

## Successes shared at the QuITT Learning Set 21<sup>st</sup> February 2023

Ways to engage  
on social media

CAMHS prevention project

15 patients now  
smoke-free

Engage well with  
cross-section of staff

Collecting data

Deliver a variety of speciality training  
modules for patients and staff

Service adapted to meet  
needs of all directorates

Collaborative work with other teams in Trust

Smoke-free  
dashboard

Provision of nicotine replacement  
therapy + provision of E-cig on a  
short term

Suite of policies/procedures  
to embed practices

Set up a social media (twitter)  
account to promote service

Great success supporting staff  
to quit

Successful quitters

Good engagement  
with ward staff

Data and data  
analyst to support  
measurement

We've had positive feedback!

We have a service up and  
running now

Regular engagements with  
patients

Increase knowledge  
of smoking policy
