

**S**

**Situation:**

I am (name), calling from Keats ward

I am calling about (patients name)

I am calling due to concerns of physical observations, due to physical obs, which are: (BP:..., Pulse:..., Temperature:..., Resps:..... sats:.....)

**B**

**Background:**

(Patient) was admitted on (date) due to (reason for admission)

They have (any known physical health conditions)

Their observations have been deteriorating since:.....

**A**

**Assessment:**

I think she has suspected Corona virus

I have increased her observations to QDS (whether they are having oxygen and how much) and she is currently being barrier nursed in her room.

**R**

**Recommendation:**

Please can you come and assess the patient (consider how soon you need them to come to the ward, dependent on the health of the patient) and complete: bloods and a swab?

Is there anything else you want me to do?
