50	Is there a time limit for the evidence? For example if you completed an SHO rotation many years ago (15+) but didn't complete the exams at that time but have now done your exams? Would the old rotation still count?	You would need to provide a Certificate C in this case to demonstrate your achievement of Core Competences. You would be able to use evidence from your old rotations to present to the Consultant signing off the form. As long as you can demonstrate that the competences have since been maintained, it doesn't matter how long ago they were initially achieved.

If yes, then you cannot use this form to enter higher Psychiatry training. Instead, you should satisfactorily complete your core training programme.

If you are currently in Core Training and having ARCPs, you do not need a Certificate C.
