## CESR Transition Timetable

Due to GMC altering their CESR transition policy, CESR applicants are able to apply for CESR under the previous curriculum for a maximum of 12 months after the curricula has been approved.

Between January 2022 and August 2022 applicants will be able to apply under the psychiatric curricula of 2019 **or** under the newly approved psychiatric curricula.

After **1<sup>st</sup> August 2022** the current curricula will no longer be available to apply under and all applicants are expected to apply under the requirements of the new curricula. If applicants require specific support with translating their previous evidence under the new curricula they are advised to contact the College for specific advice on their circumstances.
