

# Neuroscience for Psychiatrists Virtual Update

9am-1.30pm Friday 29th January 2021

## Neuroscience of psychosis

Join us for a fascinating series of virtual presentations on the cutting edge neuroscience that is helping to shape our understanding of **psychosis throughout the lifecycle**.

Using a **clinical case** as a backdrop we will explore at a range of topics including; **genetics, autoimmune psychiatry, neuroimaging, perinatal psychosis and cognition in psychosis**.

### Confirmed speakers include:

Professor Paul Fletcher, University of Cambridge

Professor Belinda Lennox, University of Oxford

Dr Harry Rolinski, University of Bristol

Dr Marisa Casanova-Dias, University of Cardiff

Professor Rob Howard, University College London

### Free Event
