

From the Chair of the Royal College of Psychiatrists in Scotland

18 May 2023

Dear Conference Organisers

I am aware that our colleagues in Grampian are finalising a bid to bring the European Conference on Mental Health to Scotland in 2025. The Royal College of Psychiatrists in Scotland are delighted to support them and as the Chair of the College in Scotland, I am writing to add my support to this proposal. Dr Palin and his team are the epitome of multidisciplinary working and I know would be generous and enthusiastic hosts.

As a College, we represent over 1,400 members in Scotland who possess a vast range of experience and expertise. Our members would be very keen to support this conference and would be available to share local developments, learning and good practice.

If there is anything else I can do to assist you with this matter, or any further information that I can provide, then please let me know.

With my very best wishes,

Yours sincerely

Dr Linda Findlay

Chair of the Royal College of Psychiatrists in Scotland
