

*Finding examples of good practice to take back to your own service*

*Networking and building links with staff from ACTs across the country*

*Build on your leadership and assertiveness skills*

*Great way to find out more about the ACTION Network & gain quality improvement knowledge.*

*Gain a better understanding for those about to go through their own peer review process*

*CPD points available for attending reviews*

*Peer-reviews enable staff to share and learn from best practice, facilitating quality improvement throughout the whole network*

*Reduces clinical isolation within a tough working environment*

# The **benefits** of being an **ACTION Peer Reviewer**

The Alcohol Care Team Innovation & Optimisation Network (ACTION) adopts a multi-disciplinary approach to quality improvement, with a key component of our work being the sharing of best practice through the facilitation of peer-review visits.

We serve to identify areas of achievement and areas for improvement in individual services, through a culture of openness and enquiry.

## **The Peer Review Day**

The peer review is a half day session, which aims to explore and validate the data that has been collected as part of the self review process. The peer review is discussion based and provides a platform for knowledge sharing, reflection and constructive communication. It is a supportive process that encourages development and improvement of ACTs.

The peer review team is usually made up of 4-5 people, including staff from other ACTs and someone with lived experience.

## **Peer Reviewer Training**

One hour peer reviewer training sessions happen regularly and take place on Microsoft Teams. The session provides an overview of ACTION, peer review process and an opportunity to network with other colleagues.
