Community:	HMP Holme House
Parent Trust/Organisation:	Humankind Charity
Location:	Stockton
Description:	Therapeutic communities are a long standing and highly valued element of prison-based substance misuse treatment. Humankind is committed to continuing the tradition of a high quality, service user led therapeutic community within HMP Holme House. The TC offers unique opportunities for DART service users to progress their individual recovery journey within a dedicated residential setting. Our TC Programme has 69 spaces and consists of two phases and is spread over 6- or 12-months dependent upon sentence length. We are a national prison programme and as such take referrals from across the prison estate. We are hierarchical in structure and every resident has a job within the community, alongside this structure we run our Recovery Through Nature Animal Therapy Programme giving residents the opportunity to work outside the unit and to care for animals as therapy. Groupwork and peer support groups are ran daily with every resident has their own dedicated keyworker throughout their treatment journey.

HMP SERVICES

Community:	HMP Dovegate Avalon
Parent Trust/Organisation:	HMP Dovegate
Location:	Staffordshire, United Kingdom
Description:	Avalon was originally named by residents after the legend of the Isle of apples famed for its healing powers. Avalon is a 40 bed therapeutic community in the forensic setting of HMP Dovegate. The community run a mixture of slow , open psychotherapy groups , large community meetings , thoughts and feelings check ins and Art psychotherapy groups. Residents are also encouraged to invest in the principles which underline the TC such as democratisation, culture of enquiry and learning through shared experiences.

Community:	HMP Dovegate Camelot
Parent Trust/Organisation:	HMP Dovegate
Location:	Staffordshire, United Kingdom
Description:	<p>Camelot, which is one of the six therapeutic community wings at HMP Dovegate. Although we are separated from the main side of the prison, we still share healthcare and the multi-faith centre with the main population. We do have a separate education department, visits, induction unit and grounds. We are a forty-bed unit which consists of those in core therapy (minimum of eighteen months) and those that are in their assessment phase (twelve weeks) that have moved over from the TC induction unit. Our unit consists of seven prison custody officers and six clinical members of staff. Meetings are held on the unit where all staff and participants are expected to attend.</p> <p>Every week day we hold a thoughts and feelings meeting, which involves the whole community. In addition to this, community meetings are held on Mondays and Fridays which again involve the whole community and small groups are held on a Tuesday, Wednesday and Thursday. Small groups consist of ten residents and are facilitated by either one or two staff. Art Psychotherapy are additional an additional that anyone can join and are held once a week. We also hold a voluntary resettlement meeting on Fridays, which anyone is able to attend when needed. We also hold a celebration day once a month in which the community spend informal time together, have a meal with each other and celebrate achievements such as community members coming into their ending of therapy. We also have animal assisted therapy that regularly attends the unit.</p>

Community:	HMP Dovegate Endeavour
Parent Trust/Organisation:	HMP Dovegate
Location:	Staffordshire, United Kingdom
Description:	<p>TC Endeavour is a 40-bed democratic, therapeutic community which utilises a psychodynamically informed relational model. The weekly regime consists of daily thoughts and feelings meetings, with twice weekly community meeting. Core Creative Psychotherapy is also available weekly with currently two established groups, as an additional space to offer community members the opportunity to address emotional issues linked to offending in an in-depth way that differs from the verbal mode of the small groups.</p> <p>The community is currently in the process of emerging from the covid mitigations and reconnecting to the culture previously established before the pandemic.</p>

Community:	HMP Dovegate Genesis
Parent Trust/Organisation:	HMP Dovegate
Location:	Staffordshire, United Kingdom
Description:	<p>TC Genesis is a place where we believe that people can grow. We encourage TC Participants to explore behaviour, past traumas and their way of thinking. We offer care and support for all of those who join TC Genesis in the hope of them learning about themselves and moving onto a better place in their lives.</p> <p>TC Genesis is a 40-bed community in which we try and give as much autonomy as allowed in the prison setting to the community members. We work from a relational model and offer community meetings and small group meetings throughout the week.</p>

Community:	HMP Grendon TC+
Parent Trust/Organisation:	HMP Grendon
Location:	Buckinghamshire, United Kingdom
Description:	The TC+ is a community at HMP Grendon which opened on 7 April 2014 and provides a specialist intervention for prisoners with a lower level of intellectual functioning (IQ below 80) to address offence-related risk, including offences of murder and rape (no child sex offenders) and associated personality and psychological disorders. We deliver a core treatment model suitable for sentenced offenders with a wide range of offending needs whose complex needs cannot be adequately met by a single intervention. We run community meetings on Monday and Friday, and small group therapy meetings which run for an hour and a half on Tuesday Wednesday and Thursday. Our provision includes Art Therapy, Music therapy and Psychodrama. We have a good educational department and gym, and run Family Day every year when family is invited onto the wing for the day. We have 20 beds and a staff team trained in working with this client-base.

Community:	HMP Send
Parent Trust/Organisation:	HMP Send
Location:	Surrey, United Kingdom
Description:	<p>Send is the location of the Democratic Therapeutic Community (DTC), the only unit of its kind in the women's prison estate and a part of the National OPD Pathway.</p> <p>The DTC is a nationally accredited treatment intervention program. It is a unique approach to therapy, focusing on change through communal living and relational experiences. The evidence-based program is guided by values, standards and practices which create an environment promoting healthy relationships, managing difficult behaviours, taking responsibility and risk reduction.</p> <p>DTC members engage as a community to reflect upon themselves and the reasons behind their offending behaviour. Ultimately, the goal of spending time at a DTC is to help members live life positively, free from the risks which lead to offending behaviour. The DTC aims to help members recognise patterns of behaviour in an honest, open and supportive environment.</p>

Community:	HMP Warren Hill
Parent Trust/Organisation:	HMP Warren Hill
Location:	Suffolk, United Kingdom
Description:	<p>Location to the Therapeutic Community following the agreed National referral protocol - National Resource 40 bed Unit - The Therapeutic Community is a group based intervention aimed at those individuals who are motivated to make changes to their lives and address their risk of re-offending and harm. Individuals must have a minimum of 24 months left to serve on their sentence, be motivated to address their risk, take responsibility for their offending history, have insight into the areas of their risk they need to address, be of category C status, be adjudication free (at least 3 months) and drug free (at least two months). Applicants should also be free of self-harm for 2 months (longer stability may be required for those with long history of self-harm) and have no active symptoms of major mental illness. Individuals should also not have an index sexual offence or outstanding treatment needs related to sexual offending. Those with historical sexual offences will be considered on a case-by-case basis. Referrals for the TC should be made to tcwarrenhill@justice.gov.uk. Applicants will be required to complete a referral pack which can be sourced from the Warren Hill TC mailbox.</p> <p>Applicants will need to be aware that the TC is an open-ended intervention where progress is reviewed on a six monthly basis. There is a minimum of 4-6 months in assessment and a minimum of 18 months in core therapy. Applicants progress will be reviewed every 6 months and they will be expected to work with the TC treatment team to identify a suitable end date to therapy as they progress and address their risk.</p>

INDEPENDENT COMMUNITIES

Community:	Ashburn Clinic
Parent Trust/Organisation:	Ashburn Hall Charitable Trust
Location:	Dunedin, New Zealand
Description:	Ashburn Clinic is a not-for-profit democratic therapeutic community and psychiatric hospital that has provided mental health services to the NZ community for 139 years. Ashburn works particularly well for patients who have serious and/or complex psychiatric illness, e.g. personality disorders, eating disorders, addictions, treatment resistant depression/anxiety and severe and complex responses to trauma. Through a psychodynamically-informed programme incorporating group and individual therapy, patients are supported to address their unhealthy behaviours, understand the underlying and emotional and psychological issues and move towards improved wellbeing and a better quality of life.

CHILDREN & YOUNG PEOPLE (CYP) SERVICES

Community:	Blackberry House
Parent Trust/Organisation:	Compass Children's Home
Location:	West Sussex, United Kingdom
Description:	<p>Blackberry is a therapeutic community working with young people age 15-18 with complex needs. The house has embraced an Assessing, healing complex trauma (AHCT) approach, working with the complexities of developmental trauma. The house is composed of four bedrooms that will allocate four children. The children are expected to engage in a therapeutic approach, attending daily meetings, group dynamics as well as 1:1 therapy, where appropriate. Blackberry House opened February 2021, since then, the team of adults have grown and developed into a group of professional adults with a better understanding of therapeutic practice and the aims of the therapeutic work. Blackberry leadership and the therapeutic practitioner work alongside each other to ensure that every decision effecting the community has the best interest of the children at its centre. An emphasis of building independency in our young people is paramount for the functioning of our community, due to the age group placed at the house.</p>

Community:	Brynteg
Parent Trust/Organisation:	Birribi
Location:	Pembrokeshire, United Kingdom
Description:	<p>Birribi offers a therapeutic care environment in a group home setting for children and young people aged 8-19. We have 3 homes, each accommodating up to a maximum of 4 young people. We specialise in providing a therapeutic community environment and caring for young people who have suffered some sort of trauma in their early years, such as sexual, physical or emotional abuse or neglect. The therapeutic environment creates a healing and secure base, from which young people may experience stable and positive relationships and progress in their social and emotional development. When children and young people enter into residential placements, they have invariably experienced multiple adversities and have complex life experiences in both their family and attachment relationships, as well as in their experiences in education. Our therapeutic environment provides a secure base for children whose social and emotional development has been compromised and where they may also present a range of behavioural problems and have coexisting mental health problems or neurodevelopmental disorders.</p> <p>Our specialist settings manage and address any behavioural problems that children and young people may present with, through building pro-social skills and protective factors. The staff team create a highly structured routine. There are very high levels of supervision and oversight to maintain a safe living and learning environment. As young people progress through their placement, build social skills and form positive relationships, they are able to achieve greater independence and gradually extend their links with peer groups, activities and sports clubs in the community. Thus, the progression is of building life-skills and confidence to become positive members of society as young adults. Therapeutic work may prepare them for their eventual return to their family of origin where possible, integration into long-term foster care or transition to independent/ semi-independent lives in the community. We may provide them with long-term care and support transition to adult services, where other options are unavailable or where this best meets the young person's needs, and this is their preferred option. Our aim is to help them achieve their ambitions and reach their full potential.</p> <p>Our therapeutic approach, the Youth Centred Integrated Approach (YCIA), is a family/systemic approach and helps to create a structured plan for interventions within a stable and restorative home environment for children and young people who have suffered adverse childhood experiences. At the core of our model is the aim to enable young people to form positive relationships, build a positive sense of self and their identity, and to develop motivation and positive engagement in education, training with purposeful and hopeful aspirations for the future. The therapeutic approach is guided by the values and principles of therapeutic community-based care.</p>

Community:	Emmeline
Parent Trust/Organisation:	Compass Children's Home
Location:	Birmingham, United Kingdom
Description:	Emmeline is a EBD therapeutic home specialising in overcoming childhood trauma (OCT) and we are registered for children and YP aged 7-17. We offer a 52 week placement with a therapeutic programme for the children and YP placed here. This programme is led by our programme psychologist and includes a pre-assessment before admission for suitability to the programme and 50 1:1 therapy sessions while living in the home. Emmeline provides and nurturing and warm therapeutic environment for YP to thrive and feel safe. We are child centred and take a holistic approach. We believe that children are able to recover when they feel safe and able to express themselves, and we respond to challenging behaviour with an understanding approach that promotes reflection and reparation, we work alongside YP who have significant attachment difficulties and pride ourselves on supporting YP to understand what their behaviour is communicating.

Community:	Sacre Coeur
Parent Trust/Organisation:	St Bernards
Location:	Tipperary, Ireland
Description:	<p>Sacre Coeur is a designated Therapeutic Children's Residential Service for Tusla South that can currently accommodate five children of mixed gender from the age of seven and up to the age of eleven on admission.</p> <p>Sacre Coeur's primary task as a Therapeutic Children's Residential Service is to care for children who have experienced trauma and have serious attachment problems which impacts upon their capacity to live with their families or carers. Consequently, these children are often unable to manage themselves in age-appropriate ways or allow others to do so for them. They are likely to be acting out severe behaviours such as aggressiveness, dangerous impulsivity, inappropriate sexualised behaviour and unable either to accept being part of a group or allow a group to function without disruption. They may also, on admission, be unable to form or sustain relationships or to attend school. Such behaviours are often present to an extreme degree. They are deemed to need more attention and supervision than is normally available in mainstream residential childcare setting.</p> <p>The primary task of the unit is to provide a consistent high quality multidisciplinary therapeutic programme that includes group living treatment, individual psychotherapy, national curriculum education and family support.</p> <p>The three principal aims of the therapeutic intervention offered are:</p> <ul style="list-style-type: none"> • to enable the children to make trusting relationships with staff so that they can make up for crucial developmental deficits • to help the children to recover from possible traumatic experiences • to prepare the children to return, where this is appropriate, to their family, carers or to prepare them for alternative care arrangements, such as foster care or medium-term care

Community:	The Mulberry Bush School
Parent Trust/Organisation:	Mulberry Bush Organisation
Location:	Oxfordshire, United Kingdom
Description:	The Mulberry Bush School is a specialist therapeutic provision that works with some of the most challenging children in the country. All of the children who attend The Mulberry Bush School have suffered severe and enduring complex trauma in their early years. These damaging events and relationships lead the children to display the most extreme anxiety creating behaviours, which then gives rise to multiple placement breakdowns and school exclusions. The work of The Mulberry Bush is to create a safe and containing environment that is able to emotionally hold extreme levels of emotional and physical difficulties. Once established this supportive environment enables our children to start to address their academic, social and emotional needs. Our staff set themselves ambitious targets, working in a highly planned, creative and reflective way. This approach allows the children to make significant progress with their learning, as well as address their social and emotional development. Our work with the children, their families and carers, as well as the wider network of professionals aims to break the cycle of deprivation that will otherwise lead to an enactment of high risk and abusive behaviours into a child's adult life, hence our work is both emotionally and financially cost saving to society.

Parent Trust/Organisation:	My 3 Ltd
Location:	West Lancashire,United Kingdom,
Description:	<p>Wood Edge cares for young people, who have a range of conditions most notably Autistic Spectrum Condition (ASC), Learning Difficulties, and Social, Emotional and Mental Health. However, as every child is unique, we will always assess children individually. The atmosphere that we aim to create and uphold in the home is one of a nurturing and happy nature. We cater for up to four young people both boys and girls up to the age of 18 years of age.</p> <p>Our aim is to ensure all Children and young people accommodated at Wood Edge have individual plans that are appropriate for their age and cognitive ability and needs, ensuring they receive a holistic service that meets their own individual needs. Our aim is to ensure that all the children and young people can co-habit together and enjoy the value of group living whilst maintaining a safe environment for all our children and young people, with consideration to the different issues varying age levels and developmental stages can present.</p> <p>At Wood Edge, we believe that each young person needs a sense of routine and consistency in their lives and a caring approach to encourage the development and maintenance of pride, self -discipline, self -esteem, confidence and ultimately to feel trust and respect for themselves and others. To this end, we endeavour to have a staff team who are committed to working with Young people, to encourage them to express themselves positively and freely.</p> <p>We believe that the involvement of everybody concerned with the young person's well-being, most importantly the involvement of the young people themselves, is of paramount importance in facilitating and achieving our aims and the young person's personal goals and aspirations. We recognise the importance of treating each young person as an important and respected member of a "family unit", whilst at the same time recognising their individual personality. Young people are actively encouraged to discuss their needs, wishes and feelings openly. Our purpose is to provide high quality residential care to young people from admission to transition. Working closely with our Occupational Therapist (OT) with consultation from our ASC consultant psychologist we will ensure that the young people have preferred communication systems which are accessible and implemented as part of their day to day living.</p> <p>We provide individual packages of care tailored to meet the needs and requirements of each individual young person.</p>

Community:	Lavender Field School
Parent Trust/Organisation:	Hopedale
Location:	Cheshire, United Kingdom
Description:	<p>Lavender Field School provides education for children with complex needs; social, emotional, mental health, and a range of cognition and learning needs. Children are supported within a nurturing and reflective environment where emphasis is on forming healthy trusting relationships within which children may achieve and feel valued. We aim to support children to reach their full potential, to have a positive sense of self-worth and to develop resilience to challenge. Age range 5 – 16 years.</p>

Community:	The Old Barn
Parent Trust/Organisation:	Absolute Children's Services
Location:	Doncaster, United Kingdom
Description:	<p>Absolute Children's Services provides homes that are unique and family-orientated with consistent boundaries. Our homes are designed to ensure that each child feels comfortable and safe within their environment. High levels of nature and stability are presented as we replicate a loving family. We take great care to avoid giving any sense of institutionalisation. We create a therapeutic restorative family environment for the recovery and rehabilitation of children and young people who have suffered abuse, neglect, victims of child sexual abuse, exploitation, and other trauma. We aim to transform the lives of children and young people who suffer severe emotional and psychological difficulties, through positive therapeutic and behavioural approaches. Within our homes, it is achievable to provide one-to-one care. We assign a member of the care team to a child to meet their individual needs and offer exceptional care and attention. Every child and young person have a therapeutic keyworker identified, whose role is to ensure that the child's needs are met. They ensure that individual talents, enthusiasm, and preferences are recognised, developed and that emotional and psychological concerns are understood and worked through. The keyworker provides a special focus for exploring and developing capacity for a healthy emotional attachment in all its complexities.</p>
