July 2017 (Issue 31)

Dear Colleagues

The RCPsych International Congress last month was a great success!

The chairs and officers of the international divisions had the chance to meet during this Congress and exchange news and ideas. All the divisions have many activities planned for the coming year. We would really like to highlight the work of the African Division who are supporting the University of Cardiff in their application to the UK Government's Global Challenges Research Fund for research aimed at improving the monitoring and treatment of people with psychosis in (low and medium income; LAMI) countries. We also want to highlight the extraordinary work of the South Asian Division in using telepsychiatry to assist patients in remote regions of Pakistan. The South Asian Division has also translated the RCPsych booklets on Anxiety and Stress, Chronic Stress and Depression, Dementia, Post-traumatic Stress Disorder and Schizophrenia into Pushto in order to educate and support the local populations.

It was also noted at the meeting that [The Medical Training Initiative \(MTI\)](#) has been both popular and successful in attracting international psychiatric trainees who wish to come to the UK and train in the NHS for up to two years before returning to their home country. Professor Al-Uzri, Specialist Advisor for MTI, explained that international psychiatric trainees were being offered CT3 posts. The scheme has reached its full capacity for 2017. Trainees interested in taking part in 2018 will be able to apply in October this year. Priority will be given to applicants from LAMI countries

Our division has been very active as you know and we are looking forward as always to your ideas and suggestions as to how to enhance members' experience.

This and That

✳️Job Board✳️

The Job Board can be accessed at http://jobs.rcpsych.ac.uk/home/index.cfm?site_id=16082 The site accepts job postings from employers and allows job seekers to search for jobs and create personalized alerts based on their interests. Please note that the **postings are international** (not just UK) and include clinical and academic posts at all levels of seniority.

✳️ **RCPsych PanAm Book club** ✳️ The book club features books (recommended by our members). The topic has to be relevant to psychiatry and neuroscience from either a scientific, literary or societal perspective. Self-nominations by authors who are college members are welcome. Please provide a brief comment for each recommendation but this is optional. Any ideas? Please send them in at panamericandivision@rcpsych.ac.uk! NB: Inclusion of a book in the PanAm Book Club does not imply endorsement or promotion by the RCPsych.
