CPDeLearning

**RCPsych's online learning resource
for mental health professionals**

RC PSYCH
ROYAL COLLEGE OF
PSYCHIATRISTS

Editor's Welcome

Dr Howard Ryland
MBBS, **MRCPsych**

We are pleased to share our brochure for our CPD eLearning content, to showcase our modules and podcasts by category to provide another way for you to peruse our educational offering on the eLearning Hub.

CPD eLearning is a bespoke resource from RCPsych, with modules and podcasts specifically designed to meet the educational needs of practising psychiatrists. As this is produced by RCPsych, you can be confident in their quality and relevance.

Our digestible modules and podcasts are created by experts in their fields, predominantly clinical and academic psychiatrists, who know what you need to know. They've done the hard work for you, by sifting through the literature to produce cutting-edge updates across a whole range of topics. Everything can be straightforwardly accessed from your desktop or mobile, so you can easily fit your learning around other commitments.

CPD eLearning is designed for professionals working in mental health services. Currently we have over 200 modules and 170+ podcasts to choose from and these numbers are always growing, while content is kept up to date through our module updates programme. Certificates are generated automatically after satisfactorily completing each learning event, making it simple to evidence your credits towards annual CPD requirements. At present you can obtain up to 50 credits from eLearning.
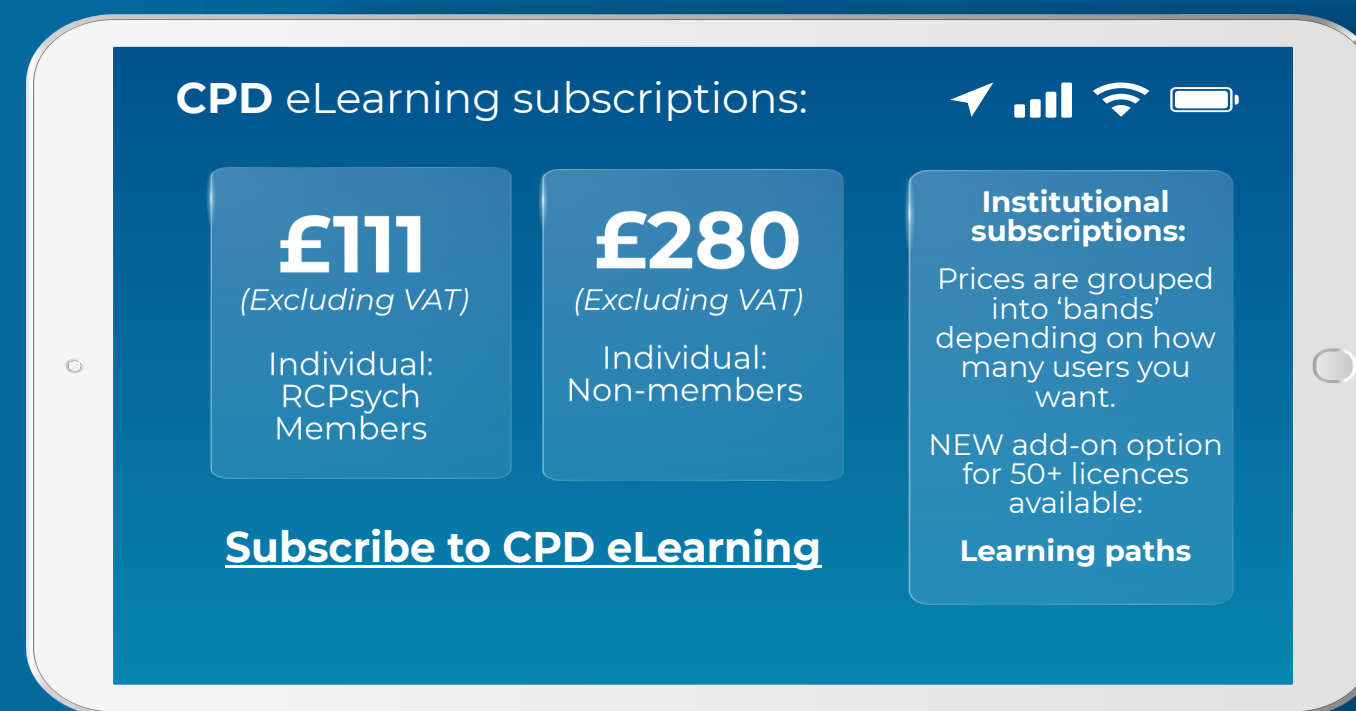

You can subscribe as an individual or institution and we welcome all, in the UK or internationally. We now offer an add-on option for OpenAthens subscriptions of 50+ licences, to design your own learning paths or select CPD eLearning resources to create a mandatory training package. Contact the team for a quote.

We are particularly grateful if users leave feedback on any aspect of CPD eLearning and, if you would like to get further involved, just drop us a line for details of opportunities. If you have any further questions about our educational offering, please contact the eLearning Team at elearning@rcpsych.ac.uk.

**Dr Howard Ryland, CPD eLearning Editor**

Members of the Royal College of Psychiatrists can use **CPD** eLearning to complete all of their annual CPD requirements

CPD eLearning is the online learning resource for mental health professionals

Modules and Podcasts by category

We are pleased to offer a selection of free modules and podcasts for those without a paid subscription. Members of RCPsych can access the free content straight away using the same username and password with which they would access the members' area of the College website. Otherwise, all you need to do is register with the College. Those free to access are marked **FREE** in the list.

Addictions

Modules

- An introduction to evolutionary psychiatry
- Alcohol and the brain
- Alcohol-related brain damage
- Buprenorphine in opioid dependence
- Hepatitis C and mental illness
- Neptune module 1: An introduction to club drugs and novel psychoactive substances
- Neptune module 2: Acute harms and management of depressants
- Neptune module 3: Acute harms and management of stimulants
- Neptune module 4: Acute harms and management of (SCRA) and hallucinogens
- Neptune module 5: Chronic harms and management of depressants
- Neptune module 6: Chronic harms and management of stimulants
- Neptune module 7: Chronic harms and management of (SCRA) and hallucinogens
- Safe and effective opioid replacement therapy
- Safe lithium prescribing: initiation and monitoring
- Stimulants: epidemiology and impact on mental health
- Substance use disorders in older people

Podcasts

- Alcohol self-management during COVID-19 and beyond **FREE**
- Gambling and gaming addiction (RCPsych Congress 2019)
- Managing alcohol withdrawal in acute in-patient psychiatry **FREE**
- RCPsych in Scotland: Drug-related deaths
- Amphetamine-type stimulant drugs – a dangerous trend
- Crow and Murray: the nature and history of psychosis: Part 3

Child and adolescent

Modules

- ADHD in under-18s: background and assessment
- Adolescent forensic psychiatry: Part 1 – introduction and structure
- Adolescent forensic psychiatry: Part 2 – assessment and treatment
- An introduction to evolutionary psychiatry
- Autism spectrum disorder: the place of pharmacological approaches *Quickbite*
- Behavioural activation in young people with low mood FREE
- Behavioural problems in the under fives: Part 1
- Behavioural problems in the under fives: Part 2
- Behavioural problems in the under fives: Part 3
- Body dysmorphic disorder: Part 1
- Body dysmorphic disorder: Part 2
- Children's mental health within Scottish legislation
- Climate change, nature and children and young people's mental health
- Complementary medicines for ASD and ADHD
- Complex PTSD in children and adolescents *Quickbite*
- Depression in children and adolescents: Part 1
- Depression in children and adolescents: Part 2
- Ethical and legal challenges within CAMHS Part 1
- Ethical and legal challenges within CAMHS Part 2

- First-episode psychosis: Part 1 – assessment, diagnosis and rationale
- First-episode psychosis: Part 2 – treatment approaches and service delivery
- Music therapy - an introduction
- Practical child protection
- Premenstrual dysphoric disorder (PMDD)
- Psychiatric aspects of perinatal loss
- Psychosocial management of self-harm: Part 1
- Psychosocial management of self-harm: Part 2
- Psychotropic medication in breastfeeding Quickbite
- Rapid tranquillisation in children and adolescents
- Recognising autism spectrum disorders in children with normal-range intelligence
- Report writing in criminal cases involving young people
- Safeguarding children:
- School refusal
- Self-harm in adolescents: Part 1
- Self-harm in adolescents: Part 2: ensuring
  safe practice in general adult psychiatry settings
- Transferring care between age-specific services: young people's transitions
- Working with deaf and hearing-impaired people

Podcasts

- Antidepressants in children: do the harms outweigh the benefits?
- ADHD in children and adolescents
- Anxiety disorders in children
- Attachment and how it relates to psychiatry
- Confectionery consumption in childhood and aggression in later life
- Depression in children and adolescents: Part 1
- Depression in children and adolescents: Part 2
- Developing communication in the therapeutic settings
- Early onset psychosis: new findings on prevalence, needs and service provision

- Gambling and gaming addiction (RCPsych Congress 2019)
- How mothers with BPD relate to their year-old infants
- Long-term outcomes for the offspring of depressed parents
- Managing alcohol withdrawal in acute in-patient psychiatry **FREE**
- Neurobiology of ADHD
- Psychological treatments for children and adolescents with eating disorders
- RCPsych in Scotland: Drug-related deaths
- Safeguarding children
- Self-harm
- Self-harm in adolescents
- Self-harm: non-suicidal self-injury
- The management of eating disorders
- Working with patients remotely

Cultural diversity

Modules

- Complex humanitarian emergencies: mental health and psychosocial response **FREE**
- Cultural competency
- Cultural psychiatry
- Diversity training for psychiatrists
- Ethical considerations arising from the Government's counter-terrorism strategy **FREE**
- Exploring spirituality with people who use mental health services **FREE**
- Improving access, experience and outcomes for people living with dementia from ethnic minority communities **FREE**
