Dear Colleagues

As we approach the end of 2018 it's a great time to reflect on the highlights of the year for our Division.

First we would like to congratulate the colleagues who were elected Fellows of the College in 2018. It is wonderful to see our members recognised for their work in promoting excellence in clinical care and research.

Second, the College is committed to increase the participation of the international divisions in its activities including access to key educational events. Here we note the President's Lectures, a series of invited lectures that take place a few times a year at the RCPsych. The latest presidential lecture is now available on the [RCPsych YouTube channel](#). The speaker is by [Dr. Derek Tracy](#), Consultant Psychiatrist and Clinical Director at Oxleas NHS Foundation Trust, London.

Allan Tasman
Financial Officer

We thank Dr. Nigel Bark, A. Einstein College of Medicine, New York, President of the West Hudson District Branch of the American Psychiatric Association and past chair of our Division, for his suggestions for our book club (details below) and his inspiring and positive message which provides a fitting end to this newsletter: "I recommend two wonderful, important books: "Factfulness" and "Enlightenment now: the case for reason, science, humanism and progress". These two books demonstrate with endless facts and figures that despite what we read in the paper every day everything has got better: If one looks beyond the headlines at the actual state of the world and the progress that has been made we should be elated not depressed!"

With best wishes for the Holidays and a happy New Year
