unknown
	12 – Problems with occupation and activities	979751000000109	

HoNOSCa

All individual scores are being collected.

MHSDS data item	NCAP mapping	SNOMED CT codes	Values
-----------------	--------------	-----------------	--------

M607910 or M606910	1 – Disruptive, antisocial or aggressive behaviour	989751000000102	0 - No problem 1 - Minor problem requiring no action 2 - Mild problem but definitely present 3 - Moderately severe problem 4 - Severe to very severe problem 9 - Unknown
	2 – Overactivity, attention and concentration	989801000000109	
	3 – Non-accidental self-injury	989811000000106	
	4 – Alcohol, substance/solvent misuse	989821000000100	
	5 – Scholastic or language skills	989831000000103	
	6 – Physical illness or disability problems	989841000000107	
	7 – Hallucinations and delusions	989851000000105	
	8 – Non-organic somatic symptoms	989861000000108	
	9 – Emotional and related symptoms	989871000000101	
	10 – Peer relationships	989761000000104	
	11 – Self-care and independence	989771000000106	
	12 – Family life and relationships	989781000000108	
	13 – Poor school attendance	989791000000105	

DIALOG

All individual scores are being collected.

MHSDS data item	NCAP mapping	SNOMED CT codes	Values
M607910 or M606910	1 – How satisfied are you with your mental health	1037651000000100	DIALOG scores are recorded as 1 to 7, with 8 used for "not known"
	2 – How satisfied are you with your physical health	1037661000000102	
	3 – How satisfied are you with your job situation	1037671000000109	
	4 – How satisfied are you with your accommodation	1037681000000106	

MHSDS data item	NCAP mapping	SNOMED CT codes	Values
	5 – How satisfied are you with your leisure activities	1037691000000108	
	6 – How satisfied are you with your relationship with your partner/family	1833391000000107	
	7 – How satisfied are you with your friendships	1833401000000105	
	8 – How satisfied are you with your personal safety	1037721000000104	
	9 – How satisfied are you with your medication	1037731000000102	
	10 – How satisfied are you with the practical help you receive	1037741000000106	
	11 – How satisfied are you with consultations with mental health professionals	1037751000000109	

QPR

The QPR total score is being collected.

MHSDS data item	NCAP mapping	SNOMED CT codes	Values
M607910 or M606910	QPR total (observable entity)	1035441000000106	
M607911 or M606911	QPR Score value	Score	There is a total score of 0-60 for the 15-item version.

GBO

All scores are being collected. There is a score of 0-10 for each individual goal where 0 indicates goal not at all met and 10 indicates goal reached.

MHSDS Table	MHSDS data item	NCAP mapping	SNOMED CT codes
MHS607 or MHS606	M607910 or M606910	Goal-Based Outcomes Tool Goal Progress Chart - goal 1 score Goal-Based Outcomes Tool Goal Progress Chart - goal 2 score	1638531000000102 1638541000000106

ReQoL-10

SNOMED code:

The ReQoL-10 total score is being collected. There is a total score of 0-40 where 0 indicates poorest quality of life and 40 indicates highest quality of life.

MHSDS Table	MHSDS data item	NCAP mapping	SNOMED CT codes
MHS607 or MHS606	MS607910 or M606910 M607911 or M606911	ReQoL-10 (observable entity) ReQoL-10 score	1091071000000100 Score

Section 2. NCAP Analysis and Audit Mapping

This section outlines how data submitted to the MHSDS is used to calculate the nine NCAP standards and inform audit results. It includes a broader set of SNOMED codes currently used in NCAP analysis, beyond those recommended in section 1 to ensure we are capturing as much data as possible. The aim is to provide transparency around the audit methodology and help teams understand how their recorded data contributes to national benchmarking and quality improvement.

Psychosocial Interventions

The timeframe for psychosocial interventions is three years prior to the end of reporting period. *For example: If the end of the reporting period ends 1st September 2025, relevant data will cover from 1st September 2022 to 31st August 2025.*

If a psychosocial intervention SNOMED code is recorded with the 'offered' qualifier code but without the intervention code alone, this will be interpreted as the intervention being offered but not yet commenced. This logic applies to all psychosocial interventions.

In NCAP mapping the term 'Declined' is considered synonymous with 'Refused' from the list of MHSDS qualifier codes. This applies consistently throughout the document wherever this terminology appears.

Cognitive behavioural therapy for psychosis (CBTp)

Service users with First Episode Psychosis (FEP) should take up CBTp.

- Each occurrence of the CBTp SNOMED code represents a session delivered.
- This is measured by the percentage of service users who have taken up CBTp, calculated as:
 - **Numerator:** FEP service users who take up CBTp.
 - **Denominator:** All FEP service users

Cognitive Behavioural Therapy (CBT) for at Risk Mental States (ARMS)

Service users with At-Risk Mental State (ARMS) should take up CBT for ARMS.

- Each occurrence of the SNOMED code for CBT for ARMS represents a session delivered.

- This is measured by the percentage of service users with ARMS who have taken up CBT for ARMS calculated as:
 - **Numerator:** ARMS service users who take up CBT for ARMS.
 - **Denominator:** All ARMS service users.

Family Intervention (FI)

Service users with FEP and their families should take up family intervention.

- Each occurrence of the FI SNOMED code represents another session.
- This is measured by the percentage of service users with FEP who have taken up FI calculated as:
 - **Numerator:** FEP Service users who have a contactable caregiver and took up family intervention.
 - **Denominator:** FEP Service users with a contactable identified family member, friend or carer who supports them.

There was no SNOMED code found indicating an ‘identified family member, friend or carer that can be contacted/is involved in the person’s care’. As such, a proportion of FEP service users in line with Family Intervention samples from previous audits (74.8%) will be utilised as an interim denominator for the proxy measure.

Supported Employment and/or Education (SEE)

Service users with FEP who are unemployed and actively seeking employment should take up supported employment and/or education.

- Each occurrence of the SEE SNOMED code represents another session.
- This is measured by the percentage of service users with FEP who have taken up supported education and/or employment, calculated as:
 - **Numerator:** FEP Service users who are unemployed and actively seeking employment who take up supported employment and/or education.
 - **Denominator:** FEP Service users who are unemployed and actively seeking employment.

If a code for *unemployed and actively seeking work* is present on a record at any point since referral, the patient will be classified as ‘unemployed’ and will be included in the SEE calculation.

Carer focused Education and Support Programme (CESP)

Carers for service users with FEP should take up carer focused education and support programmes.

- Each occurrence of the SNOMED code for CESP indicates another session.

- This is measured by the percentage of carers for service users with FEP who have taken up focused education and supported programme, calculated as:
 - **Numerator:** Service users with FEP whose carer takes up focused education and support programmes
 - **Denominator:** Service users with FEP who have an identified family member, friend, or carer who supports them.

There was no SNOMED code found indicating an ‘identified family member, friend or carer that can be contacted/is involved in the person’s care’, and no SNOMED code indicating a non-contactable carer. As such, a proportion of FEP service users in line with Carer focused Education and Support samples from previous audits (79.5%) will be utilised as an interim denominator for the proxy measure.

Timely Access (or Access and Waiting Times)

People with FEP should start treatment in EIP services within two weeks of referral.

- Proportion of Referrals entering treatment waiting two weeks or less
 - **Numerator:** Referrals on EIP pathway entering treatment within two weeks
 - **Denominator:** Referrals on EIP pathway entering treatment

Clozapine

Service users with FEP who have undergone two unsuccessful trials of antipsychotic medication are offered clozapine.

- The timeframe for the Clozapine standard is 3 years from end of reporting period.
 - **Numerator:** Service users with FEP who are offered clozapine (presence of any of the codes listed in the table above for taken up, waiting, or declined).
 - **Denominator:** Service users with FEP who have not responded adequately to or tolerated treatment with at least 2 antipsychotic drugs

⁸

⁸Due to the unavailability of MHSDS data informing whether the service user had undergone at least two unsuccessful trials of antipsychotic medication, a proxy denominator was introduced to continue reporting against this metric, whilst other

Physical Health

Service users should be offered a physical health review annually which includes:

- smoking status;
- alcohol intake;
- substance misuse;
- BMI;
- blood pressure;
- glucose and
- cholesterol.

To meet this standard, service users must have been offered screening on all seven measures and been offered an intervention if the screening outcome indicated need. Service users who decline screening are included as meeting the standard.

The timeframe for this standard is 12 months from the end of reporting period.

- **Numerator:** Service users with FEP who were offered all physical health screenings and offered interventions where the outcome of a screening indicated one was needed.
- **Denominator:** Service users with FEP.

Please note that should a physical health intervention code be present, but no information around the screening/assessment is recorded, an assumption will be made that the presence of an intervention indicated need, and that therefore the screening/assessment has taken place.

For example, if a patient has no information on whether they are a smoker, but a smoking intervention code is recorded, the assumption will be made that the presence of the intervention indicated need, and that as such, the patient is a smoker (screening completed).

Outcome Measures

For service users with FEP or ARMS, two or more nationally mandated clinical outcome measures (HoNOS/HoNOSCA, DIALOG, QPR, GBO, REQoL-10) should be recorded at least twice: once on initial assessment and once at a later time point.

The timeframe for the outcome measure standard is 12 months from the end of the reporting period.

- **Numerator:** Service users with FEP or ARMS who have at least two of the above outcome measures recorded more than once.

options, such as the introduction of a new SNOMED code is explored. The proxy denominator is 'all service users with FEP'.

- **Denominator:** Service users with FEP or ARMS.

Demographics

MHSDS Table	MHSDS data item	NCAP Mapping
Age of patient		
MHS001 Master patient index	M001D07	Age calculated at the end of reporting period.
Gender		
MHS001 Master patient index	M001160	1 - Male (including trans man) 2 - Female (including trans woman) 3 - Non-binary 4 - Other X - Non known (not recorded) Z - Not stated (person asked but declined to provide a response)
Ethnicity

Appendix A: Additional ‘Declined’ cluster codes lists

The cluster codes listed below indicate where a service user has declined a physical health screening, assessment, or intervention. These codes are currently being accepted by the audit, but utilising the specific SNOMED codes detailed above in the physical health section is preferred.

Cluster code	Description	SNOMED CT code	NCAP mapping
ALCSCRNDEC_COD			
ALCSCRNDEC_COD	Alcohol screening and assessment declined codes	1104551000000109	Declined to provide information about alcohol use (situation)
ALCSCRNDEC_COD	Alcohol screening and assessment declined codes	361731000000101	Alcohol assessment declined (situation)
ALCSCRNDEC_COD	Alcohol screening and assessment declined codes	428073005	Alcohol consumption screening test declined (situation)
ALCSCRNDEC_COD	Alcohol screening and assessment declined codes	858861000000101	Declines to state current alcohol consumption (finding)
ALCSCRNDEC_COD	Alcohol screening and assessment declined codes	922471000000101	Alcohol Use Disorders Identification Test declined (situation)
ALCINTDEC_COD			
ALCINTDEC_COD	Codes indicating the patient has chosen not to accept an alcohol intervention	379411000000105	Brief intervention for excessive alcohol consumption declined (situation)
ALCINTDEC_COD	Codes indicating the patient has chosen not to	380861000000109	Declined referral to specialist alcohol

Cluster code	Description	SNOMED CT code	NCAP mapping
	accept an alcohol intervention		treatment service (situation)
ALCINTDEC_COD	Codes indicating the patient has chosen not to accept an alcohol intervention	442444001	Referral to specialist alcohol treatment service declined by patient (situation)
ALCINTDEC_COD	Codes indicating the patient has chosen not to accept an alcohol intervention	754831000000102	Extended intervention for excessive alcohol consumption declined (situation)
ALCINTDEC_COD	Codes indicating the patient has chosen not to accept an alcohol intervention	781191000000101	Referral to community alcohol team declined (situation)
BMIDEC_COD			
BMIDEC_COD	Codes indicating the patient has chosen not to have their body mass index (BMI) measured	1037511000000103	Body height measurement declined (situation)
BMIDEC_COD	Codes indicating the patient has chosen not to have their body mass index (BMI) measured	736013005	Body weight measurement declined (situation)
CHOLDEC_COD			
CHOLDEC_COD	Codes indicating a patient has chosen not to have a cholesterol test	14185100019107	Lipid screening declined (situation)

Cluster code	Description	SNOMED CT code	NCAP mapping
CHOLDEC_COD	Codes indicating a patient has chosen not to have a cholesterol test	203151000000104	Cholesterol test declined (situation)
CHOLDEC_COD	Codes indicating a patient has chosen not to have a cholesterol test	301111000000107	Lipid disorder monitoring declined (situation)
CHOLDEC_COD	Codes indicating a patient has chosen not to have a cholesterol test	9471000175101	Hyperlipidemia screening test declined (situation)
SMOKSTATDEC_COD			
SMOKSTATDEC_COD	Codes indicating the patient has chosen not to give their smoking status	1098881000000103	Declined to give smoking status (situation)
SMOKSTATDEC_COD	Codes indicating the patient has chosen not to give their smoking status	11351000175103	Tobacco use screening declined (situation)
ILLSUBASSDEC_COD			
ILLSUBASSDEC_COD	Codes indicating patient has chosen not to have their illicit substance abuse assessment	362451000000107	Drug misuse assessment declined (situation)
ILLSUBASSDEC_COD	Codes indicating patient has chosen not to have their illicit substance abuse assessment	777101000000108	Substance misuse assessment declined (situation)
ILLSUBASSDEC_COD	Codes indicating patient has chosen not to have their illicit	783241000000102	Declined to give substance misuse history (finding)

Cluster code	Description	SNOMED CT code	NCAP mapping
	substance abuse assessment		
WTMGINTDEC_COD			
WTMGINTDEC_COD	Codes indicating the patient has chosen not to receive a weight management intervention	134385008	Referral to dietician declined (situation)
WTMGINTDEC_COD	Codes indicating the patient has chosen not to receive a weight management intervention	199351000000104	Declined referral to physical exercise programme (situation)
WTMGINTDEC_COD	Codes indicating the patient has chosen not to receive a weight management intervention	506171000000109	Referral to weight management service declined (situation)
WTMGINTDEC_COD	Codes indicating the patient has chosen not to receive a weight management intervention	511991000000101	Referral for exercise on prescription declined (situation)
WTMGINTDEC_COD	Codes indicating the patient has chosen not to receive a weight management intervention	698483000	Weight management advice declined (situation)
WTMGINTDEC_COD	Codes indicating the patient has chosen not to receive a weight management intervention	898971000000109	Dietetics intervention declined (situation)
WTMGINTDEC_COD	Codes indicating the patient has chosen not to receive a weight management intervention	904631000000104	Intensive weight management programme declined (situation)

Appendix B: Physical health screening and related outcomes

The codes listed in this appendix relate to physical health screening and their outcomes. While the codes in the 'Physical Health' portion of Section 1 are preferred, NCAP will accept the use of these alternative codes.

Additional Smoking codes

SNOMED concept ID	Code description
360900008	Aggressive ex-smoker (finding)
230065006	Chain smoker (finding)
230057008	Cigar consumption (observable entity)
59978006	Cigar smoker (finding)
230056004	Cigarette consumption (observable entity)
401201003	Cigarette pack-years (observable entity)
65568007	Cigarette smoker (finding)
405746006	Current non smoker but past smoking history unknown (finding)
160625004	Date ceased smoking (observable entity)
722499006	Electronic cigarette user (finding)
1092071000000105	Ex-heavy smoker (20-39/day) (finding)
1092111000000104	Ex-light smoker (1-9/day) (finding)
1092091000000109	Ex-moderate smoker (10-19/day) (finding)
8517006	Ex-smoker (finding)
1092031000000108	Ex-smoker amount unknown (finding)
735128000	Ex-smoker for less than 1 year (finding)
48031000119106	Ex-smoker for more than 1 year (finding)
1092131000000107	Ex-trivial smoker (<1/day) (finding)
1092041000000104	Ex-very heavy smoker (40+/day) (finding)
160605003	Heavy cigarette smoker (20-39 cigs/day) (finding)
230063004	Heavy cigarette smoker (finding)
56771006	Heavy smoker (over 20 per day) (finding)
360890004	Intolerant ex-smoker (finding)
160604004	Moderate cigarette smoker (10-19 cigs/day) (finding)
230062009	Moderate cigarette smoker (finding)
56578002	Moderate smoker (20 or less per day) (finding)
221000119102	Never smoked any substance (finding)
266919005	Never smoked tobacco (finding)
8392000	Non-smoker (finding)
394873005	Not interested in stopping smoking (finding)
230059006	Occasional cigarette smoker (finding)
428041000124106	Occasional tobacco smoker (finding)
82302008	Pipe smoker (finding)

SNOMED concept ID	Code description
230058003	Pipe tobacco consumption (observable entity)
160619003	Rolls own cigarettes (finding)
77176002	Smoker (finding)
225934006	Smokes in bed (finding)
449868002	Smokes tobacco daily (finding)
308438006	Smoking restarted (finding)
266929003	Smoking started (finding)
160617001	Stopped smoking (finding)
266918002	Tobacco smoking consumption (observable entity)
53896009	Tolerant ex-smoker (finding)
266920004	Trivial cigarette smoker (less than one cigarette/day) (finding)
160606002	Very heavy cigarette smoker (40+ cigs/day) (finding)
230064005	Very heavy cigarette smoker (finding)
836001000000109	Waterpipe tobacco consumption (observable entity)

Additional Alcohol codes

SNOMED concept ID	Code description
300939009	Abstinent alcoholic (finding)
66590003	Alcohol dependence (disorder)
160592001	Alcohol intake above recommended sensible limits (finding)
160593006	Alcohol intake within recommended sensible limits (finding)
228317009	Alcoholic binges exceeding safe amounts (finding)
228316000	Alcoholic binges exceeding sensible amounts (finding)
191811004	Continuous chronic alcoholism (disorder)
105542008	Current non-drinker of alcohol (finding)
82581004	Ex-drinker (finding)
228278007	Fairly heavy drinker (finding)
198431000000105	Harmful alcohol use (finding)
198421000000108	Hazardous alcohol use (finding)
160577002	Heavy drinker - 7-9u/day (finding)
86933000	Heavy drinker (finding)
228274009	Lifetime non-drinker (finding)
783261004	Lifetime non-drinker of alcohol (finding)
160575005	Light drinker - 1-2u/day (finding)
228277002	Light drinker (finding)
714829008	Moderate alcohol dependence (disorder)
160576006	Moderate drinker - 3-6u/day

SNOMED concept ID	Code description
713862009	Severe alcohol dependence (disorder)
160579004	Stopped drinking alcohol (finding)
266917007	Trivial drinker - <1u/day (finding)
160578007	Very heavy drinker - greater than 9 units/day (finding)
228279004	Very heavy drinker (finding)

Additional Substance Misuse codes

The following codes have been extracted from 'ILLSUB_COD' cluster codes, discarding codes that were not informative for the audit.

SNOMED concept ID	Code description
417298001	Abnormal craving for drugs (finding)
712542001	Abstinent from drug misuse (finding)

140246009	Lying blood pressure reading (observable entity)
6797001	Mean blood pressure (observable entity)
990141000000106	Measurement of blood pressure in left arm (procedure)
990151000000109	Measurement of blood pressure in right arm (procedure)
371911009	Measurement of blood pressure using cuff method (procedure)
990231000000105	Measurement of blood pressure using large adult size blood pressure cuff (procedure)
810061000000102	Measurement of blood pressure using manual sphygmomanometer by auscultation over brachial artery (procedure)

SNOMED concept ID	Code description
990161000000107	Measurement of blood pressure using manual sphygmomanometer by palpation (procedure)
816161000000103	Measurement of blood pressure using non-invasive blood pressure monitor (procedure)
990261000000100	Measurement of blood pressure using paediatric size blood pressure cuff (procedure)
990251000000103	Measurement of blood pressure using small adult size blood pressure cuff (procedure)
990241000000101	Measurement of blood pressure using standard adult size blood pressure cuff (procedure)
723236006	Minimum blood pressure (observable entity)
852301000000109	Minimum mean blood pressure (observable entity)
251076008	Non-invasive arterial pressure (observable entity)
723237002	Non-invasive blood pressure (observable entity)
163020007	On examination - blood pressure reading (finding)
170573004	Pre-treatment blood pressure reading (regime/therapy)
147827001	Pre-treatment BP reading (finding)
337061000000109	Self measured blood pressure reading
337501000000104	Self measured blood pressure reading
335661000000109	Self measured blood pressure reading (observable entity)
163035008	Sitting blood pressure (observable entity)
140248005	Sitting blood pressure reading (observable entity)
271651005	Stable blood pressure (finding)
163034007	Standing blood pressure (observable entity)
140247000	Standing blood pressure reading (observable entity)
364090009	Systemic arterial pressure (observable entity)
386536003	Systemic blood pressure (observable entity)
314464000	24 hour systolic blood pressure (observable entity)
213031000000105	Ambulatory systolic blood pressure
213041000000101	Ambulatory systolic blood pressure
198081000000101	Ambulatory systolic blood pressure (observable entity)
314449000	Average 24 hour systolic blood pressure (observable entity)
314446007	Average day interval systolic blood pressure (observable entity)
413606001	Average home systolic blood pressure (observable entity)
314445006	Average night interval systolic blood pressure (observable entity)
314440001	Average systolic blood pressure (observable entity)
945881000000109	Baseline systolic blood pressure
716579001	Baseline systolic blood pressure (observable entity)
945871000000107	Baseline systolic blood pressure (observable entity)
100171000000100	Lying systolic blood pressure
95301000000105	Lying systolic blood pressure
407556006	Lying systolic blood pressure (observable entity)
314447003	Minimum 24 hour systolic blood pressure (observable entity)

SNOMED concept ID	Code description
314441002	Minimum day interval systolic blood pressure (observable entity)
314442009	Minimum night interval systolic blood pressure (observable entity)
314438006	Minimum systolic blood pressure (observable entity)
251070002	Non-invasive systolic arterial pressure (observable entity)
163030003	On examination - Systolic blood pressure reading (finding)
707303003	Post exercise systolic blood pressure response abnormal (finding)
707304009	Post exercise systolic blood pressure response normal (finding)
775671000000104	Post exercise systolic blood pressure response normal (finding)
1162737008	Self reported systolic blood pressure (observable entity)
100151000000109	Sitting systolic blood pressure
95281000000109	Sitting systolic blood pressure
407554009	Sitting systolic blood pressure (observable entity)
75131000000106	Standing systolic blood pressure
79401000000106	Standing systolic blood pressure
400974009	Standing systolic blood pressure (observable entity)
72313002	Systolic arterial pressure (observable entity)
271649006	Systolic blood pressure (observable entity)
271870002	Low blood pressure reading (disorder)
147851006	Normal blood pressure (finding)
170605004	Normal blood pressure (finding)
2004005	Normal blood pressure (finding)
53813002	Normal diastolic arterial pressure (finding)
12929001	Normal systolic arterial pressure (finding)
140238008	O/E - BP reading normal (finding)
163024003	On examination - blood pressure borderline low (disorder)
163023009	On examination - blood pressure reading low (disorder)
163025002	On examination - blood pressure reading normal (finding)
163022004	On examination - blood pressure reading very low (disorder)

Additional Glucose codes

Any of the codes included in the IFCCHBAM_COD cluster

Cluster ID	SNOMED concept ID	Code description
IFCCHBAM_COD	999791000000106	Haemoglobin A1c level - International Federation of Clinical Chemistry and Laboratory Medicine standardised (observable entity)
IFCCHBAM_COD	1049301000000100	Haemoglobin A1c level (diagnostic reference range) - International

		Federation of Clinical Chemistry and Laboratory Medicine standardised (observable entity)
IFCCHBAM_COD	1049321000000109	Haemoglobin A1c level (monitoring ranges) - International Federation of Clinical Chemistry and Laboratory Medicine standardised (observable entity)
IFCCHBAM_COD	1971000237103	Substance concentration of haemoglobin A1c diagnostic reference range in blood (observable entity)
IFCCHBAM_COD	1107481000000106	Substance concentration of haemoglobin A1c in blood (observable entity)
IFCCHBAM_COD	6181000237109	Substance concentration of haemoglobin A1c monitoring range in blood (observable entity)

Or additional glucose codes:

SNOMED concept ID	Code description
997681000000108	Fasting blood glucose level (observable entity)
271062006	Fasting blood glucose measurement (procedure)
58111000237107	Fasting substance concentration of glucose in plasma (observable entity)
571000237106	Fasting substance concentration of glucose in serum (observable entity)
1003671000000109	Haemoglobin A1c level (observable entity)
43396009	Haemoglobin A1c measurement (procedure)
1003141000000105	Plasma fasting glucose level (observable entity)
1089381000000101	Random blood glucose level (observable entity)
271061004	Random blood glucose measurement
1003131000000101	Serum fasting glucose level (observable entity)

Additional Cholesterol codes

Cluster ID	Cluster description	SNOMED concept ID	Code description
CHOL2_COD	Total cholesterol codes with a value	1005671000000105	Serum cholesterol level (observable entity)
CHOL2_COD	Total cholesterol codes with a value	1017161000000104	Plasma total cholesterol level (observable entity)
CHOL2_COD	Total cholesterol codes with a value	1083761000000106	Serum fasting total cholesterol level (observable entity)

Cluster ID	Cluster description	SNOMED concept ID	Code description
CHOL2_COD	Total cholesterol codes with a value	1106531000000105	Substance concentration of cholesterol in plasma (observable entity)
CHOL2_COD	Total cholesterol codes with a value	1106541000000101	Substance concentration of cholesterol in serum (observable entity)
CHOL2_COD	Total cholesterol codes with a value	850981000000101	Cholesterol level (observable entity)
CHOL2_COD	Total cholesterol codes with a value	853681000000104	Total cholesterol level (observable entity)
CHOL2_COD	Total cholesterol codes with a value	994351000000103	Serum total cholesterol level (observable entity)
HDLCCHOL_COD	High density lipoprotein (HDL) cholesterol test result codes	1005681000000107	Serum high density lipoprotein cholesterol level (observable entity)
HDLCCHOL_COD	High density lipoprotein (HDL) cholesterol test result codes	1010581000000101	Plasma high density lipoprotein cholesterol level (observable entity)
HDLCCHOL_COD	High density lipoprotein (HDL) cholesterol test result codes	1026451000000102	Serum fasting high density lipoprotein cholesterol level (observable entity)
HDLCCHOL_COD	High density lipoprotein (HDL) cholesterol test result codes	1026461000000104	Serum random high density lipoprotein cholesterol level (observable entity)
HDLCCHOL_COD	High density lipoprotein (HDL) cholesterol test result codes	1028831000000106	Plasma random high density lipoprotein cholesterol level (observable entity)
HDLCCHOL_COD	High density lipoprotein	1028841000000102	Plasma fasting high density

Cluster ID	Cluster description	SNOMED concept ID	Code description
	(HDL) cholesterol test result codes		lipoprotein cholesterol level (observable entity)
HDLCHOL_COD	High density lipoprotein (HDL) cholesterol test result codes	1107661000000104	Substance concentration of high density lipoprotein cholesterol in plasma (observable entity)
HDLCHOL_COD	High density lipoprotein (HDL) cholesterol test result codes	1107681000000108	Substance concentration of high density lipoprotein cholesterol in serum (observable entity)
LDLCCHOL_COD	Low density lipoprotein (LDL) cholesterol test results	1010591000000104	Plasma low density lipoprotein cholesterol level (observable entity)
LDLCCHOL_COD	Low density lipoprotein (LDL) cholesterol test results	1014501000000104	Calculated low density lipoprotein cholesterol level (observable entity)
LDLCCHOL_COD	Low density lipoprotein (LDL) cholesterol test results	1022191000000100	Serum low density lipoprotein cholesterol level (observable entity)
LDLCCHOL_COD	Low density lipoprotein (LDL) cholesterol test results	1026471000000106	Serum fasting low density lipoprotein cholesterol level (observable entity)
LDLCCHOL_COD	Low density lipoprotein (LDL) cholesterol test results	1026481000000108	Serum random low density lipoprotein cholesterol level (observable entity)
LDLCCHOL_COD	Low density lipoprotein (LDL) cholesterol test results	1028851000000104	Plasma random low density lipoprotein cholesterol level (observable entity)
LDLCCHOL_COD	Low density lipoprotein	1028861000000101	Plasma fasting low density lipoprotein

Cluster ID	Cluster description	SNOMED concept ID	Code description
	(LDL) cholesterol test results		cholesterol level (observable entity)
LDLCCHOL_COD	Low density lipoprotein (LDL) cholesterol test results	1108541000000100	Substance concentration of low density lipoprotein cholesterol in plasma (observable entity)
LDLCCHOL_COD	Low density lipoprotein (LDL) cholesterol test results	1108551000000102	Substance concentration of low density lipoprotein cholesterol in serum (observable entity)
LDLCCHOL_COD	Low density lipoprotein (LDL) cholesterol test results	53981000237105	Substance concentration of low density lipoprotein cholesterol in plasma (observable entity)
LDLCCHOL_COD	Low density lipoprotein (LDL) cholesterol test results	55621000237101	Substance concentration of low density lipoprotein cholesterol in serum (observable entity)
NONHDLCHOL_COD	Non-high density lipoprotein (Non-HDL) cholesterol test result codes	1006191000000106	Serum non high density lipoprotein cholesterol level (observable entity)
NONHDLCHOL_COD	Non-high density lipoprotein (Non-HDL) cholesterol test result codes	1030411000000101	Non high density lipoprotein cholesterol level (observable entity)
NONHDLCHOL_COD	Non-high density lipoprotein (Non-HDL) cholesterol test result codes	1102851000000101	Estimated serum non high density lipoprotein cholesterol level (observable entity)

Cluster ID	Cluster description	SNOMED concept ID	Code description
NONHDLCHOL_COD	Non-high density lipoprotein (Non-HDL) cholesterol test result codes	11451000237102	Substance concentration of non-high density lipoprotein cholesterol in plasma (observable entity)
NONHDLCHOL_COD	Non-high density lipoprotein (Non-HDL) cholesterol test result codes	12021000237106	Substance concentration of non-high density lipoprotein cholesterol in serum (observable entity)
QRISKSCORE_COD	QRISK cardiovascular risk score codes	1085871000000105	QRISK3 cardiovascular disease 10 year risk calculator score (observable entity)
QRISKSCORE_COD	QRISK cardiovascular risk score codes	353641000000105	QRISK cardiovascular disease 10 year risk score (assessment scale)
QRISKSCORE_COD	QRISK cardiovascular risk score codes	718087004	QRISK2 cardiovascular disease 10 year risk score (observable entity)
QRISKSCORE_COD	QRISK cardiovascular risk score codes	763244005	QRISK cardiovascular disease 10 year risk calculator score (observable entity)
TCHOLHDL_COD	Total cholesterol high-density lipoprotein (HDL) codes	1015681000000109	Serum cholesterol/high density lipoprotein ratio (observable entity)
TCHOLHDL_COD	Total cholesterol high-density lipoprotein (HDL) codes	1015691000000106	Plasma cholesterol/high density lipoprotein ratio (observable entity)
TCHOLHDL_COD	Total cholesterol high-density lipoprotein (HDL) codes	1028551000000102	Total cholesterol: high density lipoprotein ratio (observable entity)

Cluster ID	Cluster description	SNOMED concept ID	Code description
TCHOLHDL_COD	Total cholesterol high-density lipoprotein (HDL) codes	313811003	Cholesterol/High density lipoprotein ratio measurement (procedure)
TRIGLYC_COD	Triglyceride test result codes	1005691000000109	Serum triglycerides level (observable entity)
TRIGLYC_COD	Triglyceride test result codes	1010601000000105	Plasma triglyceride level (observable entity)
TRIGLYC_COD	Triglyceride test result codes	1026491000000105	Serum fasting triglyceride level (observable entity)
TRIGLYC_COD	Triglyceride test result codes	1026501000000104	Serum random triglyceride level (observable entity)
TRIGLYC_COD	Triglyceride test result codes	1028871000000108	Plasma random triglyceride level (observable entity)
TRIGLYC_COD	Triglyceride test result codes	1031321000000109	Plasma fasting triglyceride level (observable entity)
TRIGLYC_COD	Triglyceride test result codes	1109821000000101	Substance concentration of triglyceride in plasma (observable entity)
TRIGLYC_COD	Triglyceride test result codes	1109831000000104	Substance concentration of triglyceride in serum (observable entity)
TRIGLYC_COD	Triglyceride test result codes	1461000237101	Substance concentration of triglyceride in serum (observable entity)
TRIGLYC_COD	Triglyceride test result codes	850991000000104	Triglyceride level (observable entity)
